- 12. Introduced RPA (Robotic Process Automation) into its office operating system, to improve the procedures and increase efficiency.

# Impacts of external competition, regulatory environment and the overall business environment

In 2019, the global IT expenses are expected to achieve US\$3.8 trillion, representing a growth of 3.2% as compared to last year. Despite many uncertainties such as the Brexit, trade wars, and customs duties, IT expenses are still expecting growth. More enterprises will participate in the digital transformation of enterprises, with their focuses gradually transferred to cloud services and IoT devices, maintaining the growth trend of data centers. The CAGR of the Connected Car field is expected to reach 23% by 2021, becoming the application with the fastest growth in the IoT market. Leverage on the strong demand of self-driving cars and Connected Car applications, the R&D for related technologies advancing alongside networking technologies and the legislation of government will be the key to future growth. In the ever-changing global technology industry, the competition pattern constantly changes, from supply chain to the ecosystem. Therefore, an increasing number of enterprises have been using cloud computing, actions, Big Data analysis, and AI to restructure, accelerating innovations and promote the digital transformation of enterprises. Our businesses will be facing increasing challenges and more opportunities.

#### **Prospect and Operating Direction for 2019**

MiTAC Holdings Corporation seen through the revolution of digital transformation focused on customized demands, improved the coverage for value and services. MCT has been responsible for the core development of cloud data, computing equipment, and embedded system, utilizing its powerful and advanced technology R&D to embrace the open source framework. It reinforces its competitiveness with vertical and horizontal alliances, indirectly or directly provide the best overall cost solutions to customers. Focusing on automotive, IoB, and special business solutions, MDT leverages on the localized services extended through satellite navigation and technical services in relation to images extended from dashboard camera as its core strength, establishing a firm foothold to invest in the field of Connected Car with significant potentials in the future. Except for drawing up the development blueprint for the Group, making investments, and assuming the role of strategic alliances, MHC will continue to promote the digital transformation of the Group, pursue value growth and profiting, so as to return shareholders granting their long-term support with stable growth and profits.

Best regards,

Chairman: Miau, Matthew Feng Chiang

President: Ho, Jhi-Wu

# Two. Company profile

I. Date of establishment: September 12, 2013

Note 1: If Directors and Supervisors serve as representatives of institutional shareholders, then the names of institutional shareholders must be provided.

Note 2: Name the major shareholders (the top 10 owners) of institutional shareholders and their shareholding percentage. Table 2 below is applicable if any of the major shareholders is an institutional entity.

Note 3: As the corporate shareholders' share transfer has not yet been suspended at the 2019 general shareholders' meeting by the date of publication of the Company's annual report, the related information and Table2 refers to that available on the date of share transfer suspension at the 2018 general shareholders' meeting.

Table 2: Major shareholders of dominant shareholder who is an institution

April 1, 2019

Note 1: Place a "✓" in the box if the director or supervisor met the following conditions at any time during active duty and two years prior to the date elected.

- (1) Not an employee of the Company or its subsidiaries or affiliates.
- (2) Not a director or supervisor of the Company or its subsidiaries or affiliates (except an independent director of an investee of the Company, of the parent of the Company, or subsidiaries).
- (3) The person, the spouse, underage children, who hold more than 1% of the outstanding shares or one of the top 10 shareholders who are natural persons or who hold shares of this company under the title of a third party.
- (4) Not the spouse, kin within the 2nd tier or the next of kin within the 3rd tier of any of the parties mentioned in previous three paragraphs.
- (5) Not a director, supervisor or employee of an institutional shareholders holding more than 5% of the outstanding shares of the Company, or of the top five institutional shareholders.
- (6) Not a director, supervisor, manager, or shareholder holding more than 5% of the outstanding shares of specific company or institution having business of financial transactions with the Company.
- (7) Not a professional, proprietor, partner, company or the owner, partner, director, supervisor, manager or spouse of the professional consulting entities providing services or consultation in business, law, finance, accounting and other for the Company or its subsidiaries or affiliates. The Remuneration Committee members who perform duties in accordance with Article 7 of the "Regulation Govering the Appointment and Exercise of Powers by the Remuneration Committee of a Company Whose Stock is Listed on the Stock Exchange or Traded Over the Counter" are not subject to this restriction.

- (8) Not a spouse or kin within the 2nd tier of another director.
- (9) The provisions of Article 30 of the Company Act are not applicable.
- (10) Not elected to the government, institution or their representatives under Article 27 of the Company Act.

Note 2: In accordance with order No. Financial-Supervisory-Securities-I-0960010070 of the Financial Supervisory Commission, Executive Yuan, when an independent director of a financial holding company concurrently serves as the independent director at one of its 100% owned subsidiaries, Under such circumstance, the position held in the subsidiary is treated as held in the same company, and is thus excluded from concurrent positions in "other" public companies as set out in Article 4 of the "Regulations Governing Appointment of Independent Directors and Compliance Matters for Public Companies". Notwithstanding the forgoing, this exemption only applies to the concurrent position in one subsidiary company only and any other positions will be counted as concurrent positions.

Note 1: The figure for pension is appropriated amount.

Note 2: Represents the amount of directors' remuneration that the board has proposed as part of the latest earnings appropriation.

Note 3: The amount of remuneration to employees planned to pay in the most recent year.

Note 4: Total remuneration as a percentage of net income stated in the entity financial reports as paid by the Company and by each other company included in the consolidated financial statements to the Company's directors during the past 2 fiscal years, and analyze and describe remuneration policies, standards, and packages, the procedure for determining remuneration, and its linkage to operating performance and future risk exposure.

The remuneration to directors is decided by the Board of Directors pursuant to the Company's Articles of Incorporation, based on the suggestion proposed by Remuneration Committee, typical pay levels adopted by peer companies and future risk payment. Further, according to Article 25 of the Company's Articles of Incorporation, if the Company has profit at the year's final accounting, it shall allocate no more than 1% thereof as the remuneration to directors/supervisors.

The net income after tax increased in 2018 from 2017. Notwithstanding, in consideration of the decline in profit earned by the core business, the total remuneration to the directors of the Company and all companies included in the consolidated financial statements decreased from 2017, therefore, the percentage of total remuneration to net income declined from 2017 which was 0.19%.

Note 5: The Company does not disclose the name and remuneration of particular director. Therefore, the disclosure of remunerations was presented on a salary scale with the names of all concerned.

Note 6: Further to the aforementioned disclosure, the remunerations received by the Directors of the Company for rendering service to all companies included in the financial statements (like a consultant): None.

| Vice president and head of finance | Huang,<br>Hsiu-Ling                |         |                               |         |                               |           |                               |                     |                       |                            |                       |   |                      |  |  |

- Note 1: Retired Pension as stated is the amount of appropriation.
- Note 2: Represents employees' remuneration proposed as part of the latest earnings appropriation.
- Note 3: Total remuneration as a percentage of net income stated in the entity financial reports as paid by the Company and by each other company included in the consolidated financial statements to the Company's presidents and vice presidents during the past 2 fiscal years, and analyze and describe remuneration policies, standards, and packages, the procedure for determining remuneration, and its linkage to operating performance and future risk exposure.

The remunerations to presidents and vice presidents are commensurate with their personal performance and contribution to the overall operation of the Company and based on the recommendation proposed by Remuneration Committee, typical pay levels adopted by peer companies and future risk payment. The total remuneration to the Company's presidents to the net income after tax in 2018 was equivalent to that in 2017. The net income after tax increased in 2018 from 2017. Notwithstanding, in consideration of the decline in profit earned by the core business, the total remuneration to presidents and vice presidents of the Company and all companies included in the consolidated financial statements decreased from 2017 and, therefore, the percentage of total remuneration to net income declined from 2017 which was 0.93%.

| least on an annual basis?   |          | website of the Company for viewing. The remuneration to the Directors of the Company is governed by Article 25 of the Articles of Incorporation thereby no more than 1% of the earnings in current period shall be appropriated as the remuneration to Directors and Supervisors in current year with reference to the operation result of the Company, and in commensuration with the individual contribution of the Directors and Supervisors to the performance of the Company at a reasonable level. The procedure for the determination of remuneration to Directors is governed by the "Regulations Governing the Evaluation of Board Performance" with reference to the contribution to the overall operation performance of the Company, the operation risk inherent to the industry in the future, and development trend. In addition, the individual performance attainment rate and contribution to the Company will also be considered for reasonable level of remuneration. The remuneration system is subject to adjustment from time to time depending on the state of operation and applicable laws for a proper balance of sustainable development and risk control. |   |  |  |  |  |
| (IV) Are external auditors' independence assessed on a regular basis?   | <b>✓</b> | (IV)Each year, the Company evaluates independence of its financial statement auditors and submits to the board of directors' meeting to make sure that no conflicting interest exists (i.e., the auditors do not own shares or hold job positions within the Company). Furthermore, the necessity to replace auditors is also evaluated on a yearly basis (i.e., whether the auditors are unchanged for 7 consecutive years, or whether they are subject to penalty or any occurrence that would compromise their independence). The Company's financial statement auditors are appointed at the board's resolution; the board only engages the Big Four accounting firms, hence there should be no doubt with regards to auditors' independence and professional capabilities.   |   |  |  |  |  |
| IV. Has the TWSE/TPEx listed Company set up a full- (or part-) time corporate governance unit or personnel to be in charge of corporate governance affairs (including but not limited to furnishing information required for business execution by directors and supervisors, handling matters relating to board meetings and shareholders meetings according to laws, handling corporate registration and amendment registration and producing minutes of board meetings and shareholders meetings)? | V        | The Company has set up a part-time corporate governance unit, and officers have experience in handling legal, financial, or stock affairs to handle matters in respect to corporate governance by authorization.  | Compliant with the rationale and practices of "Corporate Governance Best-Practice Principles for TWSE/TPEx Listed Companies." |  |  |  |  |

| understanding of the Company's corporate governance practices (including but not limited to employee rights, employee care, investor relations, supplier relations, stakeholders' interests, continuing education of directors/supervisors, implementation of risk management policies and risk measurements, implementation of customer policy, and insuring against liabilities of Company directors and supervisors)? |     | reason, MiTAC highly values the rights and privileges of its employees and makes additional investment for their welfare to high standard further to the protection of the rights and privileges of the employees as required by law:  1. Policies: (1) Labor/health insurance, pension contribution, employee training, safety and health measures, equal gender opportunities etc.  (2) Provide different forms of fringe benefits for the employees with ceaseless effort, including group insurance protection, free physical examination, and subsidy for pleasure trips, gym, emergency aid, subsidy for matrimony/maternity/funeral, car loans, and subsidy for continuing education.  2. Implementation: (1) Duly observe applicable legal rules for the protection of the rights of employees.  (2) Employee welfare is managed by designated personnel.  (3) Designated employee relation personnel are appointed to respond to the personal needs of the employees. This service system is running well.  (II) Concern for employees  1. Policies: MiTAC has appointed designated personnel for managing employee relations. These personnel are responsible for caring for the employee. Scope of service: Emergency aid, employee complaint, handling complaints, employee health and hospitalization care, coordination of employee problems, prevention of sexual harassment at workplace, handling complaints and consultation in career development. MiTAC introduced the Employee Assistant Program in cooperation with an external consulting firm. Through psychological counseling and assistance from financial and legal experts, MiTAC helps its employees to relieve any psychological and life problems.  2. Implementation: More than 40 persons including the Company's employees and their dependents in Taiwan have sought the employee assistance program counseling service last year. The counseled issues were primarily related to legal aid and psychological counseling. Through the assistance of the "EAP", employees can receive appropriate help and strongly applauded this service. | of "Corporate Governance Best-Practice Principles for TWSE/TPEx Listed Companies."                 |  |

| program established for the employees?  |          | heads have been assigned the responsibility to organize professional training, while a global rotation system is in place to help employees develop multiple talents. These talent programs are run on a long-term basis to help enhance competitiveness. Furthermore, the Company encourages employees with managerial roles to undertake on-job postgraduate studies and EMBA programs to further refine their professional skills and management talents.   |  |
| (VI) Has the Company implemented consumer protection policies with regards to its research and development, procurement, production, operating and service activities and the procedures for complaint? | <b>V</b> | (VI) MiTAC is devoted to protecting customers' interests as part of its product responsibilities. Products are designed from a life cycle perspective, and the final approval weighs upon a number of factors such as environmental protection, convenience to consumers, and protection of consumers' interests. Customer complaint channels have been established, while litigation and claims procedures are also available for consumers to state their claims. Customers are able to raise queries or recommendations through the contact methods specified in the Company's web page (http://www.mic-holdings.com.tw/).  |  |
| (VII) Has the Company complied with laws<br>and international standards with<br>regards to the marketing and labeling<br>of products and services?  | <b>√</b> | (VII)MiTAC takes responsibility for the products and services it sells, and devotes great attention to marketing ethics. The R&D, procurement, production and service procedures have been designed to ensure transparency of product information and product safety. The Company has published its consumer protection policy and executed accordingly to prevent its products/services from causing damage to consumers' interests, health and safety.   |  |
| (VIII)Does the Company evaluate suppliers' environmental and social conducts before commencing business relationships?  | <b>V</b> | (VIII)MiTAC has supplier investigation procedures in place, and conducts regular audits on internal raw material suppliers (and on new suppliers before initiation of business relationship) to obtain assurance of their environmental management practices and control of prohibited substances. MiTAC has launched an GP management system with detailed information on green components supplied by all companies in the supply chain. The GP system allows MiTAC to conduct detailed green product reviews and investigations on use of prohibited chemical substances, and thereby shortlist suppliers that satisfy the selection criteria.  Currently, the Company requires all suppliers to comply with environmental protection standards and provide GP-related information for all products supplied. Furthermore, compliance requirements on EICC have also been communicated to relevant suppliers through eSCM announcement. |  |
| (IX) Is the Company entitled to terminate a   | ✓        | (IX) MiTAC has established a "Universal Environmental Specification," which demands  |  |

|     | supply agreement at any time with a major supplier, if the supplier is found to have violated its corporate social responsibilities and caused significant impacts against the environment or society?  |     |     |     | suppliers to duly comply with all environmental protection requirements for the products supplied. In addition, MiTAC also demands the suppliers to participate and observe the EICC (Electronic Industry Code of Conduct). According to Article 1502 of the Dodd-Frank Wall Street Reform and Consumer Protection Act, the Securities Exchange Commission (SEC) of the USA announced the requirement for the disclosure of using conflict minerals. The Group is a issuer of ADR and shall declare with the SEC if the materials used contain conflict materials from particular African countries on an annual basis. For this reason, the Group banned the use of "conflict minerals" as an integral part of its green product policy of the suppliers in responding to the aforementioned investigation of the customers. In addition, investigation will be conducted every year on the materials necessary for using in the production process to defect possible use of conflict minerals and the supplying countries. Conduct an inspection at least once per year, and ask upstream suppliers to work with the Company by means of procurement. If suppliers fail to comply with the requirements about EICC and conflict minerals, the Company will consider termination of the contracts or agreements already signed by the suppliers, subject to the actual condition of the supply chains. |   |  |  |  |  |
| IV. | Intensification of disclosure (I) Has the Company disclosed relevant and reliable CSR information on its website and at the Market Observation Post System?   | ✓   |     | (I) | The Company uses its website and MOPS to make relevant and reliable disclosures of CSR information, including the Company's CSR report and annual report.  | Compliant with the rationale and practices of "Corporate Governance Best-Practice Principles for TWSE/TPEx Listed Companies". |  |  |  |  |
| V.  | V. If the Company has established CSR principles in accordance with "Corporate Social Responsibility Best Practice Principles for TWSE/TPEx Listed Companies," please describe its current practices and any deviations from the Best Practice Principles:  The Company has established its own CSR principles, which conform to the rationale and practices of "Corporate Social Responsibility Best Practice Principles for   |     |     |     |  |   |  |  |  |  |

# (VII) The practice of business integrity and measures:

|                     |  |          |    | Status of implementation  | Deviation and causes of  |
|---------------------|--|----------|----|---|--|
| Assessment criteria |  |          | No | Summary   | deviation from Ethical Corporate Management Best -Practice Principles for TWSE/TPEx Listed Companies                                   |
| I.                  | With business integrity policy and action plan in place (I) Has the Company stated in its Memorandum or external correspondence about the policies and practices it has to maintain business integrity? Are the board of directors and the management committed in fulfilling this commitment? | <b>√</b> |    | (I) MiTAC has implemented "Ethical Corporate Management Best Practice Principles" and published it onto the official website, which the Board of Directors and the management are bound to obey when exercising authority. Training courses and awareness campaigns are organized from time to time to prevent dishonest behaviors from all personnel.  | Compliant with the rationale and practices of "Ethical Corporate Management Best Practice Principles for TWSE/TPEx- listed Companies." |
|                     | (II) Does the Company have any measures against dishonest conducts? Are these measures supported by proper procedures, behavioral guidelines, disciplinary actions and complaint systems?  | ✓        |    | (II) MiTAC has an Employee Code of Conduct and Anti-corruption Policy in place to outline operating procedures and behavioral guidelines that employees are bound to obey, and disciplinary actions and grievance systems for violations. Both the code and the policy are rigorously enforced.   |  |
|                     | (III) Has the Company taken steps to prevent occurrences listed in Paragraph 2, Article 7 of "Ethical Corporate Management Best Practice Principles for TWSE/TPEx-Listed Companies" or business conducts that are prone to integrity risks?  | <b>✓</b> |    | (III)The Group demands all its employees not to receive any improper gifts to avoid the quest for private interest of the employees at the expense of the interest of the Company. In addition, all employees have the duty of confidentiality over business secrets of the Company and other relevant parties. MiTAC has implemented relevant measures to prohibit against bribery (for offering and acceptance), illegal political donations, and inappropriate charity donations/sponsorships for business activities that present higher integrity risks. |  |
| II.                 | (I) Does the Company evaluate the integrity of all counterparties it has business relationships with? Are there any integrity clauses in the agreements it signs with business partners?   | <b>√</b> |    | (I) MiTAC signs an "Agreement on Undertaking of Business Integrity" when commencing business relationship with a major supplier.  | Compliant with the rationale and practices of "Ethical Corporate Management Best Practice Principles for                               |
|                     | (II) Does the Company have a unit that specializes (or is involved) in business integrity? Does this unit report its progress to the board of directors on a regular basis?  | <b>√</b> |    | (II) The Human Resource Development Center is responsible for the<br>establishment of business integrity policy and prevention measures,<br>whereas the internal audit function is responsible for supervising<br>execution of such policy and measures. The internal audit function<br>conducts random audits on compliance status within the Company,   | TWSE/TPEx- listed<br>Companies."   |

|                        |   |             |    | Status of implementation  | Deviation and causes of  |
|------------------------|---|-------------|----|---|--|
| Assessment criteria Yo |   | Yes         | No | Summary   | deviation from Ethical<br>Corporate Management Best<br>-Practice Principles for<br>TWSE/TPEx Listed<br>Companies                       |
|                        |   |             |    | and produces audit reports for review by the Board of Directors.  The Board of Directors of MiTAC will exercise the due care as prudent administrators to supervise and prevent dishonest conducts, while constantly review performance to ensure continual improvement and sound execution of integrity policy.  |  |
|                        | (III) Does the Company have any policy that prevents conflict of interest, and channels that facilitate the report of conflicting interests?  | <b>√</b>    |    | (III)MiTAC has made a policy for the prevention of the conflict of interest, and it provides appropriate channels for the directors, supervisors, and managers in voluntary justification of their positions, which may entail potential conflict of interest against the Company.  |  |
|                        | (IV) Has the Company implemented effective accounting and internal control systems for the purpose of maintaining business integrity? Are these systems reviewed by internal or external auditors on a regular basis? | <b>\</b>    |    | (IV)MiTAC has established and complied with an effective accounting system and internal control system. In addition, MiTAC reviews the systems at any time as needed to ensure the sustained effectiveness of the system design and implementation. The internal audit function of MiTAC conducts regular and special audits on the state of compliance with the "internal control system" and prepares related audit reports for presenting to the Board of Directors. |  |
|                        | (V) Does the Company organize internal or external trainings on a regular basis to maintain business integrity?   | <b>√</b>    |    | (V) Employees are constantly reminded to adhere to integrity principles in daily business activities. And include the "Employee code of conduct" in the internal training course for colleagues.  |  |
| III.                   | Reporting of misconducts  (I) Does the Company provide a whistleblower and reward system for employees to report misconduct? Does the Company assign dedicated personnel to investigate the reported misconducts?     | <b>&gt;</b> |    | whistleblower and reward system. There is a broad range of misconduct reporting channels available to both insiders and outsiders, including mailboxes and hotlines that are run by the Company or by independent third-party institutions. These reporting channels have been announced to the public, while the internal audit function is assigned to handle and investigate reported cases.   | Compliant with the rationale and practices of "Ethical Corporate Management Best Practice Principles for TWSE/TPEx- listed Companies." |
|                        | (II) Has the Company implemented any standard procedures or confidentiality measures for handling reported misconducts?   | <b>√</b>    |    | (II) The Company has standard procedures in place to accept and investigate reported misconducts. The procedures call for an investigation panel to investigate and discipline wrongdoers, while at the same time introduce a confidentiality system that ensures   |  |

|                     |  |             |  | Status of implementation   | Deviation and causes of  |  |  |  |  |

|                     |  |             |  | confidentiality of the investigation process and safekeeping of audit-related documents.   |  |  |  |  |  |
|                     | (III) Has the Company provided proper whistleblower protection?  | ✓           |  | (III)The Company has created and enforced whistleblower protection to protect informants against mistreatment.   |  |  |  |  |  |
| IV.                 | Intensification of disclosure  (I) Has the Company disclosed its integrity principles and progress onto its website and MOPS?  | <b>&gt;</b> |  | "Corporate Governance" section of MOPS. Implementation progress of the Ethical Corporate Management Best Practice Principles is disclosed in annual reports. | Compliant with the rationale and practices of "Ethical Corporate Management Best Practice Principles for TWSE/TPEx- listed Companies." |  |  |  |  |
| V.                  | If the Company has established business integrity policies in accordance with "Ethical Corporate Management Best Practice Principles for TWSE/TPEx-Listed Companies," please describe its current practices and any deviations from the Best Practice Principles:  The Company has implemented Ethical Corporate Management Best Practice Principles, which conforms with the rationality and practices of "Ethical Corporate Management Best Practice Principles for TWSE/TPEx-listed Companies." |             |  |  |  |  |  |  |  |

(VIII) Other essential information that can help to understand the practice of corporate governance shall also be disclosed:

For more information on corporate governance, please visit the "Corporate Governance" section on MiTAC's website, or visit the "Corporate Governance" section at MOPS (mops.twse.com.tw).

(IX) Other essential information that helps to understand the pursuit of corporate governance better: None.

Other information relevant to understanding the Company's business integrity (e.g., reviews of business integrity principles): None.

#### (X) Implementation of the Internal Control System

1. Statement of Declaration of Internal Control

#### MiTAC Holdings Corporation Statement of Declaration of Internal Control

Date: February 26, 2019

The result of the internal audit of the internal control system of the Company in 2018 with the following declaration:

- I. The Company understands that the establishment, implementation and maintenance of internal control system are the responsibility of the Board of Directors and managers of the Company. The Company already established such system. The purpose of the system is to reasonably ensure that the effectiveness and efficiency of operations (including profits, performance, and protecting the security of assets), reliability, timeliness, transparency, and regulatory compliance of reporting, as well as the compliance with applicable laws, regulations, and bylaws are achieved.
- II. Internal control system has its limits. No matter how perfect the system is, an effective internal control system can only provide reasonable assurance for the achievement of the three aforementioned goals; in addition, the effectiveness of internal control system may change along with the changing environment and circumstances. However, a self-monitor mechanism is installed in the internal control system of the Company. The Company will make corrections once the deficiencies are identified.
- III. The Company judges the effectiveness of the design and implementation of internal control based on the criteria for the effectiveness of internal control system provided in "Regulations Governing Establishment of Internal Control Systems by Public Companies" (hereinafter referred to as "Regulations"). The criteria for the effectiveness of internal control adopted by the Regulations divide internal control system into five elements based on the process of management control: 1. Control environment, 2. Risk assessment, 3. Control activities, 4. Information and communications, 5. Monitoring activities. Each of the elements in turn contains certain audit items, Please refer to the Regulations for aforementioned items.
- IV. The Company has adopted the aforementioned judgment items to evaluate the effectiveness of the design and implementation of internal control system.
- V. Basing on the aforementioned audit findings, the company holds that has reasonably preserved the achievement of the aforementioned goals within the aforementioned period ended on December 31, 2018 of internal control (including the monitoring over the subsidiaries), including the effectiveness and efficiency in operation, reliability in financial reporting and compliance with relevant legal rules, and that the design and enforcement of internal control are effective.
- VI. This Statement of Declaration will be the major content of the annual report and prospectus of the Company and to be publicly disclosed. If the aforementioned disclosed content contains misrepresentation or nondisclosure, the Company is subject to the liability of Article 20, 32, 171, and 174 of the Securities and Exchange Act.
- VII. This statement of declaration has been unanimously approved by the Board on February 26, 2019 with presence of 7 directors.

MiTAC Holdings Corporation

Chairman: Miau, Matthew Feng Chiang

President: Ho, Jhi-Wu

2. Audit report by certified public accountants on internal control: None.

- (XI) The punishments received by the Company and its internal personnel in accordance with laws, or the punishment, material deficiencies and improvement by the Company against its internal personnel in the most recent fiscal year and as of the publish date of the annual report: None.
- (XII)Important resolutions by the Shareholders' Meeting and the Board of Directors in the most recent fiscal; year and as of the publish date of the annual report.

Note 1: The proposal for distribution of earnings in 2018 was passed by the Board pending on the ratification of the Shareholders' Meeting.

- Note 2: Price/Earnings ratio = Yearly average closing price/Earnings per share.
- Note 3: Price/Dividend ratio = Yearly average closing price /Cash dividend per share.
- Note 4: Cash dividend yield rate = Cash dividend per share/ Yearly average closing price.
- Note 5: The minimum price of per share is after the ex-dividend/ex-dividend date, so it doesn't need to adjust.
- Note 6: Reviewed financial information on net value per share, earnings per share of the most recent quarter to the date this report was printed to be filled in. Other information to the day this report was printed shall be filled in other fields.

#### (VI) Dividend policy of the Company and implementation

1. Dividend policy stipulated in Articles of Incorporation:

Earnings concluded from year-end account closure are first subject to reimbursement of previous losses and taxation, followed by a 10% provision for statutory reserves and provision/reversal of special reserves as required by law. Any balance remaining may be added to undistributed earnings carried from previous years and distributed at

the proposal of the Board of Directors, subject to ratification in a shareholder meeting. The percentage of dividends to be paid in cash may be proposed at the Board of Directors' discretion based on the Company's financial structure, future capital requirements and profitability, subject to a minimum of 10%; this minimum number may be adjusted with shareholders' consent.

- 2. The Company will maintain a stable dividend policy and distribute no less than 30% of the current year earnings as the shareholder dividend.
- 3. The proposal of dividend distribution in this Shareholders' Meeting Based on said principles, the Company's Board of Directors has proposed the motion for 2018 allocation of dividends on February 26, 2019, for cash dividend at NT\$1.50 per share and stock dividend at NT\$1.50 per share. The motion will be submitted to the general shareholders' meeting for approval on May 30, 2019.
- 4. Anticipated material changes in dividend policy: The Company anticipates that there will be no material change in dividend policy.

(VII) Effect upon business performance and earnings per share of any stock dividend distribution proposed or adopted at this shareholders' meeting

| and P/E ratio       | Without capitalization of   | Pro forma EPS                         |                      |  |
|                     | reserves and if capitalized<br>earnings were entirely<br>distributed as cash dividends<br>instead | Pro forma yearly return on investment |                      |  |

Note: According to the "Regulations Governing the Publication of Financial Forecasting of Public Companies", the Company did not disclose financial forecasting in complete form thereby not required for disclosure of financial forecast in 2019.

#### (VIII) Remunerations for employees, directors and supervisors

1. The percentages or ranges with respect to employee bonuses and director/supervisor compensation, as set forth in Articles of Incorporation

Annual profits concluded by the Company (i.e. pre-tax profit before distribution of employees'/Directors'/Supervisors' remuneration) shall be subject to employee remuneration of no lesser than 0.1% and director remuneration of no higher than 1%. Remuneration shall be distributed with the resolution of the Board of Directors. However, profits must first be taken to offset against cumulative losses if any. Employees' remuneration, as mentioned above, can be paid in shares or cash and to employees of affiliated companies that satisfy certain criteria. This certain criteria may be determined under the Chairman's authority.

- 2. The basis for estimating the amount of employee bonuses and director/supervisor compensation, for calculating the number of shares to be distributed as employee remuneration, and the accounting treatment of the discrepancy, if any, between the actual distributed amount and the estimated figure, for the current period:
  - (1) The basis for the estimation of remunerations to employees, Directors and Supervisors in current period: The Company shall appropriate at least 0.1% of the EBT before the deduction of remuneration to employees as remuneration to employees in 2018. The estimation of the remuneration to Directors and Supervisor shall be based on the expected amount of payment.
  - (2) The basis for calculating the number of shares to be distributed as employee bonuses: Use the amount calculated by the closing price one day prior to the resolution date of the Board of Directors and after taking the impact of ex-right/ex-dividend into consideration to calculate the number of shares of the stock bonus.
  - (3) The accounting treatment of the discrepancy, if any, between the actual distributed amount and the estimated figure: Dispose based on the accounting estimated changes.
- 3. Board of Directors passed remuneration distribution:
  - (1) The amount of employee bonuses and director/supervisor compensation distributed in cash or shares. If there is a difference between the estimated amount and the actual amount of expense, disclose the value, the reason for the difference and response: The Board resolved to appropriate NT\$3,313 thousand as remuneration to employees and NT\$3,600 thousand as remuneration to Directors and Supervisors. There is no difference between the estimated amount and the actual amount.
  - (2) The amount of stock dividend paid to employees in proportion to the sum of the net income as stated in the separate financial statements and the total remunerations to employees: not applicable, as the Company did not pay out any stocks as remunerations to employees in 2018.
- 4. The actual distribution of employee bonuses and director/supervisor compensation for the previous fiscal year (with an indication of the number, dollar amount, and stock price, of the shares distributed), and, if there is any discrepancy between the actual distribution and the recognized employee bonuses and director/supervisor compensation, additionally the discrepancy, cause, and how it is treated:

|                                  | The actual distribution of amount in cash |
|----------------------------------|---|
| Employee bonuses                 | 2,639 thousand                            |
| Director/supervisor compensation | 5,400 thousand                            |

Note: The actual distribution and the recognized employee bonuses and director/supervisor compensation is consistent.

(IX) Share repurchases: None.

**II. Issuance of corporate bonds:** None.

**III.** The issuance of preferred shares: None.

IV. The issuance of ADR: None.

V. Employee stock option warrants: None.

VI. New restricted employee shares: None.

VII. M&A or acceptance of news shares from assignment of other companies: None.

**VIII.Implementation of the Company's capital allocation plans:** The Company does not encounter the situation that capital allocation plans were not completed or that the capital allocation plans were completed yet the benefits were not revealed as of the quarter prior to the date of printing of the annual report.

## **Five. Operation Overview**

The Company is a holding company that specializes in investment, with subsidiaries involved primarily in the development, design, manufacturing and distribution of computers and ancillary equipment as well as communication related products. And as such, overview of the Company's operation will be based on the businesses of its subsidiaries.

#### I. Business Activities:

- (I) Scope of business
  - 1. Principal business activities
    - (1)Cloud computing product business: this covers workstation, server, and storage expansion. Corporate and channel server/workstation series includes the dual and quadruple x86 server/workstation of Intel and AMD and support the single and dual server of IBM OpenPOWER architecture, high density server, and exclusive server/workstation platform, storage expansion, network and server customized to order. To align with the development trend of AI, the Company developed high-performance computer (GPU server) and also the design of the whole unit for computing, network, and storage solution. All-in-One LCD computer Mini PC, POS system and embedded industrial use Panel PC, quasi system and embedded motherboard.
    - (2) Mobile communication products business: Including automotive electronics (such as in-car navigation, car audio amplifier), consumer electronics (such as PND, GPS dashcam recorder), professional electronic products (such as GPS for fleet management, industrial tablet PC), and smart navigation and cloud service.
  - 2. Business distribution

Unit: In thousands of New Taiwan Dollars

| Year<br>Products                  | 2018       | Ratio (%) |
|-----------------------------------|------------|-----------|
| Computer & communication products | 30,751,819 | 100.00    |

- 3. Major running items and new products or technologies under planning for development
  - (1) Cloud computing products
    - Cloud Computing Server
    - Cloud Storage Server
    - Rack-mounted servers
    - Enterprise storage systems
    - High-performance (GPU server)
    - OCP
    - Whole system and rack design
    - POS system
    - · Embedded Motherboard
    - Kiosk Panel PC
  - (2) Mobile communication product business
    - Portable navigation device (PND)
    - Carplay Display Audio & Connected Car Tablet & Navigation Box and

telematic products

- · Car Amplifier
- Bike Computer
- Outdoor Lighting Control
- · Consumer electronic product, fitness navigation device for outdoor use
- Enterprise electronics
- Mobile cloud storage

#### (II) Industry overview

1. Current status of the industry and its development

According to major market surveys and the analysis on customer needs, as driven by the future trends, such as 5G, AI, AIOT and Edge Computing, et al., the traditional corporate server market, corporate storage device market and large-scale cloud data center infrastructure will keep growing, and the demand for HPC & GPU Server and edge computing computer will increase year by year.

In the server market where Intel x86 is identified as the mainstream item, new CPU models will be launched each year. This will trigger the needs for a new generation of server. The key competitor of CPU, AMD, also continues to struggle for market share in the server market, which indirectly pushed the demand for replacement of new servers. The demand for HPC server is also expected in the new market under the increasing demand for cloud computing and application, Big Data analysis and service, AI and machine learning. Open Compute Project (OCP) products that emphasize high density/multiple computation node and low energy consumption still constitute a portion of the market, as it has become a new choice for the construction of data centers apart from the standard Rack-mount Unit architecture. The increasing size of data in computing will drive for the stable growth in the demand for cloud storage and corporate storage.

Despite the high level of customization in the production process, the bid cloud data center business still relied on the specification widely adopted in market in the design. Besides, big data center will continue be rested with the Total Cost of Ownership (TCO). Further to the stability, utility, maintenance convenience, user friendly and simple handling of the system, energy consumption and efficiency will be more important. In the process of customization, the direct order with ODM/OEM manufacturers in customization will help to boost up growth of shipment under the ODM Direct business mode of joint venture.

For the small and medium data center firms, the size of the market is small as compared with the big data center, the lower level of customization allows for the integration of computing, network, and storage into the design of a whole system that could satisfy the needs of as another option for the installation or expansion of data center.

On the other hand, the application and prevailing use of IoT contributed to the growth of industrial use computer from a small market segment to a marketing of high growth with profit at the stable pace of 10% per year. This application is extensive, including retailing, medical care, military, transportation, gaming, aviation, factory automation, and energy. The market has its gravity in Europe and USA and the total of the two accounted for 70% of the total market assimilation.

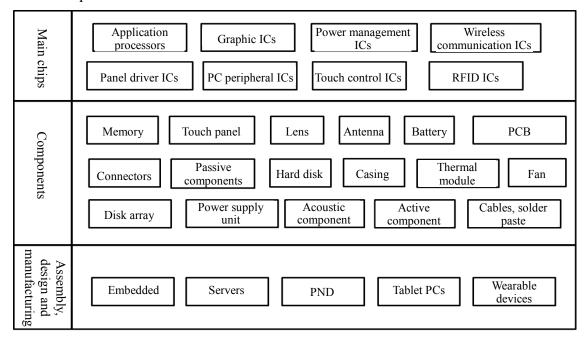

With regards to POS (point-of-sale) systems, market research companies have estimated the global demand for POS systems to be between 2 million  $\sim$  3 million units per year, translating to a steady growth at  $7\sim10\%$ . The POS (point-of-sale)

system, which is becoming a trend, develops more new business opportunities and applications, e.g. self-served ordering system in restaurants and self-checkout system at shopping malls. According to studies by international research and consultancy institutions, there will be increasing demands for POS systems to incorporate mobile payment.

According to the statistics released by a market survey firm, the traditional market of industrial use tablet PC would enjoy compound growth of approximately 11.1% and the quantity would be 5.4 to 7.4 million units. Traditionally, the Windows OS from Microsoft has been the dominant operating system in the market. But with its free licensing and the advantages of high-level customization, Android has rapidly risen in emerging markets and applications, Such areas as tablet PCs for fleet management and mobile warehousing management system.

In terms of mobile communication product planning, although global sales of portable satellite navigation products have fallen over the years, related applications of satellite navigation has continued to be transferred to products such as embedded in-car navigation equipment and GPS tracker for bicycles. At the same time, new products with the same satellite tracking technologies, such as GPS sports watch, have been developed as well. In addition to the product line for traditional satellite positioning products, the Company has also actively sought new product planning directions, such as wearable devices, IoT related products, IoV positioning or self-driving car. These products, once integrated with the Company's existing cloud computing services and hardware/software environment, will become total solutions for customers; in the IoT segment, the Company will integrate products with GPS technology and work with customers to foray into this new field.

2. Linkage of industry upstream, midstream and downstream
The industry in which our group operates is regarded as the downstream. The
upstream comprises IC and chip manufacturers; the midstream comprises component
manufacturers and the downstream comprises end products such as servers and
consumer products.

#### 3. Development trends and degree of competition for our products

#### (1) Cloud computing products:

The Intel x86 architecture is still the mainstream product of server for a variety of casing (1U/2U/4U) for matching with the number of CUP (1P/2P/4P), and different types of software application servers to meet different market needs (small and medium enterprises, big multinational enterprises, and bid cloud data center firms) in the performance of servers. The trend of AI drives the use of front-end machine learning forward, which in turn demand for high speed computer.

Corporate storage devices provide different types of supports to high density storage devices of different HDD interfaces (SAS, SATA, NVMe), and provide market segmentation with different storage framework (SAN, NAS, corporate storage or cloud storage) with higher density, capacity, transmission speed, and transmission interface.

As for product specification, products of high density and multiple computing node points and low energy consumption OCP specifications continue to grow. With the support of big cloud data center and the use of OCP products, a larger quantity was in demand but also attracted more competitors to the market. The technology for standard Rack-mount Unit multiple-purpose server has been well-developed. With the large number of ODM firms, differentiation strategy emerged as the vital issue for all R&D designers.

Because the trend of cloud computing increased the market for Thin Client computers, demand grew as a result. In the past, only remote access was possible, the computers have grown to support area browser and have evolved to support VOIP and video conferencing. Computers have evolved from small screens to the capacity to support multiple high resolution monitors, and fan-less architecture have become the norm. In terms of product structure, Thin Client PCs have also evolved from traditional micro independent cases to All-In-One, industrial and Panel PC/Box PC for retail applications. In terms of platforms, SOC integrated chips have been developed from x86 architecture. The embedded application in industry expanded from the use of particular industry to the domain of different public applications (e.g.: Smart Retailing). As such, product design tended to incline to multiple-function and small in dimension in the design. In addition, the physical appearance also became a concern.

#### (2) Mobile communication products:

Mobile communication products focus on the three major areas, namely automotive electronics, AIOT and professional tablet PCs. The automotive electronics include drive recorder, Advanced Driver Assistance Systems, navigation software/hardware solutions, and outdoor entertainment navigation. The image resolution and night vision sensation effects of drive recorders keep improving. Meanwhile, the drive recorders combine Advanced Driver Assistance System (such as front collision, lane offset, fatigue driving, pedestrian collision and stop & go), GPS speed photo reminder, blind spot detection and anti-theft functions to enhance the driving safety. The WIFI networking function can quickly transfer images to the cloud for storage, provide instant messages and execute remote control. The navigation software and hardware solutions integrates such functions as GPS, WIFI and Bluetooth, which can execute route planning and fleet management per the needs of special vehicles and improve the driving safety and work efficiency effectively. Also, for outdoor leisure activity enthusiasts, the Company releases bicycle navigation products with anti-vibration and waterproof characteristics, which are suitable for the outdoor environment, and equipped with such functions as GPS, WIFI and Bluetooth, able to plan riding routes, share the roadmap with friends and

upload the map to cloud platform for storage.

Based on the Internet of Vehicles, AIOT executes the cloud file storage, remote system control and driving behavior analysis (speeding, braking, acceleration, etc.,), and extends to smart lighting systems equipped with sensor, tracking and monitoring functions, and then to the construction of smart city systems.

The professional tablet PCs and device management platforms are designed for the environment where special industries are situated. The products are durable, shatterproof and waterproof, equipped with such functions as 4G, LTE, WIFI, NFC, and Bluetooth, applicable to the areas including logistics, retail sale, sightseeing, medical care and industry, and may replace the traditional low-efficiency manual mode, improve work efficiency, cut costs and improve service quality effectively.

#### (III) Technology and R&D overview

1. Committed R&D expense

Unit: In thousands of New Taiwan Dollars

| Year<br>Item                     | 2018      |
|----------------------------------|-----------|
| Research and development expense | 2,186,024 |

2. Successfully developed technology or product in the latest year or up to the publication date of the annual report

As a response to the development trends of global wireless communications, mobile communications, and cloud computing, MiTAC's main R&D strategy is controlling the development schedule of new technology and products, and launching new technology products whenever possible with the R&D talent pool in Taiwan, China, and the US. We follow the product specification set by technology leaders in mainstream markets and create our own technology through R&D. We can also roll out products that meet market demand to control business opportunities. Our competitiveness rested with the diversity of products, the complete series, a complete vertical supply system, and globalized production sites.

(1) Number of patents acquired in the most recent year to the day this report was printed is shown below:

| F      |                   |                |  |  |  |
|--------|-------------------|----------------|--|--|--|
| Taiwan | Mainland<br>China | Europe and USA |  |  |  |
| 253    | 309               | 294            |  |  |  |

- (2) Product development and brand power:
  - A. TYAN displayed the Intel Xeon in the Computex 2018, which allows for the expansion of process to different server platforms. The Company provides flexible system options and high-performance computing server system for AI, in-depth learning, high-performance computing, high-density storage, and cloud computing. TYAN also worked in cooperation with industrial system integration firms to provide server motherboard for embedded application at high temperature to satisfy the needs for high-performance computing and high reliability under special environment.
  - B. TYAN also exhibited a wide array of optimized HPC server platform for enterprises and data center at the SC' 18 held in Denver, Colorado, USA to boost up the momentum for growth in the HPC market. The diversity of application of TYAN HPC platform provides high-performance computing

- users to meet the diversity of needs in different computing frameworks.
- C. Magellan SmartRV and SmartFleet: after the debut of an innovative personal GPS service, there was an advancement of the Smart GPS technology for applying to SUV or transport fleet. With this service users could receive LBS data in real-time for access to the private cloud of GPS. Fleet management operation could also manage its fleet through the wireless transmission means of its cloud system.
- D. ORV (Off-road Recreation Vehicle) SmartECO System: In addition to receiving LBS data in real-time for access to the private cloud of GPS, users could also plan for their traveling routes for pleasure. With the use of the cloud system, users could integrate smart phone, PC and GPS.
- E. Connected Car Tablet: this is exclusively designed for corporate users who have the needs in vehicle use management. With a built-in 3G/BT/WiFi wireless communication function, it could satisfy the needs of sending back vehicle information to the cloud in real-time, and the needs for interaction between the driving control center and driving communication. This meet the strict testing standard required for all motor vehicles.
- F. Industrial/medical COM Express motherboard module: The separate structure designed for the motherboard module and the serial port module fits various small-volume diversified flexible designs. (High-tech threshold and high-profit margin market)
- G. Quasi-system applicable to railway transportation (IEC50155) Applicable quasi-system: Via the quasi-system computer applicable to the global railway regulations, IEC50155, it can ensure stable operation of the computer system in the railway transportation process to be adapted to various rigid environmental variations and requirements. (High-tech threshold and high-profit margin market)
- H. High-extensible self-served terminal LCD computer: To satisfy the diversified needs for retailed automation equipment, the Company releases the flexible design allowing the free style of monitor and peripheral devices.
- I. Vehicle data record MiVue series won the following awards in 2018:

| Product<br>Name | Region | Media         | Award                   | Logo                      |

#### (IV) Long and short-term business development plans

- 1. Cloud computing product series
  - (1)Short-term business development plan: In terms of product strategy, the Company will continue to cooperate with existing customers and chip manufacturers in the development of workstations, servers and storage devices. Demand for servers in China has been growing in recent years. To capture this trend, MiTAC is actively looking for system integration service providers to cooperate in a long-term relationship, or local firms that can provide cash flows and logistics management

to serve customers in a timely manner.

(2) Short-term business development plan: In terms of product strategy, the Company will continue to develop new server and storage device products to function as the propelling force to drive sales growth in the next three years. With regards to business strategy, the Company will expand its cooperation with leading server customers around the world and deliver products from modules to full-systems, from low-end to high-end and from single to multiple product lines. In order to maintain stable collaboration over long-term, the Company has to improve its capacity and speed for product development, control production quality and delivery, integrate supply chains throughout the world and maintain a global logistics and service network in order to consolidate MiTAC's position as a major ODM/OEM for server systems.

### 2. Mobile communication products

### (1) Short-term business development plan:

- A. Mobile handheld and digital family markets are at the beginning of rapid development. In the short run, the Company will operate with the latest market development conditions and focus on channels and ODM operations in European and US markets. We will also actively develop niche products and cultivate customers in different domains. SoLoMo (Social, Location, Mobile), a revolutionary and competitive item with the combination of different functions. Under innovative and professional product planning, and the R&D in design and production capacity, we provide customers with high added-value service. The Company seeks to strengthen its overall performance, enhance customer satisfaction for further cultivation of existing customers with brand loyalty. In addition, it will be integrated with private cloud, community content and Point of Interest as a niche product for launching to customers of different markets for further business development.
- B. Industrial use tablet PC and portable devices: The Company will be launching portable devices with equal emphasis in proprietary brand, ODM and OEM. In Europe, MiTAC's primary focus will be the promotion of proprietary brand; in USA, the Company will focus primarily on OEM whereas in Japan, ODM and OEM will receive equal attention.

### (2)Long-term business development plan

- A. Mobile handheld and digital home market: Our long-term business development strategy calls for expanding our scope and exploring emerging markets in Asia-Pacific, China, Russia and the Middle East. We will adapt to the changes and needs of different age groups with diversified products. Through our brands and B2B strategy, and integrating user experience of Mio, Magellan, and Navman products, we integrate life, health, sports and leisure, and navigation service products to allow customers access to real-time information whether they are moving, running, or driving. This strategy will guide MiTAC to the field of cloud service.
- B. Industrial use tablet PC and portable devices: marketing territory expanded to Russia, Central Asia, South Asia and South America The Company has also continued to work on the development of in-car tablets and Mobile POS.

### II. Market and an overview of production and sales

- (I) Market analysis
  - 1. Regions of distribution for the Company's major products

Unit: In thousands of New Taiwan Dollars

| Regions | 2018       |
|---------|------------|
| Taiwan  | 815,400    |
| US      | 12,402,240 |
| Europe  | 5,507,737  |
| Others  | 12,026,442 |
| Total   | 30,751,819 |

### 2. Market share

According to the surveys and research findings of DIGITIMES Research, MiTAC was ranked the 5th place by shipment volume of all ODM firms in whole system in 2018. In the area of mobile communication products, automotive electronics of the Company was among the top 3 of the world in market share by brand.

- 3. Future supply and demand in this market and growth outlook
  - (1)Cloud computing product

The data centers and cloud service providers keep growing in the USA and mainland China and thereby raise enterprises' willingness to invest in IT business. The demand for servers and storage market increases accordingly. Besides, there is also the demand for Big Data analysis, AI, IoT and edge computing. There is still room for growth in shipment of servers and storage devices in the world in 2019.

The increase in shipment volume and the decline of the average sale price compelled the internal big server firms to cut down the cost of production for enhancing competitive power and a larger share in the market. For this reason, energy efficiency and low cost will be the opportunity of the firms for the future of their products. In the future, computing will be converged at the server and energy efficiency will be the rule. After the launch of the TYAN brand and the server products supporting the Intel system architecture, the server products supporting AMD Zen+ architecture will continue to be launched. The 128-bit PCIe 3.1 channel provided by the processor will design a full flash (All-Flash). NVMe storage server and AI inference server and other models to meet the needs of the latest IT technology. TYAN is professed to work in cooperation with the customers in full effort, and will provide better service for professional IT personnel. Continued effort will be made in innovation for developing solutions with flexibility, reliability, high performance, high utility and low cost in operation to help the customers installing an ideal IT infrastructure. This is the optimal feedback to the changeable commercial environment and opportunities for the enterprises.

(2) Mobile communication product business

As cloud computing grows, more smart features are needed, which in turn contributes to the rapid development of smart terminal devices. Whether its is smartphones, tablet PCs, or any product with a display screen (e.g., in-car AV, watches, glasses), they could all be turned into smart terminals and provide enormous market opportunities. Applications of mobile terminals will broaden as more users connect to the cloud, bringing in billion dollars of business opportunities! Based on the SoLoMo concept, MiTAC has developed applications across different platforms and services to satisfy consumers' diverse tastes.

4. Competitive niche, positive and negative factors for the prospects of our development, and our corresponding strategy

As cloud applications grow, MiTAC not only possesses the ability to design and manufacture cloud hardware but has also been integrating hardware, software, engineering automation, manufacturing design, and after-sales services around the world to develop a new business model that would accomplish higher customer satisfaction and competitive adv antages in order to break free of the low-margin PC OEM business.

In terms of wireless communication, MiTAC will take the initiative in developing niche products that target specific needs in the market, while at the same time improve its capacity in terms of R&D, innovation, hardware/software integration, cost control, quality control, yield control, mass production, inventory management, access to key components, logistic support, regional distribution, and financial strength.

### (1)Competitive niche

- A. Customer demand and control of the market: We grow with location based service markets. MiTAC jointly explores and invests in markets with regional software and hardware customers to understand terminal demand. MiTAC is also negotiating cooperation plans with various world-class information and communication firms so that it can fully grasp market trends, seize fluctuations in the market, and explore new products.
- B. Cooperation with world-class software and hardware firms to secure the supply of material: This advantage includes the support of software firms in software development and the source of key components.
- C. Research and development capability: Many of our products lead the market and win international awards, earning "number one" ranks.
- D. Ceaseless advancement of quality and the expansion of production capacity: We have accumulated years of embedded product software-hardware integration technology, which is a major advantage in design and manufacturing.
- E. Provide full-range service to the customers through the partners in the market of regional channels and the global logistics system of the Group.
- (2) Favorable factors for prospects of development

A. Integration of the supply chain of Internet-based equipment
The development and operation of the mode of distribution and global
eCommerce allowed MiTAC to develop products of high unit price in a direct
production and distribution mode of operation. This helps to upgrade the
shipment efficiency and reduce the cost significantly. It also upgrades customer
satisfaction.

### B. Global eManufacturing model

After the trial running of the logistics model, the eManufacturing system of MiTAC International Corp. is well-developed. We have formed a global manufacturing model with division of labor: Taiwan, Australia, and the US concentrate on R&D and design, combined with the modules and semi-finished goods produced by production bases in Mainland China, and joined by the BTO/CTO assembly centers in the US. This combination is our global manufacturing model with division of labor. Components and systems with low level and long transportation time are manufactured in China; main components with high unit price are procured from production bases worldwide. This form of the integration of global division of labor allowed MiTAC to grow from a regional organization to an international manufacturer with global division of labor in R&D, engineering, manufacturing, and distribution.

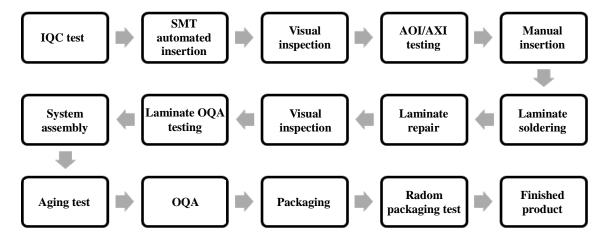

- C. Intensify the development of products of high added-value in response to the trend of development in the integration of wireless Internet communication and computers, MIC will continue to form strategic alliance with international leading manufacturers to develop the market jointly. MIC owns the excellent ability to engage in innovative design, research and development, production and integration in the GPS market, and takes the initiative to release multiple GPS models in the markets. Meanwhile, it also invests in developing the MDM (Mobile Device Management) software with a view to providing its software integration partners with a faster and complete full-range service.
- D. Maintaining growth momentum in the market
  In addition to continuing to invest resources in major markets such as North
  America and Europe, intensified cultivation of markets with enormous growth
  potential in GPS, such as Asia-Pacific and emerging markets such as China,
  Japan, and Eastern Europe will be our focal point of development.
- E. Full-range of eSupply Chain
  As dictated by the needs of global production, and the regional products of customer and segmentation, MiTAC is engaged in the design of key component modules and integration with the eCommerce of the upstream firms for timely delivery of goods worldwide and reduce the operation risk, cut down the inventory level, and provide timely delivery service to the customers.
- (3) Negative factors for the prospects of our development and our corresponding strategies

- A. The competition of cell phone and vehicle-mounted audio-visual system compelled the big firms to engage in the R&D, manufacturing, and post-delivery service of GPS products. Accordingly, the pressure on price intensified. Additionally, PND has been integrated with wireless communication products, and smart phones with built-in GPS have become the norm for retail sales. This feature will steal the market away from PNDs more decisively. Our corresponding strategies are as follows:
  - (a)Improve the integration between PNDs and on-board information application. Differentiate our PNDs from smart phones with GPS functions.
  - (b)Emphasize R&D and innovation. Improve our result from R&D. Reduce product development cycle. Maintain our ability to launch new products. In addition, we will localize our products, and make them more diversified, differentiated, mass-produced to ensure we have an edge in our products and profit.
  - (c)Improve the satisfaction of our customer from design in the upstream to mass-production to logistics. We seek strategic alliance with major firms in the world.
  - (d)We use our global logistics model and establish an entire set of material planning, value chain, and logistics infrastructure.
- B. The embedded system products confront the problems of small quantity in large variety, extremely high cost of development, and the strict requirements of quality and application environment. Most of the customers are small and medium enterprises in wide dispersion geographically. Marketing of these products is tough and the counter-measures are:
  - (a) The modular design may shorten the time spent in developing new products and customization.
  - (b)Continue the development of high-level integrative solution with equal weight in hardware and software research and development.
  - (c)Global marketing in a wide array of business mode.
  - (d)Launch a total solution for enhancing added value. Acquire Domain Knowledge of the industry for continued development of leading brands in technologies.
  - (e) Work with strategic partners to satisfy the most diversified demand for shipment with maximum marginal benefits.
- C.Key components are still controlled by overseas manufacturers. We need further experience in the integration of software and hardware. Our corresponding strategies are as follows:
  - (a) Maintain good supply chain relationship with overseas manufacturers of key components. We will also do our best to develop talent that is capable of integrating software and hardware in operating platform and communication components.

- (b)Diversify the supply channel of key components: We seek more sources of suppliers and secure the source of our suppliers and competitive pricing. We seek to establish good interaction with domestic firms that are already producing or planning to produce key components to maximize our choices.
- (c) Achieve the advantage of support by quantity: the promotion sale of product series helped to secure voluminous OEM/ODM orders, which could help to reduce the cost of purchase substantially.
- (II) Important applications and production process for main products
  - 1. Functions of major products

| Product type                       | Major purpose and functions   |
|------------------------------------|---|
| Workstations                       | Graphical computing tool for designers  |
| Servers                            | Data computing tool for businesses  |
| Storage                            | Data storage tool for businesses  |
| Desktop PCs                        | A necessary tool for individuals, households, schools, companies, and merchants.  |
| Mobile<br>Communication<br>Devices | Audio-video-navigation head unit, consumer electronics (outdoor, physical fitness, driver navigation), fleet management system and application of cloud technology, and embedded system, industrial use tablet PC system. |

### 2. Production process

### (III) Supply of key materials

| Component name | Origin   | Supply status |
|----------------|--|---------------|
| CPU/ CHIPSET   | Original manufacturers: USA, Japan, Taiwan, Korea, China | Fair          |
| Image sensor   | Original manufacturers: USA, Japan, Taiwan               | Satisfactory  |
| HDD            | Suppliers: USA, Japan, Thailand                          | Satisfactory  |
| SD card        | Suppliers: Taiwan, China                                 | Satisfactory  |
| DRAM           | Suppliers: Taiwan, USA, Korea, China                     | Fair          |
| Flash          | Suppliers: Taiwan, USA, Japan, Korea, China              | Fair          |
| PCB            | Suppliers: Taiwan, USA, China, Korea                     | Satisfactory  |
| Connector      | Original manufacturers: USA, Japan, Taiwan, Korea, China | Satisfactory  |

| LCD           | Suppliers: Taiwan, Korea, Japan, China | Satisfactory |
|---------------|--|--------------|
| LAN           | Suppliers: Taiwan, USA                 | Satisfactory |
| Camera Module | Suppliers: Taiwan, China               | Satisfactory |
| Battery Pack  | Suppliers: Taiwan, Japan, China, Korea | Satisfactory |
| PCI Card      | Suppliers: Europe, USA                 | Satisfactory |
| Speaker       | Suppliers: Taiwan, China               | Satisfactory |
| Charger       | Suppliers: Taiwan, China               | Satisfactory |
| PSU           | Suppliers: USA, China, Thailand        | Fair         |
| Motor         | Suppliers: Taiwan, China               | Satisfactory |
| Chassis       | Suppliers: Taiwan, China, Malaysia     | Satisfactory |

### (IV) Major customers and suppliers in the last two years

1. The name of the supplier that accounted for more than 10% of the total purchase in any of the last two years, and the proportion of the purchase amount, the reason for the changes:

### **IV.** Environmental Disclosure

- (I) The group did not suffer any loss or penalty **due to** pollution of environment in the last year up until the publication date of this annual report. Below is a description of relevant practices adopted by MiTAC:
  - 1. The Group is a professional assembly firm and the operation is mostly assembly works. As such, the problem of air pollution, water pollution and contamination of toxic substances for control is not found. In 1992, MiTAC received Certificate of Excellence during the 1st Environmental Evaluation for Top-500 Businesses organized by Environmental Protection Administration. In 1997, MiTAC attained ISO 14001 certification and continues to devote itself to preventing pollution. In 1999, MiTAC received from the Council of Labor Affairs a 2-year certification for having passed the Safety and Health System Evaluation. MiTAC will continue to enforce its environmental protection and work safety policies, and strive to sustain an operation that is free of pollution and hazard.
  - 2. The Group categorized the environmental protection expenditures into the direct

environmental costs, indirect costs and others, collected the investment amount or expenses in the three aspects locally by region, and summarized them into the Group's environmental protection expenditures. In addition to the expenses required to satisfy the requirements under local laws and regulations, the Company also launched the energy-saving program to deal with the GHG (Greenhouse Gas) issue in various regions, e.g implementation of renewal energy, solar/recycling of resources/power saving: lighting management and summer air conditioner management, in order to achieve the goal for reduction of CO2 emissions. The direct environmental costs were primarily spent in upgrading the efficiency of energy utilization. Considering that the consumption of power by factory premises and offices accounted for the largest proportion of energy consumption, the Company continued to implement the Comismart environmental control system like the headquarter in Taiwan. The buildings of the headquarter in Shanghai will also keep investing in the environmental control system to continue controlling the energy consumption of the buildings effectively and seeking better efficiency of energy utilization.

### (II) Environmental protection expenditure

- 1. Environment protection expenditure refers to all expenses related to environmental protection activities. It represents how dedicated a company is to the environment, and serves as a key indicator to the quality of environmental management. However, the definition and scope of environmental expenditure still differ from country to country.
- 2. MiTAC has been gathering data on the group's environmental expenditure since 2018, with new statistics on environmental protection expenditure covered as follows:
  - Environmental costs associated with the Company's operations (direct cost) amounted to NT\$ 31,419,918, which included expenses on the prevention of air/effluent/soil/groundwater pollution, efficient use of resources and disposal/treatment/recycling/reuse of commercial wastes.
  - Environmental management activity costs (indirect cost) amounted to NT\$ 2,924,657. The administrative costs included personnel expenses on environmental education, system management and validation, environmental monitoring and environmental protection-related activities.
  - Other environmental costs totaled NT\$ 2,703,212, which included R&D expenses (for studies on the mitigation/control of environmental impacts), social activity expenses (i.e., sponsoring environmental organizations, promotion of environmental information and so forth), taxes (i.e., energy levies) and other expenses (i.e., water treatment expenses).
  - Losses (including damage compensations) and fines incurred due to pollution of environment in the year of report up until the publication date of this annual report: The Company has not incurred any losses (including damage compensations) or fines due to environmental pollution; hence the sum is zero.

### V. Employer and employee relationships

Driven by a humane management approach, MiTAC is dedicated to creating a work environment that facilitates two-way communication between line managers, their subordinates and their peers. The Company has also taken initiative in creating communication channels and gathering employees' thoughts as a means of ensuring harmonious labor-management relations and achieving win-win between the Company and its employees.

### (I) Communication and inspiration

#### 1. Communication

MiTAC routinely organizes a general assembly, management meetings and employee satisfaction surveys. Human Resource Department sets up the employee relation function to have dedicated personnel promote various employee care policies and employment assistance programs and also establishes the available communication channels

Furthermore, the Company has robust policies and measures in place to convey and enforce the Act of Gender Equality in Employment and the Sexual Harassment Prevention Act. Employees are trained to respect and communicate with people of different gender, while guidelines and grievance channels are created all for the purpose of an equal-gender environment.

Being a multinational conglomerate, MiTAC has offices in many parts of the world. In order to facilitate communication and conferences between different parts of the Company or across regions, MiTAC has spent nearly NT\$10 million to install video-conferencing equipment in 9 offices including Taiwan, China, USA, and UK. This advanced equipment delivers high image quality and stable audio stream, which enhances the efficiency of conferences and minimizes the need to have employees travel between office locations. Meanwhile, MiTAC employees are able to learn the Company's business performance and latest product information through internal channels such as intranet, bi-monthly publications, and the general assembly. Together, these measures ensure the completeness of internal communication within the Company.

### 2. Inspiration

MiTAC offers a variety of incentives to commend individual and team performance in all areas of expertise, and thereby encourage employees to seek continual growth and improvement that would contribute to the Company's competitiveness. Some of the incentives offered to employees include:

• Employee of the year award: Winners of this award are commended personally by the President during the year-end gathering; in addition, the Company prepares commendation letters and offers bonuses and extra leaves as a show of gratitude to employees and their families.

- •Department/individual patent award: This award is intended to encourage employees in creating patents that are relevant to their jobs. Incentives are provided from proposal, application to approval stage of a patent application; at the end of each year, departments and individuals are assessed for the patents created, and those who exhibit outstanding performance are commended with department/individual awards.
- •Long-term service award: As an appreciation for employees' long-time contribution and commitment to the Company, senior employees with 10, 15, 20 and 25-year service seniority are commended personally by the senior management with the long-term service award as reward.
- Employee stock options and performance bonuses: These monetary benefits are provided to reward employees' contributions and inspire them to further achievements. By aligning employees' interests directly with those of shareholders, these benefits deliver a three-win between the Company, shareholders, and employees. The amount of stock options and bonuses granted to employees is determined by their responsibilities, contributions, and performance.

### (II) Welfare and training

#### 1. Welfare

MiTAC views employees as critical capital to the organization. All employees are entitled to labor insurance, national health insurance, group insurance, and travel insurance. Together, these insurance cover employees for death, health, and safety during overseas business trips and thereby provide them with additional security both in work and life.

We deeply believe that happy families are the foremost support to our employees. The creation of an environment with proper balance between workload and daily lives will be the only way to allow for physical and psychological health of the employees so that they could indulge in their work, which in turn contribute to the sustainable development of the organization. For this end, the Group support the employees in taking care of their families thereby a hearty "temporary nursery care space" has been arranged in the office area. Employees who have the needs for day care of children may take their children to the workplace for reading and resting at a safe place. In so doing, the employees could take care of their children nearby and could have the peace of mind in concentrating on their works.

The Group works in cooperation with external professional consulting groups to hold "Employee Aid Program" to allow for physical and psychological health of the employees. This is a program participated by psychological counselor, lawyers, nutritionists, and wealth management expert to provide employees and families professional counseling in their daily lives, including the counseling service in pressure at workplace, interpersonal relation, family and marriage, interaction between the two sexes, law, wealth management and medical care. This arrangement

could help the employees to maintain proper balance at workplace, daily lives and health

In addition, a well-organized Employee Welfare Committee also provides a variety of benefits for the employees. Each department nominated their representative to the committee. The Committee convenes regularly and organizes a diversity of benefits and events for the employees. It also established different social functions, a free gymnasium, aerobic dance room, and massage room. Professional massage therapists were recruited from outside to help employees to release their pressure. Subsidy will also be granted for employees in different occasions such as marriage, funerals, and other festivities to express the concern of the Company. Bonus will be given in Spring Festival, Dragon Boat Festival and Mid-Autumn Festival as reward to the employees for their effort. In this year, for example, subsidizes of more than NT\$5 million were released by the committee.

### 2. Employees' training and continuing education

We place great emphasis on the improvement of employees skills, which is why a robust training system has been implemented to train employees systematically from orientation, on-job skills, to management skills. In addition, other learning resources such as online courses, work mentors, life counselors and ongoing education subsidies are being offered to provide employees with an environment that supports continual learning and growth. In 2018, the Company has organized 700 training courses for the employees with the participation of 137,000 by head count for more than 336,000 hours.

#### (III) Retirement policy

The group has established a robust retirement system in accordance with the Labor Standards Act and the Labor Pension Act. All contributions made to the system are being held in a dedicated pension reserve account and managed by a supervisory committee that comprises labor and management representatives. Furthermore, monthly contributions are made to the pension reserve account using actuarial estimates produced by an impartial third party. For employees who are subject to the retirement system under the Labor Pension Act (the new system), monthly contributions are made into employees' pension accounts in the amounts specified by law. So far, the two systems have been running properly as they are expected to.

### (IV) Labor-management communication

MiTAC has always taken care of its employees and maintained sound labor-management relationship by sharing its gains and adequate communication with its employees. In the future, MiTAC shall commit to its humane management and aim to strengthen labor-management relationship further by creating more variety of communication channels.

### (V) Work environment and employees' safety

MiTAC has been certified for ISO 14001 - Environmental Protection System and OHSAS 18001 - Occupational Health and Safety Advisory Services System since November 6, 2003. These certifications were attained as reinforcements to the safety and health of employees at workplace, and to protect employees from occupational injury, death, and prevent protest that arise as a result. These certifications are regularly validated by third-party institutions and properly enforced throughout the organization.

### (VI) Employee code of conduct

The Company has created a set of "Integrity Code of Conduct" to establish integrity as part of its corporate culture, and a set of "Employee Code of Conduct" to ensure the consistency of employees' behaviors. There are four main focuses in the Employee Code of Conduct: service principles, confidentiality and prohibition against competing business involvements, network usage and information security, and interaction with suppliers. These codes have been published on the Company's intranet where employees may access at any time, and serve as a regular reminder not to commit violations. Below are terms of the employee service principles:

- 1. Employees shall obey the instructions and assignments given by their managers. Managers shall have the duty to guide and supervise their subordinates.
- 2. Employees are expected to work diligently and commit themselves to improving work performance and quality, and achieve the expected productivity.
- 3. Employees are not allowed to leave their posts during work hours except for urgent matters, which are subject to approval of the line manager.
- 4. Employees must not carry contraband, flammable or explosive substances, or hazardous objects unrelated to work into the workplace.

To enforce discipline and fairness within the Company, a set of "Employee Reward and Disciplinary Policy" has been created to serve as guidelines for rewarding excellence and penalizing violators. The Company has a set of "Anti-corruption Policy" policy in place to prevent illegal conducts and organized fraud. An investigation panel has been assembled to investigate suspicious conducts, and thereby ensure the soundness of the Company's operations.

(VII) Losses arising as a result of employment disputes in the most recent year up till the publication date of this annual report; disclose current possible losses and any responsible actions taken; state reasons in cases where losses cannot be reasonably estimated:

MiTAC did not suffer any losses due to employment dispute in the most recent year up until the publication date of this annual report. The Company currently maintains sound labor-management relationship and expects very low probability of encountering any losses due to employment dispute in the future.

### VI. Important contracts

| Contract nature                           | Participants  | Contract start/end date  | Main contents   | Restrictions |
|---|---------------|--|---|--------------|
| Master Supply<br>Agreement<br>Restatement | Customer<br>E | From July 1, 2014 to June 30, 2017; automatically renewable on a yearly basis. | To outline terms concerning the production, delivery, payment and warranty of computer-related products.        | None         |
| Manufacturing<br>Supply<br>Agreement      | Customer<br>G | October 22, 2015; automatically renewable on a yearly basis.                   | To outline terms concerning the production, delivery, payment and warranty of computer-related products.        | None         |
| Purchasing<br>Agreement                   | Customer F    | 2016; renewable under the consensus of all participants.                       | The clauses of the production and manufacturing, delivery, payment and warranty of computer products as agreed. | None         |

### Six. Financial Position

Root causes of changes in each financial ratio in the last two years (the changes under 20% are exempt from analyses)

- 1. The increase in the interest coverage ratio was primarily a result of the increase in profit resulting in the decrease in interest expenses in 2018.
- 2. The decrease in the inventory turnover rate and increase in the average days in sales was primarily a result of the differentiated product portfolio and earlier stock-up to respond to the market demand.
- 3. The decrease in the property, plant and equipment turnover rate and total asset turnover rate was primarily a result of the changes in the product portfolio resulting in the decrease in net sales this year.
- 4. The increase in the return on assets and return on equity was primarily a result of the increase in the income from disposition of investment resulting in the increase in the income after tax this year.
- 5. The increase in the net profit margin was primarily a result of the increase in the income from disposition of investment resulting in the increase in the income after tax this year.
- 6. The decrease in the cash flow ratio was primarily a result of the decrease in collected accounts receivable.
- 7. The decrease in the cash reinvestment ratio was primarily a result of the decrease in net cash inflow from operating activities.
- 8. The increase in the operating leverage ratio was primarily a result of the decrease in operating income.

Root causes of changes in each financial ratio in the last two years (the changes under 20% are exempt from analyses)

Note: The Company is an investment holding company, hence not applicable.

<sup>1.</sup> The decrease in the assets to liabilities ratio was primarily a result of the decrease in loans from related parties.

<sup>2.</sup> The decrease in the ratio of long-term capital to property, plant and equipment was primarily a result of the increase in property, plant and equipment.

<sup>3.</sup> The decrease in the property, plant and equipment turnover rate was primarily a result of the increase in property, plant and equipment.

<sup>4.</sup> The increase in the return on assets and return on equity was primarily a result of the increase in the income after tax.

<sup>5.</sup> The increase in the cash flow ratio was primarily a result of the decrease in current liabilities.

#### 1. Financial structure

- (1) Debt to asset ratio = total liabilities / total assets
- (2) The ratio of long-term funds to property, plant and equipment = (total equities + non-current liabilities)/ net amount of property, plant and equipment.

### 2. Debt servicing capability

- (1) Current ratio = current assets / current liabilities
- (2) Quick ratio = (current assets inventory-prepayments) / current liabilities
- (3) Interest coverage ratio = net profit before interest and tax / interest expenses for the current period

### 3. Operating capacity

- (1) Receivables turnover (including accounts receivable and notes receivable from business activities) = net sales / average receivables balance (including accounts receivable and notes receivable from business activities).
- (2) Average days of collection = 365 / Receivables turnover
- (3) Inventory turnover = Cost of goods sold / Average inventory amount
- (4) Payables turnover (including accounts payable and notes payable for business activities) = cost of sales / average payables balance (including accounts payable and notes payable for business activities).
- (5) Average days in sales = 365 / Inventory turnover
- (6) Property, plant and equipment turnover = net sales / average net property, plant and equipment balance.
- (7) Total assets turnover = Net sales / Average total assets

### 4. Profitability

- (1) Return on assets = [Net Income or Loss + Interest expense × (1 tax rate)] / Average total assets
- (2) Return on equity = after tax net profit/ average total equity
- (3) Net profit margin = after tax net profit/net sales
- (4) Earnings per share = (attributable to the shareholder's profit and loss of the parent company) Preferred dividends) / Weighted average number of shares issued

### 5. Cash flow

- (1) Cash flow ratio = Cash flow from operating activities / current liabilities
- (2) Cash flow adequacy ratio = net cash flow from operating activities in the latest five years / (capital expenditure inventory + increase + cash dividends) in the latest five years.
- (3) Cash flow reinvestment ratio = (Cash flow from operating activities-Cash dividends) / (Property, Plant and Equipment + long term investments + Other non-current assets + working capital)

### 6. Degree of leverage

- (1) Degree of operating leverage = (net operating revenues variable operating costs and expenses) / operating income.
- (2) Degree of financial leverage = operating income / (operating income interest expense).

# III. The Supervisors' Review Report on the financial statement of the most recent year: refer to p. 109 for further information.

IV. Financial report in the most recent year: refer to p. 110-208 for further information.

- V. The Company's financial statement for the most recent fiscal year, certified by a CPA: See from P. 209 to P. 252.
- VI. If the Company or its affiliates have experienced financial difficulties in the most recent fiscal year or during the current fiscal year up to the date of printing of the annual report, the annual report shall explain how said difficulties will affect the Company's financial situation: None.

# Seven. A review and analysis of the Company's financial status and operating results, and risk management

### I. Review and analysis of the Company's financial status

Unit: In thousands of New Taiwan Dollars

| Year   | Dagambar 21, 2017 | Dagambar 21 2019  | Variation   |      |
|--|-------------------|-------------------|-------------|------|
| Item   | December 31, 2017 | December 31, 2018 | Amount      | %    |
| Current assets   | 20,499,461        | 19,033,549        | (1,465,912) | -7%  |
| Property, Plant and Equipment                                  | 6,697,711         | 7,154,611         | 456,900     | 7%   |
| Intangible assets  | 134,987           | 102,788           | (32,199)    | -24% |
| Other assets   | 19,853,104        | 21,755,203        | 1,902,099   | 10%  |

| Non-Current liabilities  | 784,822           | 805,240           | 20,418      | 3%   |
| Total liabilities  | 12,436,647        | 10,242,824        | (2,193,823) | -18% |
| Share capital  | 8,190,022         | 9,367,677         | 1,177,655   | 14%  |
| Additional paid-in capital                                     | 22,537,691        | 23,370,899        | 833,208     | 4%   |
| Retained earnings  | 3,691,113         | 4,968,926         | 1,277,813   | 35%  |
| Other equity   | 852,239           | 448,912           | (403,327)   | -47% |
| Treasury Stock   | (522,449)         | (353,087)         | 169,362     | -32% |
| Attributable to the shareholder's equity of the parent company | 34,748,616        | 37,803,327        | 3,054,711   | 9%   |
| Non-Controlling Interest                                       | 0                 | 0                 | 0           | 0%   |
| Total equity   | 34,748,616        | 37,803,327        | 3,054,711   | 9%   |

The main reasons for any material change in the Company's assets, liabilities, or equity during the past two fiscal years:

- 1. Intangible assets: Primarily a result of amortization of computer and software.
- 2. Retained earnings: Primarily a result of the increase in the current net profit.
- 3. Other equity: Primarily a result of the increase in the exchange differences on translation of foreign financial statements and decrease in unrealized income on financial assets at fair value through other comprehensive income.
- 4. Treasury stock: Primarily a result of the annulment of the current treasury stock.

### II. Review and analysis of the Company's financial performance

| Year                                       | 2017       | 2018       | Variation    |      |  |
|--|------------|------------|--------------|------|--|
| Item                                       | 2017       | 2018       | Amount       | %    |  |
| Revenue                                    | 48,760,514 | 30,751,819 | (18,008,695) | -37% |  |
| Gross profit                               | 5,665,177  | 4,787,868  | (877,309)    | -15% |  |

| Year | 2017 | 2018 | Varia  | ation |
|------|------|------|--------|-------|
| Item | 2017 | 2016 | Amount | %     |

- (I) The main reason for the significant change in revenue, operating income and earnings before taxation in the last 2 years:
  - The decline in the operating revenue and operating income from the same period of last year was primarily a result of the changes in product portfolio.
  - The increase in the income before tax from last year was primarily a result of the gains from disposition of the shares held in Synnex Corp., an investee under equity method, in 2018.
- (II) Expected sales volume and basis of estimate: The Company does not prepare financial forecasts, hence it is not applicable.
- (III) The possible effect upon the Company's financial operations as well as measures to be taken in response: No material effect.

### III. Cash flow review and analysis

Unit: In thousands of New Taiwan Dollars

|                      | Net cash flow                          |                        |                               |                  | cash deficits |
|----------------------|--|------------------------|-------------------------------|------------------|---------------|
| Opening cash balance | from operating activities for the year | Annual cash<br>outflow | Cash surplus (deficit) amount | Investment plans | Finance plans |
| 8,056,991            | 1,049,333                              | (5,443,188)            | 3,663,136                     | 1                | -             |

- (I) Analysis of cash flow changes during this fiscal year
  - 1. Operating activities: Primarily a result of the operating profit and stock dividend revenue rsulting in the net cash inflow from operating activities in the current period.
  - 2. Annual cash outflow: Primarily a result of the factory construction, acquisition of equipment, repayment to bank loans and distribution of cash dividends.
- (II) Improvement plans for cash deficits: Not applicable.
- (III) Cash liquidity analysis for the next fiscal year

Unit: In thousands of New Taiwan Dollars

|                      | Net cash flow                          |                        |                               | Financing of     | cash deficits |
|----------------------|--|------------------------|-------------------------------|------------------|---------------|
| Opening cash balance | from operating activities for the year | Annual cash<br>outflow | Cash surplus (deficit) amount | Investment plans | Finance plans |
| 5,725,216            | 1,159,657                              | (2,697,035)            | 4,187,838                     | -                | -             |

- 1. Analysis of cash flow for the year:
- (1) Operating activities: Net cash inflow is expected from operating activities in 2019.
- (2) Cash outflow in the year: Scheduled to construct factory preises, acquisition of fixed assets, and allocation of cash dividends, et al..
- 2. Improvement plans for cash deficit: Not applicable.

## IV. The effect upon financial operations of any major capital expenditures during the most recent fiscal year: None.

- V. The Company's reinvestment policy for the most recent fiscal year, the main reasons for the profits/losses generated thereby, the plan for improving re-investment profitability, and investment plans for the coming year:
  - (I) The reinvestment policy for the most recent fiscal year: The reinvestments of the Group are long-term strategic planning for future business demands, hoping to increase revenues and profits.
  - (II) The main reasons for the profits/losses generated from reinvestments and the plan for

improving re-investment profitability: Profits were mainly caused by the stable growth of business and proper control of costs. The loss was mainly caused by the reason that it is still on the stage of developing new products or the sales of products fell short of expectation. In addition, the Group will consider elements from all perspectives and make proper management policy for non-operating reinvestees or investees with poor performance to improve management performance and control investment losses.

(III) Investment plans for the coming year: The Company will follow the operating strategy to execute the global investment plans.

### VI. Risk management issues

(I) Organization structure for risk management

| Responsible departments   | Tasks and duties   |
|---------------------------|--|
| Finance                   | Responsible for operational decision planning, assessment of medium/long-term investments, funding, treasury, hedging, reliability of financial reports, monitoring of performance and efficiency, and compliance matters relating to the above. The department's goals are to minimize financial, taxation and strategic risks. |
| Information<br>Management | Responsible for the planning, establishment, maintenance, security and protection of the Company's information network, hardware, software and systems, as well as ongoing monitoring of network/system quality in order to minimize security risks of existing networks and systems.  |
| Legal Affairs             | Responsible for the management of legal risks, including compliance with government supervision and resolution of contractual disputes and litigation.   |
| Human<br>Resource         | Responsible for the management of personnel risks and real estate property risks, and compliance with government regulations to ensure sustainability of the Company's operations and security of real estate properties.  |

- (II) The effect upon the Company's profits (losses) of interest and exchange rate fluctuations and changes in the inflation rate, and response measures to be taken in the future:
  - 1. The influence of the changes in interest rate and exchange rate, and inflation in 2018 on the profits (loss) of the Company.

| Unit: In thousands of New Taiwan Dollars   | 2018   |  |  |
|--|--------|--|--|
| Item   | Amount | As a percentage of<br>Operating<br>revenues<br>% |  |
| Interest income (expense)  | 77,861 | 0.25   |  |
| Exchange gains (losses) (including gains/losses on valuation of financial instruments) | 12,884 | 0.04   |  |

Note: The influence of inflation on the profits (loss) of the Company is insignificant.

2. The response measures taken by the Company for interest and exchange rate

fluctuations and changes in the inflation rate:

- (1) The pricing, collection and payments for trade receivables and payables are mainly in USD along with one-basket currencies to reduce the effect of exchange rate fluctuation on the overall revenues.
- (2) All derivative transactions the Company has currently undertaken are intended to hedge against foreign currency assets and liabilities shown on the balance sheet. As required by "Procedures for Derivatives Trading," the Company transacts financial instruments with banks and evaluates gains and losses on a regular basis to ensure that hedges remain effective in minimizing interest rate and exchange rate impacts on income.
- (3) The Company maintains close interactions with banks and conducts regular assessments to secure the best borrowing rates, and therefore reduces impact of interest rate variations on income.
- (4) The Company gathers regular information on exchange rate, interest rate, and the financial market. Meetings are held where appropriate to discuss the best course of action. In the occurrence of extreme market events, the executive management will be notified immediately for proper actions.
- (5) In light of recent disasters caused by extreme weather conditions and rapid changes of interest rates and exchange ratesaround the world, it is increasingly important for businesses to source supplies that are stable and reasonably priced. To address this challenge, MiTAC has been monitoring changes in the market and making procurement plans in advance so that suppliers have ample time to find alternative materials or make advance purchases at their discretion. Since most of the supply chains are commonly affected by prolonged delivery, it has become apparent that the Company must devote greater attention to create demands, explore ways to reduce risks, manage uncertainties involving prolonged delivery and shortage of labor, relax inventory control and adjust cost control of non-production materials. Meanwhile, distributors shall carry additional inventory to avoid impact on earnings due to disruption of supply or volatile costs.
- (III) The Company's policy regarding high-risk investments, highly leveraged investments, loans to other parties, endorsements, guarantees, and derivatives transactions; the main reasons for the profits/losses generated thereby; and response measures to be taken in the future:
  - 1. The Group does not engage in high-risk and highly leveraged investments.
  - 2. Financing third parties was undertaken in accordance with the "Procedure for Financing". As of the December 31, 2018 and March 31, 2019, the Company and subsidiaries had balance of loans to third parties amounting to NT\$21,289,541 thousand and NT\$20,760,610 thousand, respectively.
  - 3. Endorsement/guarantees in favor of third parties were undertaken in accordance with the "Procedure for Undertaking Endorsements/Guarantees". As of the December 31, 2018 and March 31, 2019, the Company and subsidiaries had balance of endorsements/guarantees undertaken in favor of third parties amounting to NT\$926,422 thousand and NT\$926,864 thousand, respectively.
  - 4. Derivatives transactions are conducted in accordance with "Procedures for Derivatives Trading."

- (IV) Research and development work to be carried out in the future, and further expenditures expected for research and development work:
  - 1. In this year (2019), the Company planned to appropriate NT\$2.3 billion in R&D.
  - 2. Research and development work to be carried out in the future
    - (1)Cloud computing product series
      - AI and in-depth learning optimal design server platform
      - Industrial grade embedded server platform
      - High-performance GPU computing server
      - Development of various industrial LCD panels (Industrial Panel PC)
      - Development of small and medium size embedded LCD computer (Panel Mount/Open Frame Panel PC)
      - Development of various sizes of self-service terminal LCD computer (Kiosk Panel PC)
      - New generation Intel core embedded industrial board (Embedded Mother Board) development
      - Development of industrial wide temperature and wide pressure 3.5 inches motherboard
      - Development of industrial wide temperature and wide pressure 2.5 inches motherboard
      - Development of industrial/medical COM Express motherboard modules
      - Development of the barebones system (Box PC) for railway transportation (IEC50155)
    - (2) Mobile communication product series
      - Cloud computing applications and technologies
      - Integrated data capture, voice, and wireless broadband communication
      - Global positioning system (GPS), electronic navigation technologies and mobile positioning services
      - Compact portable electronic devices; technological development for green energy products
- (V) Effect on the Company's financial operations of important policies adopted and changes in the legal environment at home and abroad, and measures to be taken in response: The influence of US-China trade on the Group and responses:
  - MiTAC Group has global presence and has production sites in China and the USA. Subject to the development condition, the Company will seek the optimal production model based on the production cost, logistic cost and customer needs, and will also make good use of the production base in the USA to engage in assembly and production to mitigate the tariff impact. The production line installation project of the Hsinchu Science Park factory was initiated in 2018. It is expected that a part of the production capacity in the mainland China will be transferred back to the factory in Hsinchu in the middle of 2019. Therefore, no material impact should be imposed on the Company's financial position.
- (VI) Effect on the Company's financial operations of developments in science and technology as well as industrial change, and measures to be taken in response:
  - 1. MiTAC has engaged in joint ventures with the supply chain for the development of subsitute high melting point soldering materials. Through supply chain management, MiTAC demands its upstream suppliers to proceed to application for waiver and development of subsitute new materials without the waiver clause so that the products

- could meet the requirements of the RoHS waiver clause under the optimal cost structure and mode of operation.
- 2. The increase in wages in China and the backflow of manufacturing in the United States will have impact on the global planning and investment strategy. The best response to this change would be to introduce automated production lines. In addition, MiTAC will try to incorporate the concept of manufacturing 4.0 and enhance supply chain management with an intelligent system. By integrating automated machinery with the production system, the Company would be able to produce broad variety of products in small quantities at a faster rate.
- 3. Since cloud service requires many medium and large data centers, the industrial trend, as mentioned in the previous chapter, is to skip the brands or to integrate factories and directly set specifications and search for manufacturers. In other words, we see ODM Direct as the business model of the future, one that requires intensive investments in total system solutions. One of the Company's most important problems in the future would be to integrate existing technologies for faster product launch.
- 4. In order to protect our clients, company and individual information from intentional or accidental sabotage, and to manage and protect all stored or communicated data from damage, theft, disclosure, tampering, abuse and tort, the information security policy is stipulated, clearly stating the importance of maintaining information security and the implementation thereof, so that various organizations will clearly understand the information security policy, in turn complying with relevant control protocols to constantly improve the confidentiality, integrity and usability of all information service system operations. The ultimate goal is to ensure the information security of the company's businesses and uphold sustainable management philosophy.
- (VII) Effect on the Company's crisis management of changes in the Company's corporate image, and measures to be taken in response: None.
- (VIII) Expected benefits and possible risks associated with any merger and acquisitions, and mitigation measures being or to be taken: None.
- (IX) Expected benefits and possible risks associated with any plant expansion and mitigation measures being or to be taken: None.
- (X) Risks associated with any consolidation of purchasing or sales operations, and mitigation measures being or to be taken:
  - Purchasing: Main raw material procurement policy is based on the principle of maintaining two suppliers or more and distribution of purchasing and establishing safe stock with major suppliers and instantly updating changes in demand to maintain a long-term and close collaboration relationship and to ensure the sources of all materials.
  - Sales: MiTAC's strong R&D and manufacturing capability has enabled it to maintain long-term relationship with existing customers while at the same time explore new customers to diversify revenue sources. There should not be any concentration in sales that would impact the Company's growth.
- (XI) Effect upon and risk to the Company in the event a major quantity of shares belonging to a director, supervisor, or shareholder holding greater than a 10 percent stake in the Company has been transferred or has otherwise changed hands, and mitigation measures being or to be taken:
  - The Company is constantly aware of the identity of its controlling shareholders, and the name of the ultimate controller of its major shareholders. Shareholdings of directors, supervisors and major shareholders with more than 10% ownership interest are reported regularly in accordance with the Securities and Exchange Act.

(XII) Effect upon and risk to company associated with any change in governance personnel or top management, and mitigation measures being or to be taken: None.

(XIII) Litigation and non-contentious matters:

In the most recent fiscal year up till the publication date of this annual report, there had been no litigations, non-contentious cases, or administrative litigations involving the Company, the Company's director, supervisor, President, person-in-charge, any shareholder with more than 10% ownership interest, or any subsidiary of the Company that would have significant impact on shareholders' equity or securities prices, as described in Subparagraph 12, Paragraph 6, Article 20 of "Regulations Governing Information to be Published in Annual Reports of Public Companies."

(XIV)Other important risks, and mitigation measures being or to be taken:

- 1. Suppliers' profit-oriented strategy: Integration continues to be conducted in IT industry and further strategic alliance mode is adopted in the hope for finding the niche of the industry chain. The rise of Chinese suppliers coupled with rising wages in China, volatile commodity prices, and shift of focus towards hand-held devices and cloud applications all pose additional pressure to material costs and stability of supply. In response to this threat, MiTAC will discuss with its suppliers regularly on the choice and supply of materials and changes in the market, and adjust its procurement strategies accordingly.
- 2. The sound financial position of the suppliers will be a key issue for control thereby surveys and analysis have been conducted on the financial reports of the suppleirs at regular intervals.

VII. Other important matters: None.

# MITAC HOLDINGS CORPORATION AND SUBSIDIARIES CONSOLIDATED FINANCIAL STATEMENTS AND REPORT OF INDEPENDENT ACCOUNTANTS DECEMBER 31, 2018 AND 2017

#### REPORT OF INDEPENDENT ACCOUNTANTS

PWCR18000279

To the Board of Directors and Shareholders of MiTAC Holdings Corporation

#### **Opinion**

We have audited the accompanying consolidated balance sheets of MiTAC Holdings Corporation and its subsidiaries (the "MiTAC Group") as at December 31, 2018 and 2017, and the related consolidated statements of comprehensive income, of changes in equity and of cash flows for the years then ended, and notes to the consolidated financial statements, including a summary of significant accounting policies.

In our opinion, based on our audits and the audit reports of other independent accountants, as described in the *Other matters* section of our report, the accompanying consolidated financial statements present fairly, in all material respects, the consolidated financial position of the MiTAC Group as at December 31, 2018 and 2017, and its consolidated financial performance and its consolidated cash flows for the years then ended in accordance with the "Regulations Governing the Preparation of Financial Reports by Securities Issuers" and the International Financial Reporting Standards, International Accounting Standards, IFRIC Interpretations, and SIC Interpretations as endorsed by the Financial Supervisory Commission.

#### Basis for opinion

We conducted our audits in accordance with the "Regulations Governing Auditing and Attestation of Financial Statements by Certified Public Accountants" and generally accepted auditing standards in the Republic of China (ROC GAAS). Our responsibilities under those standards are further described in the *Auditor's Responsibilities for the Audit of the Consolidated Financial Statements* section of our report. We are independent of the MiTAC Group in accordance with the Code of Professional Ethics for Certified Public Accountants in the Republic of China (the "Code"), and we have fulfilled our other ethical responsibilities in accordance with the Code. Based on our audits and the audit reports of the other independent accountants, we believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

#### Key audit matters

Key audit matters are those matters that, in our professional judgement, were of most significance in our audit of the consolidated financial statements of the current period. These matters were addressed in the context of our audit of the consolidated financial statements as a whole and, in forming our opinion thereon, we do not provide a separate opinion on these matters.

Key audit matters for the MiTAC Group's consolidated financial statements of the current period are stated as follows:

#### Sales revenue recognition

#### **Description**

For accounting policies on sales revenue recognition, please refer to Note 4(31). Considering that the sales revenue are material to its financial statements, the types of MiTAC Group products and sales terms are various, the timing of revenue recognition can only be determined when the controls of ownership for products are transferred to the customers based on contract terms of each different customer. Thus, we identified the sales revenue recognition as a key audit matter.

#### How our audit addressed the matter

We performed audit procedures including discussing with management and evaluating the policy of revenue recognition; tested the effectiveness of design and implementation of internal controls over recognition of revenue; sampled transaction terms and prices of customers and verified the supporting documents for delivery to ensure the accuracy of payment time and amount; selected sales transactions around the fiscal year-end date and verified transaction documents to ensure sales revenue are recorded in the proper period.

#### Valuation of inventory

#### **Description**

The MiTAC Group's inventories were mainly engaged in manufacturing and selling computer and its peripherals and communications products. Since the industry involved rapidly changing technology and were affected by market demand, there was higher risk of incurring inventory valuation losses or having obsolete inventory. The MiTAC Group's inventories were measured at the lower of cost and net realisable value. For a description of accounting policy on inventory valuation, please refer to Note 4(14), and for accounting estimates and assumption uncertainty in relation to inventory valuation,

please refer to Note 5(2). Considering the MiTAC Group's inventories were significant, items were voluminous and the valuation is associated with subjective judgement, we identified valuation of inventory as a key audit matter.

#### How our audit addressed the matter

We performed audit procedures including discussing with management and evaluating the policy of inventory valuation, tested inventory aging report, checked the logic in inventory aging calculation and confirmed that the classification of obsolete or slow-moving inventories was appropriate, and tested the materials which were used to determine the net realized of obsolete or slow-moving inventories in order to assess the reasonableness of allowance for inventory valuation losses.

#### Other matter- reference to reports of other independent accountants

We did not audit certain investments accounted for using the equity method that were included in the consolidated financial statements, whose financial statements were prepared under a different financial reporting framework. The Company converted the financial statements in accordance with the "Regulations Governing the Preparation of Financial Reports by Securities Issuers" and the International Financial Reporting Standards, International Accounting Standards, IFRIC Interpretations, and SIC Interpretations as endorsed by the Financial Supervisory Commission. Share of profit (loss) of associates and joint ventures accounted for using equity method amounted to NT\$1,108,426 thousand and NT\$1,250,651 thousand for the years ended December 31, 2018 and 2017, respectively. Investments accounted for using equity method amounted to NT\$10,783,025 thousand and NT\$9,238,721 thousand as at December 31, 2018 and 2017, respectively. Those financial statements before adjustments were audited by other independent accountants whose reports thereon have been furnished to us, and our opinion expressed herein is based solely on the audit reports of the other independent accountants.

#### Other matter - Parent company only financial reports

We have audited and expressed an unqualified opinion on the parent company only financial statements of MiTAC Holdings Corporation as at and for the years ended December 31, 2018 and 2017.

### Responsibilities of management and those charged with governance for the consolidated financial statements

Management is responsible for the preparation and fair presentation of the consolidated financial statements in accordance with the "Regulations Governing the Preparation of Financial Reports by Securities Issuers" and the International Financial Reporting Standards, International Accounting Standards, IFRIC Interpretations, and SIC Interpretations as endorsed by the Financial Supervisory Commission, and for such internal control as management determines is necessary to enable the preparation of consolidated financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the consolidated financial statements, management is responsible for assessing the MiTAC Group's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the MiTAC Group or to cease operations, or has no realistic alternative but to do so.

Those charged with governance, including audit committee (Including supervisors), are responsible for overseeing the MiTAC Group's financial reporting process.

#### Auditor's responsibilities for the audit of the consolidated financial statements

Our objectives are to obtain reasonable assurance about whether the consolidated financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with ROC GAAS will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these consolidated financial statements.

As part of an audit in accordance with ROC GAAS, we exercise professional judgement and maintain professional skepticism throughout the audit. We also:

- 1. Identify and assess the risks of material misstatement of the consolidated financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- 2. Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the MiTAC Group's internal control.
- 3. Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- 4. Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the MiTAC Group's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the consolidated financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the MiTAC Group to cease to continue as a going concern.
- 5. Evaluate the overall presentation, structure and content of the consolidated financial statements, including the disclosures, and whether the consolidated financial statements represent the underlying transactions and events in a manner that achieves fair presentation.
- 6. Obtain sufficient appropriate audit evidence regarding the financial information of the entities or business activities within the MiTAC Group to express an opinion on the consolidated financial statements. We are responsible for the direction, supervision and performance of the group audit. We remain solely responsible for our audit opinion.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the consolidated financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

Wen, Fang-Yu

Cheng, Ya-Huei

For and on behalf of PricewaterhouseCoopers, Taiwan February 26, 2019

# MITAC HOLDINGS CORPORATION AND SUBSIDIARIES NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS FOR THE YEARS ENDED DECEMBER 31, 2018 AND 2017

(Expressed in thousands of New Taiwan dollars, except as otherwise indicated)

#### 1. HISTORY AND ORGANISATION

- (1) MiTAC Holdings Corporation (the "Company") was established by MiTAC International Corp. ("MiTAC International") through a share conversion on September 12, 2013, and on the same date, the competent authority has approved for the Company's shares to be listed on the Taiwan Stock Exchange (TWSE). MiTAC International became the Company's wholly-owned subsidiary after conversion. The main business of the Company and its subsidiaries (collectively referred herein as the "Group") is to design, manufacture and sell products related to investments, computers and its peripherals and communications.
- (2) In order to promote specialization of work for transforming and improving overall competitiveness of the Group, the Board of Directors of its subsidiary, MiTAC International, has resolved to divest its cloud computing products group to the newly established company, MiTAC Computing Technology Corporation (collectively referred herein as the "MiTAC Computing Technology"), as the consideration for the acquisition of 220,000 thousand newly issued ordinary shares of MiTAC Technology on the spin-off day, September 1, 2014. In addition, in 2017, the Board of Directors of MiTAC International has resolved to divest its mobile communication products group to the newly established company, MiTAC Digital Technology Corporation (collectively referred herein as the "MiTAC Digital Technology"), as the consideration for the acquisition of 100,000 thousand newly issued ordinary shares of MiTAC Digital Technology on the spin-off day, January 1, 2018. As a result, MiTAC International, MiTAC Computing Technology and MiTAC Digital Technology are the wholly-owned subsidiaries of the Company after the spin-off.

### 2. THE DATE OF AUTHORISATION FOR ISSUANCE OF THE CONSOLIDATED FINANCIAL STATEMENTS AND PROCEDURES FOR AUTHORISATION

These consolidated financial statements were authorised for issuance by the Board of Directors on February 26, 2019.

#### 3. APPLICATION OF NEW STANDARDS, AMENDMENTS AND INTERPRETATIONS

(1) Effect of the adoption of new issuances of or amendments to International Financial Reporting Standards ("IFRSs") as endorsed by the Financial Supervisory Commission ("FSC")

New standards, interpretations and amendments endorsed by the FSC effective from 2018 are as follows:

|  | Effective date by |
|--|-------------------|
|  | International     |
|  | Accounting        |
| New Standards, Interpretations and Amendments                              | Standards Board   |
| Amendments to IFRS 2, 'Classification and measurement of share-based       | January 1, 2018   |
| payment transactions'  |                   |
| Amendments to IFRS 4, 'Applying IFRS 9, Financial instruments with IFRS 4, | January 1, 2018   |
| Insurance contracts'   |                   |
| IFRS 9, 'Financial instruments'  | January 1, 2018   |
| IFRS 15, 'Revenue from contracts with customers'                           | January 1, 2018   |
| Amendments to IFRS 15, 'Clarifications to IFRS 15, Revenue from contracts  | January 1, 2018   |
| with customers'  |                   |
| Amendments to IAS 7, 'Disclosure initiative'                               | January 1, 2017   |
| Amendments to IAS 12, 'Recognition of deferred tax assets for unrealized   | January 1, 2017   |
| Amendments to IAS 40, 'Transfers of investment property'                   | January 1, 2018   |
| IFRIC 22, 'Foreign currency transactions and advance consideration'        | January 1, 2018   |
| Annual improvements to IFRSs 2014-2016 cycle - Amendments to IFRS 1,       | January 1, 2018   |
| 'First-time adoption of International Financial Reporting Standards'       |                   |
| Annual improvements to IFRSs 2014-2016 cycle - Amendments to IFRS 12,      | January 1, 2017   |
| 'Disclosure of interests in other entities'                                |                   |
| Annual improvements to IFRSs 2014-2016 cycle - Amendments to IAS 28,       | January 1, 2018   |
| 'Investments in associates and joint ventures'                             |                   |

Except for the following, the above standards and interpretations have no significant impact to the Group's financial condition and financial performance based on the Group's assessment.

#### A. IFRS 9, 'Financial instruments'

- (a) Classification of debt instruments is driven by the entity's business model and the contractual cash flow characteristics of the financial assets, which would be classified as financial asset at fair value through profit or loss, financial asset measured at fair value through other comprehensive income or financial asset at amortized cost. Equity instruments would be classified as financial asset at fair value through profit or loss, unless an entity makes an irrevocable election at inception to present subsequent changes in the fair value of an investment in an equity instrument that is not held for trading in other comprehensive income.
- (b) The Group has elected not to restate prior period financial statements using the modified retrospective approach under IFRS 9. For details of the significant effect as at January 1, 2018, please refer to Note 12(4).

#### B. IFRS 15, 'Revenue from contracts with customers' and amendments

(a) IFRS 15 requires that, when products are sold with a right of return, the entity will recognize revenue in the amount of consideration to which the entity expects to be entitled. Revenue would not be recognized for products that the entity expects to be returned. The entity raises a refund liability and an asset representing its right to recover the products from the customer.

The asset is presented separately from the refund liability.

- (b) The Group has elected not to restate prior period financial statements and recognized the cumulative effect of initial application as retained earnings at January 1, 2018, using the modified retrospective approach under IFRS 15. The significant effects of adopting the modified transition as of January 1, 2018 are summarised below:
  - i. Under IFRS 15, liabilities in relation to expected sales discounts are recognized as refund liabilities, along with the cost of products with a right of return and related inventory in relation to expected sales returns are recognized as 'cost of products to be returned', but were previously presented the net value as 'accounts receivable allowance for sales returns and discounts' in the balance sheet. As of January 1, 2018, other current liabilities, accounts receivable and other current assets were increased by \$279,765, \$191,747 and \$88,018, respectively.
  - ii. Under IFRS 15, liabilities in relation to product selling contracts are recognized as contract liabilities, but were previously presented as advance sales receipts (shown as 'other current liabilities') in the balance sheet. The balance was \$184,895 as of January 1, 2018.

#### C. Amendments to IAS 7, 'Disclosure initiative'

This amendment requires that an entity shall provide more disclosures related to changes in liabilities arising from financing activities, including both changes arising from cash flows and non-cash changes.

The Group expects to provide additional disclosure to explain the changes in liabilities arising from financing activities, please refer to Note 6(32).

### (2) Effect of new issuances of or amendments to IFRSs as endorsed by the FSC but not yet adopted by the Group

New standards, interpretations and amendments endorsed by the FSC effective from 2019 are as follows:

|  | Effective date by        |
|--|--------------------------|
|  | International Accounting |
| New Standards, Interpretations and Amendments                                | Standards Board          |
| Amendments to IFRS 9, 'Prepayment features with negative compensation'       | January 1, 2019          |
| IFRS 16, 'Leases'  | January 1, 2019          |
| Amendments to IAS 19, 'Plan amendment, curtailment or settlement'            | January 1, 2019          |
| Amendments to IAS 28, 'Long-term interests in associates and joint ventures' | January 1, 2019          |
| IFRIC 23, 'Uncertainty over income tax treatments'                           | January 1, 2019          |
| Annual improvements to IFRSs 2015-2017 cycle                                 | January 1, 2019          |

Except for the following, the above standards and interpretations have no significant impact to the

Group's financial condition and financial performance based on the Group's assessment. The quantitative impact will be disclosed when the assessment is complete.

IFRS 16, 'Leases'

IFRS 16, 'Leases', replaces IAS 17, 'Leases' and related interpretations and SICs. The standard requires lessees to recognize a 'right-of-use asset' and a lease liability (except for those leases with terms of 12 months or less and leases of low-value assets). The accounting stays the same for lessors, which is to classify their leases as either finance leases or operating leases and account for those two types of leases differently. IFRS 16 only requires enhanced disclosures to be provided by lessors.

The Group expects to recognize the lease contract of lessees in line with IFRS 16. However, the Group does not intend to restate the financial statements of prior period. On January 1, 2019, it is expected that 'right-of-use asset' and lease liability will be increased by \$455,606 and \$233,433, and long-term prepaid rent (shown as 'other non-current assets') will be decreased by \$222,173.

#### (3) IFRSs issued by IASB but not yet endorsed by the FSC

New standards, interpretations and amendments issued by IASB but not yet included in the IFRSs as endorsed by the FSC are as follows:

|  | Effective date by        |
|--|--------------------------|
|  | International Accounting |
| New Standards, Interpretations and Amendments                      | Standards Board          |
| Amendment to IAS 1 and IAS 8, 'Disclosure Initiative-Definition of | January 1, 2020          |
| Material'  |                          |
| Amendments to IFRS 3, 'Definition of a business'                   | January 1, 2020          |
| Amendments to IFRS 10 and IAS 28, 'Sale or contribution of assets  | To be determined by      |
| between an investor and its associate or joint venture'            | International Accounting |
|  | Standards Board          |
| IFRS 17, 'Insurance contracts'                                     | January 1, 2021          |

The above standards and interpretations have no significant impact to the Group's financial condition and financial performance based on the Group's assessment.

#### 4. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The principal accounting policies applied in the preparation of these consolidated financial statements are set out below. These policies have been consistently applied to all the periods presented, unless otherwise stated.

#### (1) Compliance statement

These consolidated financial statements are prepared by the Group in accordance with the "Regulations Governing the Preparation of Financial Statements by Securities Issuers" and the International Financial Reporting Standards, International Accounting Standards, IFRIC Interpretations, and SIC Interpretations as endorsed by the FSC (collectively referred herein as the "IFRSs").

#### (2) Basis of preparation

- A. Except for the following items, these consolidated financial statements have been prepared under the historical cost convention:
  - (a) Financial assets and financial liabilities (including derivative instruments) at fair value through profit or loss.
  - (b) Financial assets and liabilities at fair value through other comprehensive income/Available-for-sale financial assets measured at fair value.
  - (c) Defined benefit liabilities recognized based on the net amount of pension fund assets and present value of defined benefit obligation.
- B. The preparation of financial statements in compliance with IFRSs requires the use of certain critical accounting estimates. It also requires management to exercise its judgement in the process of applying the Group's accounting policies. The areas involving a higher degree of judgement or complexity, or areas where assumptions and estimates are significant to the consolidated financial statements are disclosed in Note 5.
- C. In adopting IFRS 9 and IFRS 15 effective January 1, 2018, the Group has elected to apply modified retrospective approach whereby the cumulative impact of the adoption was recognized as retained earnings or other equity as of January 1, 2018 and the financial statements for the year ended December 31, 2017 were not restated.

#### (3) Basis of consolidation

- A. Basis for preparation of consolidated financial statements:
  - (a) All subsidiaries are included in the Group's consolidated financial statements. Subsidiaries are all entities (including structured entities) controlled by the Group. The Group controls an entity when the Group is exposed, or has rights, to variable returns from its involvement with the entity and has the ability to affect those returns through its power over the entity. Consolidation of subsidiaries begins from the date the Group obtains control of the subsidiaries and ceases when the Group loses control of the subsidiaries.
  - (b) Inter-company transactions, balances and unrealized gains or losses on transactions between companies within the Group are eliminated. Accounting policies of subsidiaries have been adjusted where necessary to ensure consistency with the policies adopted by the Group.
  - (c) Profit or loss and each component of other comprehensive income are attributed to the owners of the parent and to the non-controlling interests. Total comprehensive income is attributed to the owners of the parent and to the non-controlling interests even if this results in the non-controlling interests having a deficit balance.
  - (d) Changes in a parent's ownership interest in a subsidiary that do not result in the parent losing control of the subsidiary (transactions with non-controlling interests) are accounted for as equity transactions, i.e. transactions with owners in their capacity as owners. Any difference between the amount by which the non-controlling interests are adjusted and the fair value of the consideration paid or received is recognized directly in equity.

(e) When the Group loses control of a subsidiary, the Group remeasures any investment retained in the former subsidiary at its fair value. Any difference between fair value and carrying amount is recognized in profit or loss. All amounts previously recognized in other comprehensive income in relation to the subsidiary are reclassified to profit or loss on the same basis as would be required if the related assets or liabilities were disposed of. That is, when the Group loses control of a subsidiary, all gains or losses previously recognized in other comprehensive income in relation to the subsidiary should be reclassified from equity to profit or loss, if such gains or losses would be reclassified to profit or loss when the related assets or liabilities are disposed of.

#### B. Subsidiaries included in the consolidated financial statements:

|                                  |   |  | Ownership (%)     |                   |         |
|----------------------------------|---|--|-------------------|-------------------|---------|

- Note 1: After the reorganization in the first quarter of 2018, MiTAC Digital Technology Corp. held 100% shares of Access Wisdom Holdings Ltd. which was originally held by Silver Star Development Ltd.
- Note 2: After the reorganization in the first quarter of 2018, MiTAC Digital Technology Corp. held 100% shares of Mio International Ltd. which was originally held by Silver Star Development Ltd.
- Note 3: Subsidiary was closed in the second quarter of 2018.
- Note 4: Subsidiary was closed on November 7, 2018.
- C. Subsidiaries not included in the consolidated financial statements: None.
- D. Adjustments for subsidiaries with different balance sheet dates: None.
- E. Nature and extent of the restrictions on fund remittance from subsidiaries to the parent company: None.
- F. Subsidiaries that have non-controlling interests that are material to the Group: None.

#### (4) Foreign currency translation

Items included in the financial statements of each of the Group's entities are measured using the currency of the primary economic environment in which the entity operates (the "functional currency"). The consolidated financial statements are presented in New Taiwan Dollars, which is the Company's functional and the Group's presentation currency.

- A. Foreign currency transactions and balances
  - (a) Foreign currency transactions are translated into the functional currency using the exchange rates prevailing at the dates of the transactions or valuation where items are remeasured. Foreign exchange gains and losses resulting from the settlement of such transactions are recognized in profit or loss in the period in which they arise.

- (b) Monetary assets and liabilities denominated in foreign currencies at the period end are re-translated at the exchange rates prevailing at the balance sheet date. Exchange differences arising upon re-translation at the balance sheet date are recognized in profit or loss.
- (c) Non-monetary assets and liabilities denominated in foreign currencies held at fair value through profit or loss are re-translated at the exchange rates prevailing at the balance sheet date; their translation differences are recognized in profit or loss. Non-monetary assets and liabilities denominated in foreign currencies held at fair value through other comprehensive income are re-translated at the exchange rates prevailing at the balance sheet date; their translation differences are recognized in other comprehensive income. However, non-monetary assets and liabilities denominated in foreign currencies that are not measured at fair value are translated using the historical exchange rates at the dates of the initial transactions.

#### B. Translation of foreign operations

- (a) The operating results and financial position of all the group entities and associates that have a functional currency different from the presentation currency are translated into the presentation currency as follows:
  - i. Assets and liabilities for each balance sheet presented are translated at the spot exchange rate at the date of that balance sheet;
  - ii. Income and expenses for each statement of comprehensive income are translated at average exchange rates of that period.
  - iii. All resulting exchange differences are recognized in other comprehensive income.
- (b) When the foreign operation partially disposed of or sold is an associate, exchange differences that were recorded in other comprehensive income are proportionately reclassified to profit or loss as part of the gain or loss on sale. In addition, even when the Group retains partial interest in the former foreign associate after losing significant influence over the former foreign associate, such transactions should be accounted for as disposal of all interest in these foreign operations.
- (c) When the foreign operation partially disposed of or sold is a subsidiary, cumulative exchange differences that were recorded in other comprehensive income are proportionately transferred to the non-controlling interest in this foreign operation. In addition, even when the Group retains partial interest in the former foreign subsidiary after losing control of the former foreign subsidiary, such transactions should be accounted for as disposal of all interest in the foreign operation.

#### (5) Classification of current and non-current items

- A. Assets that meet one of the following criteria are classified as current assets; otherwise they are classified as non-current assets:
  - (a) Assets arising from operating activities that are expected to be realized, or are intended to be sold or consumed within the normal operating cycle;

- (b) Assets held mainly for trading purposes;
- (c) Assets that are expected to be realized within twelve months from the balance sheet date;
- (d) Cash and cash equivalents, excluding restricted cash and cash equivalents and those that are to be exchanged or used to settle liabilities more than twelve months after the balance sheet date.
- B. Liabilities that meet one of the following criteria are classified as current liabilities; otherwise they are classified as non-current liabilities:
  - (a) Liabilities that are expected to be settled within the normal operating cycle;
  - (b) Liabilities arising mainly from trading activities;
  - (c) Liabilities that are to be settled within twelve months from the balance sheet date;
  - (d) Liabilities for which the repayment date cannot be extended unconditionally to more than twelve months after the balance sheet date. Terms of a liability that could, at the option of the counterparty, result in its settlement by the issue of equity instruments do not affect its classification.

#### (6) Cash equivalents

Cash equivalents refer to short-term, highly liquid investments that are readily convertible to known amounts of cash and which are subject to an insignificant risk of changes in value. Time deposits that meet the definition above and are held for the purpose of meeting short-term cash commitments in operations are classified as cash equivalents.

(7) Financial assets and financial liabilities at fair value through profit or loss

#### Effective 2018

- A. Financial assets at amortized cost or fair value through other comprehensive income are designated as at fair value through profit or loss at initial recognition when they eliminate or significantly reduce a measurement or recognition inconsistency.
- B. On a regular way purchase or sale basis, financial assets at fair value through profit or loss are recognized and derecognized using trade date accounting.
- C. At initial recognition, the Group measures the financial assets at fair value and recognizes the transaction costs in profit or loss. The Group subsequently measures the financial assets at fair value, and recognizes the gain or loss in profit or loss.
- D. The Group recognizes the dividend income when the right to receive payment is established, future economic benefits associated with the dividend will flow to the Group and the amount of the dividend can be measured reliably.

#### Prior to 2018

#### A. Classifications

The main purpose for holding financial assets or liabilities at fair value through profit or loss is for trading, and for selling or rebuying in a short time. Derivative financial instruments are used to hedge and also use the same classification.

#### B. Recognition and assessment

Trading of financial assets at fair value through profit or loss is accounted for using trade date accounting (the date that the Group promises to trade the assets). Financial assets are initially recognized at fair value, and related trading costs are recognized as expenses for the period. Financial assets are later measured at fair value, and the movement in fair value is recognized in profit or loss for the period.

#### (8) Financial assets at fair value through other comprehensive income

#### Effective 2018

- A. Financial assets at fair value through other comprehensive income comprise equity securities which are not held for trading, and for which the Group has made an irrevocable election at initial recognition to recognize changes in fair value in other comprehensive income and debt instruments which meet all of the following criteria:
  - (a) The objective of the Group's business model is achieved both by collecting contractual cash flows and selling financial assets; and
  - (b) The assets' contractual cash flows represent solely payments of principal and interest.
- B. On a regular way purchase or sale basis, financial assets at fair value through other comprehensive income are recognized and derecognized using trade date accounting.
- C. At initial recognition, the Group measures the financial assets at fair value plus transaction costs. The Group subsequently measures the financial assets at fair value:
  - (a) The changes in fair value of equity investments that were recognized in other comprehensive income are reclassified to retained earnings and are not reclassified to profit or loss following the derecognition of the investment. Dividends are recognized as revenue when the right to receive payment is established, future economic benefits associated with the dividend will flow to the Group and the amount of the dividend can be measured reliably.
  - (b) Except for the recognition of impairment loss, interest income and gain or loss on foreign exchange which are recognized in profit or loss, the changes in fair value of debt instruments are taken through other comprehensive income. When the financial asset is derecognized, the cumulative gain or loss previously recognized in other comprehensive income is reclassified from equity to profit or loss.

#### (9) Available-for-sale financial assets

#### Prior to 2018

- A. Available-for-sale financial assets are non-derivatives that are either designated in this category or not classified in any of the other categories.
- B. On a regular way purchase or sale basis, available-for-sale financial assets are recognized and derecognized using trade date accounting.

C. Available-for-sale financial assets are initially recognized at fair value plus transaction costs. These financial assets are subsequently remeasured and stated at fair value, and any changes in the fair value of these financial assets are recognized in other comprehensive income. Investments in equity instruments that do not have a quoted market price in an active market and whose fair value cannot be reliably measured or derivatives that are linked to and must be settled by delivery of such unquoted equity instruments are presented in 'financial assets measured at cost'.

#### (10) Accounts and notes receivable

#### Effective 2018

- A. Accounts and notes receivable entitle the Group a legal right to receive consideration in exchange for transferred goods or rendered services.
- B. The short-term accounts and notes receivable without bearing interest are subsequently measured at initial invoice amount as the effect of discounting is immaterial.

#### Prior to 2018

Accounts receivable are loans and receivables originated by the entity. They are created by the entity by selling goods or providing services to customers in the ordinary course of business. Accounts receivable are initially recognized at fair value and subsequently measured at amortized cost using the effective interest method, less provision for impairment. However, short-term accounts receivable without bearing interest are subsequently measured at initial invoice amount as effect of discounting is immaterial.

#### (11) Impairment of financial assets

#### Effective 2018

For debt instruments measured at fair value through other comprehensive income and financial assets at amortized cost (including accounts receivable or contract assets that have a significant financing component, lease receivables, loan commitments and financial guarantee contracts), at each reporting date, the Group recognizes the impairment provision for 12 months expected credit losses if there has not been a significant increase in credit risk since initial recognition or recognizes the impairment provision for the lifetime expected credit losses (ECLs) if such credit risk has increased since initial recognition after taking into consideration all reasonable and verifiable information that includes forecasts. On the other hand, for accounts receivable or contract assets that do not contain a significant financing component, the Group recognizes the impairment provision for lifetime ECLs.

#### Prior to 2018

A. The Group assesses at each balance sheet date whether there is objective evidence that a financial asset or a group of financial assets is impaired as a result of one or more events that occurred after the initial recognition of the asset (a 'loss event') and that loss event (or events) has an impact on the estimated future cash flows of the financial asset or group of financial assets that can be reliably estimated.

- B. The criteria that the Group uses to determine whether there is objective evidence of an impairment loss is as follows:
  - (a) Significant financial difficulty of the issuer or debtor;
  - (b) A breach of contract, such as a default or delinquency in interest or principal payments;
  - (c) The Group, for economic or legal reasons relating to the borrower's financial difficulty, granted the borrower a concession that a lender would not otherwise consider;
  - (d) It becomes probable that the borrower will enter bankruptcy or other financial reorganization;
  - (e) The disappearance of an active market for that financial asset because of financial difficulties:
  - (f) Observable data indicating that there is a measurable decrease in the estimated future cash flows from a group of financial assets since the initial recognition of those assets, although the decrease cannot yet be identified with the individual financial asset in the group, including adverse changes in the payment status of borrowers in the group or national or local economic conditions that correlate with defaults on the assets in the group;
  - (g) Information about significant changes with an adverse effect that have taken place in the technology, market, economic or legal environment in which the issuer operates, and indicates that the cost of the investment in the equity instrument may not be recovered;
  - (h) A significant or prolonged decline in the fair value of an investment in an equity instrument below its cost.
  - C. When the Group assesses that there has been objective evidence of impairment and an impairment loss has occurred, accounting for impairment is made as follows according to the category of financial assets:
    - (a) Financial assets measured at amortized cost
      - The amount of the impairment loss is measured as the difference between the asset's carrying amount and the present value of estimated future cash flows discounted at the financial asset's original effective interest rate, and is recognized in profit or loss. If, in a subsequent period, the amount of the impairment loss decreases and the decrease can be related objectively to an event occurring after the impairment loss was recognized, the previously recognized impairment loss is reversed through profit or loss to the extent that the carrying amount of the asset does not exceed its amortized cost that would have been at the date of reversal had the impairment loss not been recognized previously. Impairment loss is recognized and reversed by adjusting the carrying amount of the asset through the use of an impairment allowance account.
    - (b) Financial assets measured at cost
      - The amount of the impairment loss is measured as the difference between the asset's carrying amount and the present value of estimated future cash flows discounted at current market return rate of similar financial asset, and is recognized in profit or loss. Impairment

loss recognized for this category shall not be reversed subsequently. Impairment loss is recognized by adjusting the carrying amount of the asset through the use of an impairment allowance account.

#### (c) Available-for-sale financial assets

The amount of the impairment loss is measured as the difference between the asset's acquisition cost (less any principal repayment and amortization) and current fair value, less any impairment loss on that financial asset previously recognized in profit or loss, and is reclassified from 'other comprehensive income' to 'profit or loss'. If, in a subsequent period, the fair value of an investment in a debt instrument increases, and the increase can be related objectively to an event occurring after the impairment loss was recognized, such impairment loss is reversed through profit or loss. Impairment loss of an investment in an equity instrument recognized in profit or loss shall not be reversed through profit or loss. Impairment loss is recognized and reversed by adjusting the carrying amount of the asset through the use of an impairment allowance account.

#### (12) Derecognition of financial assets

The Group derecognizes a financial asset when the contractual rights to receive the cash flows from the financial asset expire.

The Group derecognizes a financial asset when one of the following conditions is met:

- A. The contractual rights of the cash flows from the financial asset expire.
- B. The contractual rights to receive cash flows of the financial asset have been transferred and the Group has transferred substantially all risks and rewards of ownership of the financial asset.
- C. The contractual rights to receive cash flows of the financial asset have been transferred; however, the Group has not retained control of the financial asset.

#### (13) Operating leases (lessor)

Lease income from an operating lease (net of any incentives given to the lessee) is recognized in profit or loss on a straight-line basis over the lease term.

#### (14) Inventories

- A. The perpetual inventory system is adopted for inventory recognition. Inventories are stated at standard cost, and adjusted at the end of reporting period to approximate them to the cost calculated on a weighted average method.
- B. At the end of period, inventories are evaluated at the lower of cost or net realizable value, and the individual item approach is used in the comparison of cost and net realizable value. The calculation of net realizable value should be based on the estimated selling price in the normal course of business, net of estimated costs of completion and estimated selling expenses.

#### (15) <u>Investments accounted for using equity method / associates</u>

A. Associates are all entities over which the Group has significant influence but not control. In general, it is presumed that the investor has significant influence, if an investor holds, directly or indirectly 20 percent or more of the voting power of the investee. Investments in associates

- are accounted for using the equity method and are initially recognized at cost.
- B. The Group's share of its associates' post-acquisition profits or losses is recognized in profit or loss, and its share of post-acquisition movements in other comprehensive income is recognized in other comprehensive income. When the Group's share of losses in an associate equals or exceeds its interest in the associate, including any other unsecured receivables, the Group does not recognize further losses, unless it has incurred legal or constructive obligations or made payments on behalf of the associate.
- C. When changes in an associate's equity do not arise from profit or loss or other comprehensive income of the associate and such changes do not affect the Group's ownership percentage of the associate, the Group recognizes change in ownership interests in the associate in 'capital surplus' in proportion to its ownership.
- D. Unrealized gains on transactions between the Group and its associates are eliminated to the extent of the Group's interest in the associates. Unrealized losses are also eliminated unless the transaction provides evidence of an impairment of the asset transferred. Accounting policies of associates have been adjusted where necessary to ensure consistency with the policies adopted by the Group.
- E. In the case that an associate issues new shares and the Group does not subscribe or acquire new shares proportionately, which results in a change in the Group's ownership percentage of the associate but maintains significant influence on the associate, then 'capital surplus' and 'investments accounted for using the equity method' shall be adjusted for the increase or decrease. If the above condition causes a decrease in the Group's ownership percentage of the associate, in addition to the above adjustment, the amounts previously recognized in other comprehensive income in relation to the associate are reclassified to profit or loss proportionately on the same basis as would be required if the relevant assets or liabilities were disposed of.
- F. When the Group disposes its investment in an associate and loses significant influence over this associate, the amounts previously recognized in other comprehensive income in relation to the associate, are reclassified to profit or loss, on the same basis as would be required if the relevant assets or liabilities were disposed of. If it retains significant influence over this associate, the amounts previously recognized in other comprehensive income in relation to the associate are reclassified to profit or loss proportionately in accordance with the aforementioned approach.
- G. When the Group disposes its investment in an associate and loses significant influence over this associate, the amounts previously recognized as capital surplus in relation to the associate are transferred to profit or loss. If it retains significant influence over this associate, the amounts previously recognized as capital surplus in relation to the associate are transferred to profit or loss proportionately.

#### (16) Property, plant and equipment

- A. Property, plant and equipment are initially recorded at cost. Borrowing costs incurred during the construction period are capitalized.
- B. Subsequent costs are included in the asset's carrying amount or recognized as a separate asset, as appropriate, only when it is probable that future economic benefits associated with the item will flow to the Group and the cost of the item can be measured reliably. The carrying amount of discarded assets is derecognized when critical repairs are incurred, and other repair expenses are charged to profit or loss for the period when they incur.
- C. Land is not depreciated. Other property, plant and equipment apply cost model and are depreciated using the straight-line method to allocate their cost over their estimated useful lives. Each part of an item of property, plant, and equipment with a cost that is significant in relation to the total cost of the item must be depreciated separately.
- D. The assets' residual values, useful lives and depreciation methods are reviewed, and adjusted if appropriate, at each financial year-end. If expectations for the assets' residual values and useful lives differ from previous estimates or the patterns of consumption of the assets' future economic benefits embodied in the assets have changed significantly, any change is accounted for as a change in estimate under IAS 8, 'Accounting Policies, Changes in Accounting Estimates and Errors', from the date of the change. The estimated useful lives of property, plant and equipment are as follows:

| Buildings and structures (included utility equipment) | 5 ~ 55 years     |  |  |
|---|------------------|--|--|
| Machinery and equipment                               | 2 ~ 10 years     |  |  |
| Transportation equipment                              | $3 \sim 5$ years |  |  |
| Leasehold improvements                                | $3 \sim 5$ years |  |  |
| Other equipment                                       | $2 \sim 7$ years |  |  |

E. The Group has recognized title of assets with significant risks and compensation not yet transferred and leases to lessees as operating leases. Rental income and expenses of operating leases are recognized over the leasing period on a straight line basis.

#### (17) Operating leases (lessee)

Payments made under an operating lease (net of any incentives received from the lessor) are recognized in profit or loss on a straight-line basis over the lease term.

#### (18) <u>Investment property</u>

An investment property is stated initially at its cost and measured subsequently using the cost model. Except for land, investment property is depreciated on a straight-line basis over its estimated useful life of  $20 \sim 55$  years.

#### (19) Intangible assets

The use right of computer software was capitalised based on the acquisition cost and cost to prepare the specific software to become usable. Computer software was amortized based on the contract or on a straight-line basis over 5 years.

#### (20) Impairment of non-financial assets

The Group assesses at each balance sheet date the recoverable amounts of those assets where there is an indication that they are impaired. An impairment loss is recognized for the amount by which the asset's carrying amount exceeds its recoverable amount. The recoverable amount is the higher of an asset's fair value less costs to sell or value in use. When the circumstances or reasons for recognizing impairment loss for an asset in prior years no longer exist or diminish, the impairment loss is reversed. The increased carrying amount due to reversal should not be more than what the depreciated or amortized historical cost would have been if the impairment had not been recognized.

#### (21) Borrowings

Borrowings comprise long-term and short-term bank borrowings and other long-term and short-term loans. Borrowings are recognized initially at fair value, net of transaction costs incurred. Borrowings are subsequently stated at amortized cost; any difference between the proceeds (net of transaction costs) and the redemption value is recognized in profit or loss over the period of the borrowings using the effective interest method.

#### (22) Notes and accounts payable

- A. Accounts payable are liabilities for purchases of raw materials, goods or services and notes payable are those resulting from operating and non-operating activities.
- B. The short-term notes and accounts payable without bearing interest are subsequently measured at initial invoice amount as the effect of discounting is immaterial.

#### (23) <u>Derecognition of financial liabilities</u>

A financial liability is derecognized when the obligation under the liability specified in the contract is discharged or cancelled or expires.

#### (24) Offsetting financial instruments

Financial assets and liabilities are offset and reported in the net amount in the balance sheet when there is a legally enforceable right to offset the recognized amounts and there is an intention to settle on a net basis or realize the asset and settle the liability simultaneously.

#### (25) <u>Provisions</u>

Provisions are recognized when the Group has a present legal or constructive obligation as a result of past events, and it is probable that an outflow of economic resources will be required to settle the obligation and the amount of the obligation can be reliably estimated. Provisions are measured at the present value of the expenditures expected to be required to settle the obligation on the balance sheet date. Provisions are not recognized for future operating losses.

#### (26) Employee benefits

#### A. Short-term employee benefits

Short-term employee benefits are measured at the undiscounted amount of the benefits expected to be paid in respect of service rendered by employees in a period and should be recognized as expense in that period when the employees render service.

#### B. Pensions

## (a) Defined contribution plans

For defined contribution plans, the contributions are recognized as pension expense when they are due on an accrual basis. Prepaid contributions are recognized as an asset to the extent of a cash refund or a reduction in the future payments.

#### (b) Defined benefit plans

- i. Net obligation under a defined benefit plan is defined as the present value of an amount of pension benefits that employees will receive on retirement for their services with the Group in current period or prior periods. The liability recognized in the balance sheet in respect of defined benefit pension plans is the present value of the defined benefit obligation at the balance sheet date less the fair value of plan assets. The net defined benefit obligation is calculated annually by independent actuaries using the projected unit credit method. The rate used to discount is determined by using interest rates of high-quality corporate bonds that are denominated in the currency in which the benefits will be paid, and that have terms to maturity approximating to the terms of the related pension liability; when there is no deep market in high-quality corporate bonds, the Group uses interest rates of government bonds (at the balance sheet date) instead.
- ii. Remeasurements arising on defined benefit plans are recognized in other comprehensive income in the period in which they arise and are recorded as retained earnings.

# C. Employees' compensation and directors' and supervisors' remuneration

Employees' compensation and directors' and supervisors' remuneration are recognized as expenses and liabilities, provided that such recognition is required under legal or constructive obligation and those amounts can be reliably estimated. Any difference between the resolved amounts and the subsequently actual distributed amounts is accounted for as changes in estimates. If employee compensation is distributed by shares, the Group calculates the numbers of shares based on the closing price at the previous day of the board meeting resolution.

## (27) Employee share-based payment

For the equity-settled share-based payment arrangements, the employee services received are measured at the fair value of the equity instruments granted at the grant date, and are recognized as compensation cost over the vesting period, with a corresponding adjustment to equity. The fair value of the equity instruments granted shall reflect the impact of market vesting conditions and vesting conditions. Compensation cost is subject to adjustment based on the service conditions that are expected to be satisfied and the estimates of the number of equity instruments that are expected to vest under the non-market vesting conditions at each balance sheet date. Ultimately, the amount of compensation cost recognized is based on the number of equity instruments that eventually vest.

## (28) Income tax

- A. The tax expense for the period comprises current and deferred tax. Tax is recognized in profit or loss, except to the extent that it relates to items recognized in other comprehensive income or items recognized directly in equity.
- B. The current income tax expense is calculated on the basis of the tax laws enacted or substantively enacted at the balance sheet date in the countries where the Company and its subsidiaries operate and generate taxable income. Management periodically evaluates positions taken in tax returns with respect to situations in accordance with applicable tax regulations. It establishes provisions where appropriate based on the amounts expected to be paid to the tax authorities. An additional tax is levied on the unappropriated retained earnings and is recorded as income tax expense in the year the stockholders resolve to retain the earnings.
- C. Deferred tax is recognized, using the balance sheet liability method, on temporary differences arising between the tax bases of assets and liabilities and their carrying amounts in the consolidated balance sheet. However, the deferred tax is not accounted for if it arises from initial recognition of goodwill or of an asset or liability in a transaction other than a business combination that at the time of the transaction affects neither accounting nor taxable profit or loss. Deferred tax is provided on temporary differences arising on investments in subsidiaries, except where the timing of the reversal of the temporary difference is controlled by the Group and it is probable that the temporary difference will not reverse in the foreseeable future. Deferred tax is determined using tax rates (and laws) that have been enacted or substantially enacted by the balance sheet date and are expected to apply when the related deferred income tax asset is realized or the deferred income tax liability is settled.
- D. Deferred tax assets are recognized only to the extent that it is probable that future taxable profit will be available against which the temporary differences can be utilized. At each balance sheet date, unrecognized and recognized deferred tax assets are reassessed.
- E. Current income tax assets and liabilities are offset and the net amount reported in the balance sheet when there is a legally enforceable right to offset the recognized amounts and there is an intention to settle on a net basis or realize the asset and settle the liability simultaneously. Deferred income tax assets and liabilities are offset on the balance sheet when the entity has the legally enforceable right to offset current tax assets against current tax liabilities and they are levied by the same taxation authority on either the same entity or different entities that intend to settle on a net basis or realize the asset and settle the liability simultaneously.
- F. A deferred tax asset shall be recognized for the carryforward of unused tax credits resulting from research and development expenditures to the extent that it is possible that future taxable profit will be available against which the unused tax credits can be utilized.

# (29) Share capital

- A. Ordinary shares are classified as equity. Incremental costs directly attributable to the issue of new shares or stock options are shown in equity as a deduction, net of tax, from the proceeds.
- B. Where the Company repurchases the Company's equity share capital that has been issued, the consideration paid, including any directly attributable incremental costs (net of income taxes) is deducted from equity attributable to the Company's equity holders. Where such shares are subsequently reissued, the difference between their book value and any consideration received, net of any directly attributable incremental transaction costs and the related income tax effects, is included in equity attributable to the Company's equity holders.

## (30) Dividends

Dividends are recorded in the Company's financial statements in the period in which they are resolved by the Company's shareholders. Cash dividends are recorded as liabilities; stock dividends are recorded as stock dividends to be distributed and are reclassified to ordinary shares on the effective date of new shares issuance.

## (31) Revenue recognition

## Effective 2018

## A. Sales of goods

- (a) The Group manufactures and sells cloud computing products and mobile communication products. Sales are recognized when control of the products has transferred, being when the products are delivered to the customer, and there is no unfulfilled obligation that could affect the customer's acceptance of the products. Delivery occurs when the products have been shipped to the specific location, the risks of obsolescence and loss have been transferred to the customer, and either the customer has accepted the products in accordance with the sales contract, or the Group has objective evidence that all criteria for acceptance have been satisfied.
- (b) Revenue from sales is recognized based on the price specified in the contract, net of the sales returns and sales discounts. The Group provides to customers the sales return right and sales discounts and recognizes refund liability for expected sales discounts payable to customers in relation to sales by using the expected value method.
- (c) The Group's obligation to provide maintenance services for faulty products under the standard warranty terms is recognized as a provision.
- (d) A receivable is recognized when the goods are delivered as this is the point in time that the consideration is unconditional because only the passage of time is required before the payment is due.

#### B. Sales of services

- (a) The Group provides technology services and installment repairs and maintenance services. Revenue from providing services is recognized in the accounting period in which the services are rendered. The customer pays at the time specified in the payment schedule. If the services rendered exceed the payment, a contract asset is recognized. If the payments exceed the services rendered, a contract liability is recognized.
- (b) Some contracts include multiple deliverables. Such services are accounted for as a single performance obligation as they are highly interrelated and indistinguishable.

# C. Incremental costs of obtaining a contract

The Group recognizes an asset the incremental costs of obtaining a contract with a customer if the Group expects to recover those costs. The recognized asset is amortized on a systematic basis that is consistent with the transfers to the customer of the goods or services to which the asset relates.

## Prior to 2018

- A. The Group designs, manufactures and sells computer and its peripherals, communication and related products. Revenue is measured at the fair value of the consideration received or receivable taking into account of value-added tax, returns, rebates and discounts for the sale of goods to external customers in the ordinary course of the Group's activities. Revenue arising from the sales of goods is recognized when the Group has delivered the goods to the customer, the amount of sales revenue can be measured reliably and it is probable that the future economic benefits associated with the transaction will flow to the entity. The delivery of goods is completed when the significant risks and rewards of ownership have been transferred to the customer, the Group retains neither continuing managerial involvement to the degree usually associated with ownership nor effective control over the goods sold, and the customer has accepted the goods based on the sales contract or there is objective evidence showing that all acceptance provisions have been satisfied.
- B. The Group offers customers volume discounts and right of return for defective products. The Group estimates appropriate discounts and returns based on regular way purchases or sales. Provisions for such liabilities are recorded when the sales are recognized.

## (32) <u>Business combinations and organization restructuring</u>

A. The Group uses the acquisition method to account for business combinations. The consideration transferred for an acquisition is measured as the fair value of the assets transferred, liabilities incurred or assumed and equity instruments issued at the acquisition date, plus the fair value of any assets and liabilities resulting from a contingent consideration arrangement. All acquisition-related costs are expensed as incurred. Identifiable assets acquired and liabilities and contingent liabilities assumed in a business combination are measured initially at their fair values at the acquisition date. There is a choice on an acquisition-by-acquisition basis to measure the non-controlling interest in the acquiree either at

fair value or at the non-controlling interest's proportionate share of the acquiree's identifiable net assets.

- B. If the total of the fair values of the consideration of acquisition and any non-controlling interest in the acquiree as well as the previous equity interest in the acquiree is higher than the fair value of the Group's identifiable assets acquired and obligations borne, goodwill is recognized at the acquisition-date. If the fair value of the Group's identifiable assets acquired and obligations borne is higher than the total of the fair values of the consideration of acquisition, non-controlling interest in the acquiree, as well as previous equity interest in the acquire, the difference is recognized in profit or loss for the period at the acquisition date.
- C. The newly established investment holding company through share swap is jointly controlled under business combination. Under regulations of competent authority, the investment holding company is recorded at the carrying value and is included in the consolidated financial statements at the date of establishment.

# (33) Operating segments

Operating segments are reported in a manner consistent with the internal reporting provided to the chief operating decision-maker. The Group's chief operating decision-maker, who is responsible for allocating resources and assessing performance of the operating segments.

# 5. <u>CRITICAL ACCOUNTING JUDGEMENTS</u>, <u>ESTIMATES AND KEY SOURCES OF ASSUMPTION UNCERTAINTY</u>

The preparation of these consolidated financial statements requires management to make critical judgements in applying the Group's accounting policies and make critical assumptions and estimates concerning future events. Assumptions and estimates may differ from the actual results and are continually evaluated and adjusted based on historical experience and other factors. Such assumptions and estimates have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year; and the related information is addressed below:

(1) <u>Critical judgements in applying the Group's accounting policies</u> None.

## (2) Critical accounting estimates and assumptions

Evaluation of inventories

As inventories are stated at the lower of cost and net realizable value, the Group must determine the net realizable value of inventories on balance sheet date using judgements and estimates. Due to the rapid technology innovation, the Group evaluates the amounts of normal inventory consumption, obsolete inventories or inventories without market selling value on balance sheet date, and writes down the cost of inventories to the net realizable value. Therefore, there might be material changes to the evaluation.

As of December 31, 2018, the carrying amount of inventories are described in Note 6 (7).

# 6. <u>DETAILS OF SIGNIFICANT ACCOUNTS</u>

# (1) Cash and cash equivalents

|                                       | Dece | December 31, 2018 |    | December 31, 2017 |  |
|---------------------------------------|------|-------------------|----|-------------------|--|
| Cash:                                 |      |                   |    |                   |  |
| Cash on hand and petty cash           | \$   | 710               | \$ | 618               |  |
| Checking accounts and demand deposits |      | 2,763,332         |    | 4,348,731         |  |
| Cash equivalents:                     |      |                   |    |                   |  |
| Time deposits                         |      | 2,759,934         |    | 2,883,546         |  |
| Structured deposits                   |      | 201,240           |    | 273,900           |  |
| Repurchased bonds                     |      |                   |    | 550,196           |  |
| Total                                 | \$   | 5,725,216         | \$ | 8,056,991         |  |

- A. The Group transacts with a variety of financial institutions all with high credit quality to disperse credit risk, so it expects that the probability of counterparty default is remote.
- B. The Group has no cash and cash equivalents pledged to others.

# (2) Financial assets at fair value through profit or loss

| Items   | Decen | December 31, 2018 |  |

- C. The Group has no financial assets at fair value through profit or loss pledged to others.
- D. Information relating to credit risk of financial assets at fair value through profit or loss is provided in Note 12(2).

# (3) Financial assets at fair value through other comprehensive income

| Items                | Dece | mber 31, 2018 |
|----------------------|------|---------------|
| Current items:       |      |               |
| Equity instruments   |      |               |
| Listed stocks        | \$   | 715,534       |
| Valuation adjustment |      | 121,963       |
| Total                | \$   | 837,497       |
| Non-current items:   |      |               |
| Equity instruments   |      |               |
| Listed stocks        | \$   | 1,025,545     |
| Emerging stocks      |      | 874,494       |
| Unlisted stocks      |      | 813,165       |
| Subtotal             |      | 2,713,204     |
| Valuation adjustment |      | 477,087       |
| Total                | \$   | 3,190,291     |

A. The Group recognized (\$451,947) in other comprehensive (loss) income for fair value change for the year ended December 31, 2018.

B. The Group has elected to designate the above investments, which were held mainly for medium to long-term trading purposes, as investments in equity instruments measured at fair value through other comprehensive income. As of December 31, 2018, the fair value of investments was \$4,027,788.

# (4) Available-for-sale financial assets

| Items  | Dece | mber 31, 2017 |
|--|------|---------------|
| Current items:                                     |      |               |
| Listed stocks                                      | \$   | 614,880       |
| Beneficiary certificates                           |      | 108,648       |
| Subtotal   |      | 723,528       |
| Adjustments of available-for-sale financial assets |      | 367,618       |
| Total  | \$   | 1,091,146     |
| Non-current items:                                 |      |               |
| Listed stocks                                      | \$   | 1,025,777     |
| Unlisted stocks                                    |      | 144,753       |
| Subtotal   |      | 1,170,530     |
| Adjustments of available-for-sale financial assets |      | 786,754       |
| Total  | \$   | 1,957,284     |

The Group recognized \$725,541 in other comprehensive income for fair value change and reclassified \$0 from equity to profit or loss for the year ended December 31, 2017.

## (5) Financial assets carried at cost

| Items                                     | Dece | mber 31, 2017 |
|---|------|---------------|
| Non-current items:                        |      |               |
| Unlisted stocks                           | \$   | 1,188,870     |
| Accumulated impairment - Financial assets |      |               |
| carried at cost                           | (    | 75,392)       |
| Total                                     | \$   | 1,113,478     |

- A. According to the Group's intention, its investment in unlisted stocks should be classified as available-for-sale financial assets. However, as the stocks are not traded in active market, and no sufficient industry information of companies similar to the unlisted stocks and related financial information on the investee can be obtained, the fair value of the investment cannot be measured reliably. The Group classified those stocks as "financial assets carried at cost".
- B. As of December 31, 2017, no financial assets carried at cost held by the Group were pledged to others.

# (6) Accounts receivable

|   | December 31, 2018 |           | December 31, 2017 |           |
|---|-------------------|-----------|-------------------|-----------|
| Third parties                                   | \$                | 4,818,223 | \$                | 4,316,399 |
| Less: Allowance for sales returns and discounts |                   | - (       |                   | 191,747)  |
| Allowance for bad debts                         | (                 | 97,765)   | (                 | 82,137)   |

## (15) Pensions

- A.(a) The Company and its domestic subsidiaries have a defined benefit pension plan in accordance with the Labor Standards Law, covering all regular employees' service years prior to the enforcement of the Labor Pension Act on July 1, 2005 and service years thereafter of employees who chose to continue to be subject to the pension mechanism under the Law. Under the defined benefit pension plan, two units are accrued for each year of service for the first 15 years and one unit for each additional year thereafter, subject to a maximum of 45 units. Pension benefits are based on the number of units accrued and the average monthly salaries and wages of the last 6 months prior to retirement. The Company contributes monthly an amount equal to 2% of the employees' monthly salaries and wages to the retirement fund deposited with Bank of Taiwan, the trustee, under the name of the independent retirement fund committee. Also, the Company would assess the balance in the aforementioned labor pension reserve account by the end of December 31, every year. If the account balance is insufficient to pay the pension calculated by the aforementioned method, to the employees expected to be qualified for retirement next year, the Company will make contributions to cover the deficit by next March.
  - (b) The amounts recognized in the balance sheet are determined as follows:

|                                  | Decen | nber 31, 2018 | December 31, 2017 |
|----------------------------------|-------|---------------|-------------------|
| Present value of defined benefit | (\$   | 542,954) (\$  | 539,827)          |
| obligations                      |       |               |                   |

(d) The Bank of Taiwan was commissioned to manage the Fund of the Company's and domestic subsidiaries' defined benefit pension plan in accordance with the Fund's annual investment and utilization plan and the "Regulations for Revenues, Expenditures, Safeguard and Utilization of the Labor Retirement Fund" (Article 6: The scope of utilization for the Fund includes deposit in domestic or foreign financial institutions, investment in domestic or foreign listed, over-the-counter, or private placement equity securities, investment in domestic or foreign real estate securitization products, etc.). With regard to the utilization of the Fund, its minimum earnings in the annual distributions on the final financial statements shall be no less than the earnings attainable from the amounts accrued from two-year time deposits with the interest rates offered by local banks. If the earnings is less than aforementioned rates, government shall make payment for the deficit after being authorized by the Regulator. The Company has no right to participate in managing and operating that fund and hence the Company is unable to disclose the classification of plan asset fair value in accordance with IAS 19 paragraph 142. The composition of fair value of plan assets as of December 31, 2018 and 2017 is given in the Annual Labor Retirement Fund Utilization Report announced by the government.

| December 31, 2017: None    |            |       |            |        |            |           |             |       |

The sensitivity analysis above is based on other conditions that are unchanged but only one assumption is changed. In practice, more than one assumption may change all at once. The method of analysing sensitivity and the method of calculating net pension liability in the balance sheet are the same.

- (f) Expected contributions to the defined benefit pension plans of the Group for the year ending December 31, 2019 amounts to \$9,187.
- (g)As of December 31, 2018, the weighted average duration of that retirement plan is 9.1~11.7 years.
- B.(a) Effective July 1, 2005, the Company and its domestic subsidiaries have established a defined contribution pension plan (the "New Plan") under the Labor Pension Act (the "Act"), covering all regular employees with R.O.C. nationality. Under the New Plan, the Company and its domestic subsidiaries contribute monthly an amount based on 6% of the employees' monthly salaries and wages to the employees' individual pension accounts at the Bureau of Labor Insurance. The benefits accrued are paid monthly or in lump sum upon termination of employment.
  - (b)The Company's Mainland China subsidiaries have a defined contribution plan. Monthly contributions to an independent fund administered by the government in accordance with the pension regulations in the People's Republic of China (PRC) are based on certain percentages of employees' monthly salaries and wages. Other than the monthly contributions, the Group has no further obligations.
  - (c) The pension costs under the defined contribution pension plans of the Group for the years ended December 31, 2018 and 2017 were \$100,101 and \$91,903, respectively.

## (16) Share-based payment

A. As of December 31, 2018 and 2017, the Company's share-based payment arrangements were as follows

| Type of arrangement                  | Grant date | Quantity granted (shares in thousands) | Contract period | Vesting conditions   |
|--------------------------------------|------------|--|-----------------|--|
| Eleventh stock option incentive plan | 2012.10.11 | 19,375<br>(Note 1)                     | 6 years         | 50% can be exercised after 2 years of grant 75% can be exercised after 3 years of grant 100% can be exercised after 4 years of grant |

Note: According to the resolution on share conversion, the Company had the performance obligation of stock option certificates issued by MiTAC International Corp. under the authorisation of competent authority from the effective date, and adjusted the conversion price and quantity.

B. A summary of the movements of the Company's stock option plans is set forth below:

| Options outstanding at end of the period                           |        |                  |      |                                |     | 6,261                 |      | 16.30                          |
| Options exercisable at end of the period                           |        | _                |      |                                |     | 6,261                 |      |                                |
| Options approved and<br>not yet issued at the<br>end of the period |        |                  |      |                                |     |                       |      |                                |

- C. The weighted-average stock price of stock options at exercise dates for the years ended December 31, 2018 and 2017 were \$33.05 (in dollars) and \$33.52 (in dollars), respectively.
- D. As of December 31, 2018 and 2017, outstanding compensatory employee stock option plan is as follows:

As of December 31, 2018: None.

| _                       | Number of opt | ions outstanding at the | end of the y | rear      |
|-------------------------|---------------|-------------------------|--------------|-----------|
|                         |               | Expected weighted       | Weighte      | d average |
| Range of exercise price | In thousands  | average residual        | exercis      | se price  |
| (in dollars)            | of shares     | year                    | (in do       | ollars)   |
| \$16.30                 | 6,261         | 0.75                    | \$           | 16.30     |

- E. Information about the fair value of the Company's shared-based payment transactions:
  - (a) The fair values of stock options are measured using the Black-Scholes option-pricing model:

|                                       |            |                |                | Expected            |                      |           |                    | Fair value               |
|---------------------------------------|------------|----------------|----------------|---------------------|----------------------|-----------|--------------------|--------------------------|
| Type of                               | Grant      | Stock<br>price | Exercise price | price<br>volatility | Expected option life | Expected  | Risk-free interest | per unit<br>(in dollars) |
| arrangement                           | date       | (in dollars)   | (in dollars)   | (Note 1)            | (year)               | dividends | rate               | (Note 2)                 |
| Eleventh<br>employee<br>stock options | 2012.10.11 | 10.15          | 10.15          | 36.14%              | 3.47                 | 0%        | 0.88%              | 2.79                     |

- Note 1: Expected price volatility rate was estimated by using the stock prices of the most recent period with length of this period equal as the length of the stock options' expected life, excluding obvious irregularities of changes in stock prices for the observation amount while considering the effect of the appropriation of retained earnings on the transaction price of stocks to calculate expected price volatility rate.
- Note 2: Information of fair value from the original issuance by MiTAC International Corp.
- F. Expenses incurred on share-based payment transactions for the years ended December 31, 2018 and 2017: None.

- (b) Pursuant to the R.O.C. Securities and Exchange Act, the number of shares bought back as treasury shares should not exceed 10% of the number of the Company's issued and outstanding shares and the amount bought back should not exceed the sum of retained earnings, paid-in capital in excess of par value and realized capital surplus.
- (c) Pursuant to the R.O.C. Securities and Exchange Act, treasury stock should not be pledged as collateral and is not entitled to dividends before it is reissued to the employees.

- (d) Pursuant to the R.O.C. Securities and Exchange Act, treasury shares should be reissued to the employees within three years from the reacquisition date and shares not reissued within the three-year period are to be retired. Treasury shares to enhance the Company's credit rating and the stockholders' equity should be retired within six months of acquisition. The number of treasury stocks to be reissued to employees that were retired during the year ended December 31, 2018, was 8,244 thousand shares.
- (e) In accordance with the Financial Supervisory Commission, Securities and Futures Bureau, No.1010047490, the Company shall not appropriate special reserve proportionately to the shareholding ratio for the difference of ending market price below the carrying amount of the parent's stock held by the subsidiaries. If the market price reverses subsequently, the reversal amount shall be appropriated as special reserve proportionately to the shareholding ratio.

Pursuant to the R.O.C. Company Act, capital surplus arising from paid-in capital in excess of par value on issuance of common stocks and donations can be used to cover accumulated deficit or to issue new stocks or cash to shareholders in proportion to their share ownership, provided that the Company has no accumulated deficit. Further, the R.O.C. Securities and Exchange Act requires that the amount of capital surplus to be capitalized mentioned above should not exceed 10% of the paid-in capital each year. Capital surplus should not be used to cover accumulated deficit unless the legal reserve is insufficient.

#### (20) Retained earnings

- A. Under the Company's Articles of Incorporation, the current year's earnings, if any, shall first be used to pay all taxes and offset prior years' operating losses and then 10% of the remaining amount shall be set aside as legal reserve. Special reserve shall also be set aside pursuant to the regulations. Appropriation of the remainder plus prior year's accumulated unappropriated retained earnings shall be proposed by the Board of Directors and resolved by the stockholders.
- B. Earnings appropriation ratio and cash dividends ratio are decided by the Board of Directors, taking into account the Company's financial structure, future capital requirements and profitability, and cash dividends shall account for at least 10% of the total dividends appropriated. Earnings appropriation ratio and cash dividends ratio are subject to adjustments once approved by the stockholders.
- C. Except for covering accumulated deficit or issuing new stocks or cash to shareholders in proportion to their share ownership, the legal reserve shall not be used for any other purpose. The use of legal reserve for the issuance of stocks or cash to shareholders in proportion to their share ownership is permitted, provided that the distribution of the reserve is limited to the portion in excess of 25% of the Company's paid-in capital.
- D. In accordance with the regulations, the Company shall set aside special reserve from the debit balance on other equity items at the balance sheet date before distributing earnings. When debit balance on other equity items is reversed subsequently, the reversed amount could be included

in the distributable earnings.

E. On June 22, 2018, the appropriation of earnings for the year ended December 31, 2017 resolved by the shareholders is as follows:

|                | For the year ended December 31, 2017 |                    |    |              |  |  |

- A. According to the amended articles, the profit (pre-tax profit before deduction of employees' compensation and directors' and supervisors' remuneration) of the current year shall be distributed as employees' compensation and directors' and supervisors' remuneration, which will be resolved by the Board of Directors. The ratio shall not be lower than 0.1% for employees and not be higher than 1% for directors and supervisors. If a company has accumulated deficit, earnings should be reserved to cover losses. Employees' compensation can be distributed in cash or shares and shall be distributed to the employees of subsidiaries of the Company who meet certain specific requirements. The Chairman of the Board is authorized to set the qualification requirements.
- B. For the years ended December 31, 2018 and 2017, employees' compensation was accrued at 0.1% of gain on pre-tax profit before deduction of employees' compensation and directors' and supervisors' remuneration. Directors' and supervisors' remuneration were accrued under 1% of gain on pre-tax profit before deduction of employees' compensation and directors' and supervisors' remuneration.
- C. For the years ended December 31, 2018 and 2017, employees' compensation was accrued at \$3,313 and \$2,639, respectively; and directors' and supervisors' remuneration was accrued at \$3,600 and \$5,400, respectively. The aforementioned amounts were recognized in salary expenses. Employees' cash bonus and directors' and supervisors' remuneration of 2018 and 2017 as resolved at the Board of Directors of the Company were in agreement with those amounts recognized in the 2018 and 2017 consolidated financial statements.
- D. Information about employees' compensation and directors' and supervisors' remuneration of the Company as resolved by the Board of Directors and the shareholders at the shareholders' meeting will be posted in the "Market Observation Post System" at the website of the Taiwan Stock Exchange.

- A. Basic earnings per share is calculated with the gain or loss attributable to the shareholders of the ordinary shares issued by the Company, divided with outstanding weighted average ordinary shares during the period, and deducted with weighted average treasury shares.
- B. For the year ended December 31, 2017, the outstanding weighted average shares was retrospectively adjusted based on retained earnings capitalization ratio in 2018.

### (30) Operating leases

The Group leases building assets to others under non-cancellable operating lease agreements. These leases have terms expiring between 1 and 5 years, and all these lease agreements are not renewable at the end of the lease period. Rental revenue of \$114,335 and \$103,913 were recognized for the years ended December 31, 2018 and 2017, respectively. The future aggregate minimum lease receivable under non-cancellable operating leases are as follows:

|   |    | December 31, 2018 | <br>December 31, 2017 |  |
|---|----|-------------------|-----------------------|--|
| Not later than one year                     | \$ | 85,900            | \$<br>66,267          |  |
| Later than one year but not later than five |    |                   |                       |  |
| vears                                       |    | 116,660           | <br>66,186            |  |
|   | \$ | 202,560           | \$<br>132,453         |  |

#### B. Financial risk management policies

The Group's activities expose it to a variety of financial risks: market risk (including foreign exchange risk, interest rate risk and price risk), credit risk and liquidity risk. The Group's overall risk management programme focuses on the unpredictability of financial markets and seeks to minimize potential adverse effects on the Group's financial position and financial performance. The Group uses derivative financial instruments to hedge certain risk exposures (see Notes 6(2), 6(14)).

#### C. Significant financial risks and degrees of financial risks

#### (a)Market risk

#### Foreign exchange risk

i. The Group's businesses involve some non-functional currency operations (the Company's and certain subsidiaries' functional currency: NTD; other certain subsidiaries' functional currency: USD, EUR, AUD and CNY). The information on assets and liabilities denominated in foreign currencies whose values would be materially affected by the exchange rate fluctuations is as follows:

|                       | December 31, 2018 |                                      |                  |                     |            |  |  |
|-----------------------|-------------------|--------------------------------------|------------------|---------------------|------------|--|--|

| USD:CNY               | 122,429                             | 6.519         |                     | 3,643,492 |  |  |

- iv. Total exchange gain (loss), including realized and unrealized arising from significant foreign exchange variation on the monetary items held by the Group for the years ended December 31, 2018 and 2017, amounted to \$7,404 and (\$80,408), respectively.
- v. When the exchange rates for USD, AUD, EUR and CNY to NTD, EUR to USD, and USD to CNY increased or decreased by 1%, with all other factors the same at December 31, 2018 and 2017, net profit before tax would increase or decrease by (\$7,555) and \$1,708 for the years ended December 31, 2018 and 2017, respectively.

#### Price risk

i. The Group's equity securities, which are exposed to price risk, are the held financial assets at fair value through profit or loss, financial assets at fair value through other comprehensive income and available-for-sale financial assets. To manage its price risk arising from investments in equity securities, the Group diversifies its portfolio. Diversification of the portfolio is done in accordance with the limits set by the Group.

ii. The Group's investments in equity securities comprise domestic listed and unlisted stocks. The prices of equity securities would change due to the change of the future value of investee companies. If the prices of these equity securities had increased/decreased by 1% with all other variables held constant, other comprehensive income (loss) would have increased/decreased by \$40,278 and \$30,484 for the years ended December 31, 2018 and 2017, respectively, as a result of gains/losses on equity securities classified as financial assets at fair value through other comprehensive income and available-for-sale financial assets.

#### Cash flow and fair value Interest rate risk

The Group's interest rate risk arises from borrowings. However, the Group's borrowings are all at a fixed rate, thus interest rate risk has no significant impact on the Group.

#### (b)Credit risk

- i. Credit risk refers to the risk of financial loss to the Group arising from default by the clients or counterparties of financial instruments on the contract obligations. The main factor is that counterparties could not repay in full the accounts receivable based on the agreed terms, and the contract cash flows of financial instruments settled based on the agreement.
- ii. According to the Group's credit policy, each local entity in the Group is responsible for managing and analysing the credit risk for each of their new clients before standard payment and delivery terms and conditions are offered. Internal risk control assesses the credit quality of the customers, taking into account their financial position, past experience and other factors.
- iii. Individual risk limits are set based on internal or external factors in accordance with limits set by credit control manager. The utilisation of credit limits is regularly monitored.
- iv. For banks and financial institutions, only the institutions with good credit quality are accepted as counterparties.
- v. The default occurs when it expects that the contact payments cannot be recovered and are transferred to overdue receivables.
- vi. The Group classifies customers' accounts receivable, contract assets and rents receivable in accordance with customer types. The Group applies the simplified approach to estimate expected credit loss under individual basis.
- vii. The Group wrote-off the financial assets, which cannot be reasonably expected to be recovered, after initiating recourse procedures. However, the Group will continue executing the recourse procedures to secure their rights.

viii. Movements in relation to the Group applying the modified approach to provide loss allowance for accounts receivable is as follows:

|                                 |    | 2018   |  |  |
|---------------------------------|----|--------|--|--|
| At January 1_IAS 39             | \$ | 82,137 |  |  |
| Adjustments under new standards |    | _      |  |  |
| At January 1_IFRS 9             |    | 82,137 |  |  |
| Provision for impairment        |    | 17,794 |  |  |
| Write-offs                      | (  | 1,838) |  |  |
| Effect of foreign exchange      | (  | 328)   |  |  |
| At December 31                  | \$ | 97,765 |  |  |

#### ix. Credit risk information of 2017 is listed below:

- (i) Credit risk refers to the risk of financial loss to the Group arising from default by the clients or counterparties of financial instruments on the contract obligations. According to the Group's credit policy, each local entity in the Group is responsible for managing and analyzing the credit risk for each of their new clients before standard payment and delivery terms and conditions are offered. Internal risk control assesses the credit quality of the customers, taking into account their financial position, past experience and other factors. Individual risk limits are set based on internal or external ratings in accordance with limits set by the board of directors. The utilization of credit limits is regularly monitored. Credit risk arises from cash and cash equivalents, derivative financial instruments and deposits with banks and financial institutions, as well as credit exposures to wholesale and retail customers, including outstanding receivables.
- (ii) No credit limits were exceeded during the year ended December 31, 2017, and management does not expect any significant losses from non-performance by these counterparties.
- (iii)The ageing analysis of accounts receivable that were past due but not impaired is as follows:

|                | Decer | nber 31, 2017 |
|----------------|-------|---------------|
| 1 to 90 days   | \$    | 480,489       |
| 91 to 180 days |       | 5,908         |
| Over 181 days  |       | 11,862        |
|                | \$    | 498,259       |

(iv) Movements on the provision for impairment of accounts receivable are as follows:

|                              | Grou | p provision |
|------------------------------|------|-------------|
|                              |      | 2017        |
| At January 1                 | \$   | 75,982      |
| Provision for impairment     |      | 8,041       |
| Write-offs during the period | (    | 1,168)      |
| Effect of foreign exchange   | (    | 718)        |
| At December 31               | \$   | 82,137      |

(v) The credit quality of accounts receivable that were neither past due nor impaired was in the following categories based on the Group's Credit Quality Control Policy:

|         | Dece      | mber 31, 2017 |
|---------|-----------|---------------|
| Group 1 | \$        | 2,663,735     |
| Group 2 |           | 1,643,819     |
|         | <u>\$</u> | 4,307,554     |

Group 1 - Medium-low credit risk accounts receivable: enterprises with ideal operations, high financial transparency, and approved by the headquarters' credit control manager.

Group 2 - Ordinary credit risk accounts receivable: customers other than medium-low credit risk accounts receivable.

#### (c)Liquidity risk

- i. Cash flow forecasting is performed in the operating entities of the Group and aggregated by Group treasury. Group treasury monitors rolling forecasts of the Group's liquidity requirements to ensure it has sufficient cash to meet operational needs.
- ii. The table below analyses the Group's non-derivative financial liabilities and net-settled or gross-settled derivative financial liabilities into relevant maturity groupings based on the remaining period at the balance sheet date to the contractual maturity date for non-derivative financial liabilities and to the expected maturity date for derivative financial liabilities. The amounts disclosed in the table are the contractual undiscounted cash flows.

#### Non-derivative financial liabilities:

|                    | Less than    | Between 1  | Between 2   | Over    |  |
|--------------------|--------------|------------|-------------|---------|--|
| December 31, 2018  | 1 year       | and 2 year | and 3 years | 3 years |  |
| Accounts payable   | \$ 5,339,049 | \$ -       | \$ -        | \$ -    |  |
| Other payables     | 3,326,748    | -          | -           | -       |  |
| Guarantee deposits | 9,677        | 5,997      | 3,458       | 8,063   |  |

| December 31, 2017     | Less than 1 year |    | Between 1 and 2 year |    | Between 2 and 3 years |    | Over 3 years |
|-----------------------|------------------|----|----------------------|----|-----------------------|----|--------------|
| Short-term borrowings | \$<br>2,137,655  | \$ | -                    | \$ | _                     | \$ | -            |
| Accounts payable      | 5,265,440        |    | -                    |    | -                     |    | -            |
| Other payables        | 3,467,054        |    | -                    |    | -                     |    | -            |
| Guarantee deposits    | 4,097            |    | 7,407                |    | 5,819                 |    | 4,648        |

#### **Derivative financial liabilities**

As of December 31, 2018 and 2017, the Group's derivative financial liabilities mature within one year.

iii. The Group does not expect the timing of occurrence of the cash flows estimated through the maturity date analysis will be significantly earlier, nor expect the actual cash flow amount will be significantly different.

#### (3) Fair value information

- A. The different levels that the inputs to valuation techniques are used to measure fair value of financial instruments have been defined as follows:
  - Level 1: Quoted prices (unadjusted) in active markets for identical assets or liabilities.
  - Level 2: Inputs other than quoted prices included within level 1 that are observable for the asset or liability, either directly (that is, as prices) or indirectly (that is, derived from prices).
  - Level 3: Inputs for the asset or liability that are not based on observable market data.
- B. Fair value information of investment property at cost is provided in Note 6(11).
- C. Financial instruments not measured at fair value
  - Including the carrying amounts of cash and cash equivalents, notes receivable, accounts receivable, other receivables, refundable deposits, short-term borrowings, notes payable, accounts payable other payables and guarantee deposits received are approximate to their fair values.
- D. The related information of financial and non-financial instruments measured at fair value by level on the basis of the nature, characteristics and risks of the assets and liabilities are as follows:
  - (a) The related information of natures of the assets and liabilities is as follows:

| December 31, 2018                | Level 1      | Level 2 |         | Level 3       | Total |          |
|----------------------------------|--------------|---------|---------|---------------|-------|----------|
| Recurring fair value measurement | <u>s</u>     |         |         |               |       |          |
| Financial assets:                |              |         |         |               |       |          |
| Forward exchange contracts       | \$ -         | \$      | 4,926   | \$<br>-       | \$    | 4,926    |
| Equity securities                | 3,115,417    |         | 563,844 | <br>458,025   | 4     | ,137,286 |
| Total                            | \$ 3,115,417 | \$      | 568,770 | \$<br>458,025 | \$ 4  | ,142,212 |
|                                  |              |         |         |               |       |          |
| Recurring fair value measurement | <u>s</u>     |         |         |               |       |          |
| Financial liabilities:           |              |         |         |               |       |          |
| Forward exchange contracts       | <u>\$</u>    | \$      | 1,295   | \$<br>        | \$    | 1,295    |
| December 31, 2017                | Level 1      |         | Level 2 | Level 3       |       | Total    |
| Recurring fair value measurement | s            |         |         | _             |       | _        |
| Financial assets:                | _            |         |         |               |       |          |
| Forward exchange contracts       | \$ -         | \$      | 9,313   | \$<br>-       | \$    | 9,313    |
| Equity securities                | 2,467,124    |         | 469,575 | 111,731       | 3     | ,048,430 |
| Total                            | \$ 2,467,124 | \$      | 478,888 | \$<br>111,731 | \$ 3  | ,057,743 |
| Recurring fair value measurement | S            |         |         |               |       |          |
| Financial liabilities:           | _            |         |         |               |       |          |
| Forward exchange contracts       | \$ -         | \$      | 10,312  | \$<br>_       | \$    | 10,312   |

- (b) The methods and assumptions the Group used to measure fair value are as follows:
  - i. The instruments the Group used market quoted prices as their fair values (that is, Level 1) are listed below by characteristics:

|                     | Listed shares | Open-end fund |
|---------------------|---------------|---------------|
| Market quoted price | Closing price | Net worth     |

- ii. Except for financial instruments with active markets, the fair value of other financial instruments is measured by using valuation techniques or by reference to counterparty quotes.
- iii. When assessing non-standard and low-complexity financial instruments, the Group adopts valuation technique that is widely used by market participants. The inputs used in the valuation method to measure these financial instruments are normally observable in the market.
- iv. The valuation of derivative financial instruments is based on valuation model widely accepted by market participants, such as present value techniques and option pricing models. Forward exchange contracts are usually valued based on the current forward exchange rate.
- v. The output of valuation model is an estimated value and the valuation technique may not be able to capture all relevant factors of the Group's financial and non-financial instruments. Therefore, the estimated value derived using valuation model is adjusted

accordingly with additional inputs, for example, model risk or liquidity risk and etc. In accordance with the Group's management policies and relevant control procedures relating to the valuation models used for fair value measurement, management believes adjustment to valuation is necessary in order to reasonably represent the fair value of financial and non-financial instruments at the consolidated balance sheet. The inputs and pricing information used during valuation are carefully assessed and adjusted based on current market conditions.

- vi. The Group takes into account adjustments for credit risk to measure the fair value of financial and non-financial instruments to reflect credit risk of the counterparty and the Group's credit quality.
- E. For the years ended December 31, 2018 and 2017, there was no transfer between Level 1 and Level 2.
- F. The following table presents the changes in level 3 instruments as at December 31, 2018 and 2017:

|   |    | 2018    |    | 2017    |  |  |  |
|---|----|---------|----|---------|--|--|--|
| January 1   | \$ | 111,731 | \$ | 72,845  |  |  |  |

| Effects of foreign exchange                             |    | 1,622   |    | 700     |  |  |  |
| December 31   | \$ | 458,025 | \$ | 111,731 |  |  |  |

- G. For the years ended December 31, 2018 and 2017, there was no transfer into or out from Level 3 except financial assets at fair value through other comprehensive income transferred from certain equity investments on January 1, 2018 on application of IFRS 9.
- H. Investment department is in charge of valuation procedures for fair value measurements being categorized within Level 3, which is to verify independent fair value of financial instruments. Such assessment is to ensure the valuation results are reasonable by applying independent information to make results close to current market conditions, and reviewing the information periodically.
- I. The following is the qualitative information of significant unobservable inputs and sensitivity analysis of changes significant unobservable inputs to valuation model used in Level 3 fair value measurements:

| Non-derivative     | Fair value at     |         | Valuation          | Significant        | Range (weighted | Relationship of  |
|--------------------|-------------------|---------|--------------------|--------------------|-----------------|--|
| equity instrument: | December 31, 2018 |         | technique          | unobservable input | average)        | inputs to fair value                                       |
| Unlisted shares    | \$                | 458,025 | Net asset<br>value | Net asset value    | -               | The higher the net asset value, the higher the fair value. |

| Non-derivative     | Fair value at              |  | Valuation Significant |                    | Range (weighted | Relationship of                                |
|--------------------|----------------------------|--|-----------------------|--------------------|-----------------|--|
| equity instrument: | December 31, 2017          |  | technique             | unobservable input | average)        | inputs to fair value                           |
| Unlisted shares    | Unlisted shares \$ 111,731 |  | Net asset value       | Net asset value    | -               | The higher the net asset value, the higher the |
|                    |                            |  |                       |                    |                 | fair value                                     |

J. The Group has carefully assessed the valuation models and assumptions used to measure fair value; therefore, the fair value measurement is reasonable. However, use of different valuation models or assumptions may result in difference measurement. The following is the effect of profit or loss or of other comprehensive income from financial assets and liabilities categorized within Level 3 if the inputs used to valuation models have changed:

|                   |                    |        | December 31, 2018 |                     |           |                     |           |                    |  |  |  |

- A. Under IAS 39, because the equity instruments, which were classified as: available-for-sale financial assets and financial assets at cost, amounting to \$2,939,782 and \$1,113,478, respectively, were not held for the purpose of trading, they were reclassified as "financial assets at fair value through other comprehensive income" amounting to \$4,207,439, increased retained earnings and decreased other equity interest in the amounts of \$207,928 and \$53,749, respectively on initial application of IFRS 9.
- B. The Group reclassified financial assets at fair value through profit or loss, which were initially classified as available-for-sale financial assets under IAS 39, amounting to \$108,648 under IFRS 9.
- C. The Group recognized investments accounted for using equity method to increase retained earnings and decrease other equity interest by \$6,775 under effect on initial application of IFRS 9.

# (5) Effects of initial application of IFRS 15 and information on application of IAS 11 and IAS 18 in 2017

A. The significant accounting policies applied on revenue recognition for the year ended December 31, 2017 are set out below.

Sales of goods

- (a)The Group designs, manufactures and sells computer and its peripherals, communication and related products. Revenue is measured at the fair value of the consideration received or receivable taking into account of value-added tax, returns, rebates and discounts for the sale of goods to external customers in the ordinary course of the Group's activities. Revenue arising from the sales of goods is recognized when the Group has delivered the goods to the customer, the amount of sales revenue can be measured reliably and it is probable that the future economic benefits associated with the transaction will flow to the entity. The delivery of goods is completed when the significant risks and rewards of ownership have been transferred to the customer, the Group retains neither continuing managerial involvement to the degree usually associated with ownership nor effective control over the goods sold, and the customer has accepted the goods based on the sales contract or there is objective evidence showing that all acceptance provisions have been satisfied.
- (b) The Group offers customers volume discounts and right of return for defective products. The Group estimates appropriate discounts and returns based on regular way purchases or sales. Provisions for such liabilities are recorded when the sales are recognized.

B. The effects and description of current balance sheets and comprehensive income statements if the Group continues adopting above accounting policies are as follow

|                           |                  | December 31, 2018     |                  |           |                   |          |  |  |  |
|---------------------------|------------------|-----------------------|------------------|-----------|-------------------|----------|--|--|--|
|                           |                  |                       | Balance by using |           |                   |          |  |  |  |
|                           |                  | previous Effects from |                  |           |                   |          |  |  |  |
|                           | Balance by using |                       |                  | ecounting | changes in        |          |  |  |  |

| Other current liabilities | (                | 238,831)              | (                | 217,420)  | (                 | 21,411)  |  |  |  |

There was no effect on items in the comprehensive income statement.

#### Description:

- (a) Under IFRS 15, the net amounts in relation to expected sales return and discounts as well as return costs of related products refunds to customers, which were previously presented as 'accounts receivable allowance for sales returns and discounts' in the balance sheet, are recognized as other current liabilities and other current assets, respectively.
- (b) Advance sales receipts (shown as 'other current liabilities' in the balance sheet) in relation to the contract were previously presented. Under IFRS 15, the advance sales receipts are recognized as contract liabilities.

#### 13. SUPPLEMENTARY DISCLOSURES

- (1) Significant transactions information
  - A. Loans to others: Please refer to table 1.
  - B. Provision of endorsements and guarantees to others: Please refer to table 2.
  - C. Holding of marketable securities at the end of the period (not including subsidiaries, associates and joint ventures): Please refer to table 3.
  - D. Acquisition or sale of the same security with the accumulated cost exceeding NT\$300 million or 20% of the Company's paid-in capital: Please refer to table 4.
  - E. Acquisition of real estate reaching NT\$300 million or 20% of paid-in capital or more: None.
  - F. Disposal of real estate reaching NT\$300 million or 20% of paid-in capital or more: None.
  - G. Purchases or sales of goods from or to related parties reaching NT\$100 million or 20% of paid-in capital or more: Please refer to table 5.
  - H. Receivables from related parties reaching NT\$100 million or 20% of paid-in capital or more: Please refer to table 6.
  - I. Trading in derivative instruments undertaken during the reporting periods: Please refer to Notes 6(2) and (14).
  - J. Significant inter-company transactions during the reporting periods: Please refer to table 7.

#### (2) Information on investees

Names, locations and other information of investee companies (not including investees in Mainland China): Please refer to table 8.

#### (3) Information on investments in Mainland China

- A. Basic information: Please refer to table 9.
- B. Significant transactions, either directly or indirectly through a third area, with investee companies in the Mainland Area: Please refer to table 9.

#### 14. SEGMENT INFORMATION

#### (1) General information

Management has determined the reportable operating segments based on the reports reviewed by the Chief Operating Decision-Maker that are used to make strategic decisions. The Group's Chief Operating Decision-Maker manages business from the perspectives of cloud computing product business group and mobile communication product business group.

The Group's company organization, basis of department segmentation and principles for measuring segment information for the period were not significantly changed.

#### (2) <u>Information about segment profit or loss, assets and liabilities</u>

The segment information provided to the Chief Operating Decision-Maker for the reportable segments and reconciliations are as follows:

|                     |                | For the year ended December 31, 2018 |                                      |              |    |           |    |            |  |
|---------------------|----------------|--------------------------------------|--------------------------------------|--------------|----|-----------|----|------------|--|
|                     |                |                                      |                                      | Mobile       |    |           |    |            |  |
|                     | Clo            | oud computing                        | con                                  | nmunications |    |           |    |            |  |

|                     |                |                                      | For the year ended December 31, 2017 |              |    |           |    |            |  |
|                     |                |                                      |                                      | Mobile       |    |           |    |            |  |
|                     | Clo            | oud computing                        | communications                       |              |    |           |    |            |  |
| Item                | business group |                                      | business group                       |              |    | Others    |    | Total      |  |
| Revenue             | \$             | 40,613,816                           | \$                                   | 6,512,046    | \$ | 1,634,652 | \$ | 48,760,514 |  |
| Segment gain (loss) |                | 1,053,912                            | (                                    | 203,939)     | (  | 110,092)  |    | 739,881    |  |

### (3) Reconciliation for segment income (loss)

The revenue from external customers reported to the Chief Operating Decision-Maker is measured in a manner consistent with that in the statement of comprehensive income.

A reconciliation of reportable segment income or loss to the income/(loss) before tax from continuing operations for the years ended December 31, 2018 and 2017 is provided as follows:

| Item   | For the year ended December 31, 2018 |    | For the year ended December 31, 2017 |
|--|--------------------------------------|----|--------------------------------------|
| Profit for reportable segments   | \$<br>333,896                        | \$ | 739,881                              |
| Unallocated:   |                                      |    |                                      |

Note 1: The Group's credit term for foreign related parties is to collect within 5 months based on the net amount of receivables after offseting against payables, which takes into consideration the reasonable amount of time for the Company to ship products to each company and for the companies to sell the products and collect the sales. The Group's credit term for domestic related parties is 3 months from the date of shipment for the collection of the net amount of receivables after offsetting against payables; the credit term for third parties is an average of 3 months after the date of shipment.

Table 5

Note 2: The Group's payment term for foreign related parties is within 5 months for the collection of the net amount of receivables after offsetting against payables, which is in accordance with the Group's credit policies of accounts receivable with foreign related parties, the Group's payment term for domestic related parties is 3 months from the date of shipment from the counterparty for the net amount of receivables after offsetting against payables; the payment term for third parties is an average of 3 months after the date of shipment from the counterparty.

Note 3: The selling price to related parties is based on market value.

Note 4: There were certain transaction made through MiTAC Digital Technology Corp.'s subsidiary, Mio International Ltd.

### MITAC HOLDINGS CORPORATION

PARENT COMPANY ONLY FINANCIAL
STATEMENTS AND REPORT OF INDEPENDENT
ACCOUNTANTS
DECEMBER 31, 2018 AND 2017

.....

For the convenience of readers and for information purpose only, the auditors' report and the accompanying financial statements have been translated into English from the original Chinese version prepared and used in the Republic of China. In the event of any discrepancy between the English version and the original Chinese version or any differences in the interpretation of the two versions, the Chinese-language auditors' report and financial statements shall prevail.

#### REPORT OF INDEPENDENT ACCOUNTANTS

PWCR18000344

To the Board of Directors and Shareholders of MiTAC Holdings Corporation

### **Opinion**

We have audited the accompanying parent company only balance sheets of MiTAC Holdings Corporation (the "Company") as at December 31, 2018 and 2017, and the parent company only statements of comprehensive income, of changes in equity and of cash flows for the years then ended, and notes to the parent company only financial statements, including a summary of significant accounting policies.

In our opinion, based on our audits and the audit reports of other independent accountants, as described in the Other matters section of our report, the accompanying parent company only financial statements present fairly, in all material respects, the parent company only financial position of MiTAC Holdings Corporation as at December 31, 2018 and 2017, and its parent company only financial performance and its parent company only cash flows for the years then ended in accordance with the "Regulations Governing the Preparation of Financial Reports by Securities Issuers".

#### Basis for opinion

We conducted our audits in accordance with the "Regulations Governing Auditing and Attestation of Financial Statements by Certified Public Accountants" and generally accepted auditing standards in the Republic of China (ROC GAAS). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the parent company only Financial Statements section of our report. We are independent of the Company in accordance with the Code of Professional Ethics for Certified Public Accountants in the Republic of China (the "Code"), and we have fulfilled our other ethical responsibilities in accordance with the Code. Based on our audits and the audit reports of the other independent accountants, we believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

#### Key audit matters

Key audit matters are those matters that, in our professional judgement, were of most significance in our audit of the parent company financial statements of the current period. These matters were addressed in the context of our audit of the parent company only financial statements as a whole and, in forming our opinion thereon, we do not provide a separate opinion on these matters.

As of December 31, 2018, the Company and its subsidiaries recognised MiTAC International Corporation and its subsidiaries ("MiTAC International"), MiTAC Computing Technology Corporation and its subsidiaries ("MiTAC Computing Technology") and MiTAC Digital Technology Corporation and its subsidiaries ("MiTAC Digital Technology"), as investments accounted for using the equity method of NT\$31,508,825 thousand, NT\$4,011,066 thousand and NT\$1,636,397 thousand, respectively, please refer to Note 6(4) for the details. The aforementioned investments constitute 96.98% of the Company's total assets, and are considered significant to the parent company only financial statements. Thus, we consider the key audit matters of MiTAC International, MiTAC Computing Technology and MiTAC Digital Technology as a key audit matter of the Company.

#### **Sales revenue recognition**

#### Description

For the accounting policies on sales revenue recognition, please refer to Note 4(31) of the consolidated financial statement. Considering that the sales revenue are material to its financial statements, the types of MiTAC International, MiTAC Computing Technology and MiTAC Digital Technology products and sales terms are various, the timing of revenue recognition can only be determined when the controls of ownership for products are transferred to the customers based on contract terms of each different customer. Thus, we identified the sales revenue recognition as a key audit matter.

#### How our audit addressed the matter

Our audit procedures in relation to the above key audit matter including discussing with management and evaluating the policy of revenue recognition; tested the effectiveness of design and implementation of internal controls over recognition of revenue; sampled transaction terms and prices of customers and verified the supporting documents for delivery to ensure the accuracy of payment time and amount; selected sales transactions around the fiscal year-end date and verified transaction documents to ensure sales revenue are recorded in the proper period.

#### **Valuation of inventory**

#### Description

MiTAC Computing Technology and MiTAC Digital Technology's inventories were mainly engaged in manufacturing and selling computer and their peripherals and communications products. Since the industry involved rapidly changing technology and were affected by market demand, there was higher risk of incurring inventory valuation losses or having obsolete inventory. MiTAC Computing Technology and MiTAC Digital Technology's inventories were measured at the lower of cost and net realisable value. Considering MiTAC Computing Technology and MiTAC Digital Technology's inventories were significant, items were voluminous and the valuation is associated with subjective judgement, we identified valuation of inventory as a key audit matter.

#### How our audit addressed the matter

We performed audit procedures including discussing with management and evaluating the policy of inventory valuation, tested inventory aging report, checked the logic in inventory aging calculation and confirmed that the classification of obsolete or slow-moving inventories was appropriate, and tested the materials which were used to determine the net realized of obsolete or slow-moving inventories in order to assess the reasonableness of allowance for inventory valuation losses.

#### Other matter- reference to reports of other independent accountants

We did not audit certain investments accounted for under the indirect equity method that were included in the parent company only financial statements, whose financial statements were prepared under a different financial reporting framework. The Company converted the financial statements in accordance with the "Regulations Governing the Preparation of Financial Reports by Securities Issuers". Share of profit (loss) of associates and joint ventures accounted for using equity method amounted to NT\$1,108,426 thousand and NT\$1,250,651 thousand for the years ended December 31, 2018 and 2017, respectively. Investments accounted for using equity method amounted to NT\$10,783,025 thousand and NT\$9,238,721 thousand as at December 31, 2018 and 2017, respectively. Those financial statements before adjustments were audited by other independent accountants whose reports thereon have been furnished to us, and our opinion expressed herein is based solely on the audit reports of the other independent accountants.

# Responsibilities of management and those charged with governance for the parent company only financial statements

Management is responsible for the preparation and fair presentation of the parent company only financial statements in accordance with the "Regulations Governing the Preparation of Financial Reports by Securities Issuers" and for such internal control as management determines is necessary to enable the preparation of parent company only financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the parent company only financial statements, management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the company or to cease operations, or has no realistic alternative but to do so.

Those charged with governance, including audit committee (Including supervisors), are responsible for overseeing the company's financial reporting process.

# Auditor's responsibilities for the audit of the parent company only financial statements

Our objectives are to obtain reasonable assurance about whether the parent company only financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with ROC GAAS will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these parent company only financial statements.

As part of an audit in accordance with ROC GAAS, we exercise professional judgement and maintain professional skepticism throughout the audit. We also:

1. Identify and assess the risks of material misstatement of the parent company only financial statements, whether due to fraud or error, design and perform audit procedures responsive to those

risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.

- 2. Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control.
- 3. Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- 4. Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the parent company only financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- 5. Evaluate the overall presentation, structure and content of the parent company only financial statements, including the disclosures, and whether the parent company only financial statements represent the underlying transactions and events in a manner that achieves fair presentation.
- 6. Obtain sufficient appropriate audit evidence regarding the financial information of the entities or business activities within the Company to express an opinion on the parent company only financial statements. We are responsible for the direction, supervision and performance of the group audit. We remain solely responsible for our audit opinion.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the parent company only financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

Wen, Fang-Yu

Cheng, Ya-Huei

For and on behalf of PricewaterhouseCoopers, Taiwan February 26, 2019

The accompanying parent company only financial statements are not intended to present the financial position and results of operations and cash flows in accordance with accounting principles generally accepted in countries and jurisdictions other than the Republic of China. The standards, procedures and practices in the Republic of China governing the audit of such financial statements may differ from those generally accepted in countries and jurisdictions other than the Republic of China. Accordingly, the accompanying parent company only financial statements and report of independent accountants are not intended for use by those who are not informed about the accounting principles or auditing standards generally accepted in the Republic of China, and their applications in practice.

# MITAC HOLDINGS CORPORATION NOTES TO THE PARENT COMPANY ONLY FINANCIAL STATEMENTS FOR THE YEARS ENDED DECEMBER 31, 2018 AND 2017

(Expressed in thousands of New Taiwan dollars, except as otherwise indicated)

#### 1. HISTORY AND ORGANISATION

- (1) MiTAC Holdings Corporation (the "Company") was established by MiTAC International Corp. ("MiTAC International") through a share conversion on September 12, 2013, and on the same date, the competent authority has approved for the Company's shares to be listed on the Taiwan Stock Exchange (TWSE). MiTAC International became the Company's wholly-owned subsidiary after conversion. The main business of the Company is investment holding.
- (2) The Company in order to promote specialization of work for transforming and improving overall competitiveness, the Board of Directors of its subsidiary, MiTAC International, has resolved to divest its cloud computing products group to the newly established company, MiTAC Computing Technology Corporation (collectively referred herein as the "MiTAC Computing Technology"), as the consideration for the acquisition of 220,000 thousand newly issued ordinary shares of MiTAC Technology on the spin-off day, September 1, 2014. In addition, in 2017, the Board of Directors of MiTAC International has resolved to divest its mobile communication products group to the newly established company, MiTAC Digital Technology Corporation (collectively referred herein as the "MiTAC Digital Technology"), as the consideration for the acquisition of 100,000 thousand newly issued ordinary shares of MiTAC Digital Technology on the spin-off day, January 1, 2018. As a result, MiTAC International, MiTAC Computing Technology and MiTAC Digital Technology are the wholly-owned subsidiaries of the Company after the spin-off.

# 2. THE DATE OF AUTHORISATION FOR ISSUANCE OF THE PARENT COMPANY ONLY FINANCIAL STATEMENTS AND PROCEDURES FOR AUTHORISATION

These parent company only financial statements were authorised for issuance by the Board of Directors on February 26, 2019.

#### 3. APPLICATION OF NEW STANDARDS, AMENDMENTS AND INTERPRETATION

(1) Effect of the adoption of new issuances of or amendments to International Financial Reporting

Standards ("IFRSs") as endorsed by the Financial Supervisory Commission ("FSC")

New standards, interpretations and amendments endorsed by the FSC effective from 2018 are as follows:

|  | Effective date by        |
|--|--------------------------|
|  | International Accounting |
| New Standards, Interpretations and Amendments                        | Standards Board          |
| Amendments to IFRS 2, 'Classification and measurement of share-based | January 1, 2018          |
| payment transactions'  |                          |
| Amendments to IFRS 4, 'Applying IFRS 9, Financial instruments with   | January 1, 2018          |
| IFRS 4, Insurance contracts'   |                          |
| IFRS 9, 'Financial instruments'                                      | January 1, 2018          |
| IFRS 15, 'Revenue from contracts with customers'                     | January 1, 2018          |
| Amendments to IFRS 15, 'Clarifications to IFRS 15, Revenue from      | January 1, 2018          |
| contracts with customers'  |                          |
| Amendments to IAS 7, 'Disclosure initiative'                         | January 1, 2017          |
| Amendments to IAS 12, 'Recognition of deferred tax assets for        | January 1, 2017          |
| unrealised losses'   |                          |
| Amendments to IAS 40, 'Transfers of investment property'             | January 1, 2018          |
| IFRIC 22, 'Foreign currency transactions and advance consideration'  | January 1, 2018          |
| Annual improvements to IFRSs 2014-2016 cycle - Amendments to IFRS    | January 1, 2018          |
| 1,   |                          |
| Annual improvements to IFRSs 2014-2016 cycle - Amendments to IFRS    | January 1, 2017          |
| 12,  |                          |
| Annual improvements to IFRSs 2014-2016 cycle - Amendments to IAS     | January 1, 2018          |
| 28,  | •                        |

The above standards and interpretations have no significant impact to the Company's financial condition and financial performance based on the Company's assessment.

#### A. IFRS 9, 'Financial instruments'

- (a) Classification of debt instruments is driven by the entity's business model and the contractual cash flow characteristics of the financial assets, which would be classified as financial asset at fair value through profit or loss, financial asset measured at fair value through other comprehensive income or financial asset at amortised cost. Equity instruments would be classified as financial asset at fair value through profit or loss, unless an entity makes an irrevocable election at inception to present subsequent changes in the fair value of an investment in an equity instrument that is not held for trading in other comprehensive income.
- (b) The Company has elected not to restate prior period financial statements using the modified retrospective approach under IFRS 9. For details of the significant effect as at January 1, 2018, please refer to Note 12(4).

#### B. Amendments to IAS 7, 'Disclosure initiative'

This amendment requires that an entity shall provide more disclosures related to changes in liabilities arising from financing activities, including both changes arising from cash flows and non-cash changes.

The Company expects to provide additional disclosure to explain the changes in liabilities arising from financing activities, please refer to Note 6(16).

## (2) Effect of new issuances of or amendments to IFRSs as endorsed by the FSC but not yet adopted by the Company.

New standards, interpretations and amendments endorsed by the FSC effective from 2019 are as follows:

|  | Effective date by        |
|--|--------------------------|
|  | International Accounting |
| New Standards, Interpretations and Amendments                                | Standards Board          |
| Amendments to IFRS 9, 'Prepayment features with negative compensation'       | January 1, 2019          |
| IFRS 16, 'Leases'  | January 1, 2019          |
| Amendments to IAS 19, 'Plan amendment, curtailment or settlement'            | January 1, 2019          |
| Amendments to IAS 28, 'Long-term interests in associates and joint ventures' | January 1, 2019          |
| IFRIC 23, 'Uncertainty over income tax treatments'                           | January 1, 2019          |
| Annual improvements to IFRSs 2015-2017 cycle                                 | January 1, 2019          |

The above standards and interpretations have no significant impact to the Company's financial condition and financial performance based on the Company's assessment.

#### (3) IFRSs issued by IASB but not yet endorsed by the FSC

New standards, interpretations and amendments issued by IASB but not yet included in the IFRSs as endorsed by the FSC are as follows:

|  | Effective date by                  |
|--|------------------------------------|
|  | International Accounting           |
| New Standards, Interpretations and Amendments                      | Standards Board                    |
| Amendment to IAS 1 and IAS 8, 'Disclosure Initiative-Definition of | January 1, 2020                    |
| Material'  |                                    |
| Amendments to IFRS 3, 'Definition of a business'                   | January 1, 2020                    |
| Amendments to IFRS 10 and IAS 28, 'Sale or contribution of assets  | To be determined by                |
| between an investor and its associate or joint venture'            | International Accounting           |
| IFRS 17, 'Insurance contracts'                                     | Standards Board<br>January 1, 2021 |

The above standards and interpretations have no significant impact to the Company's financial condition and financial performance based on the Company's assessment.

#### 4. <u>SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES</u>

The principal accounting policies applied in the preparation of these parent company only financial statements are set out below. These policies have been consistently applied to all the periods presented, unless otherwise stated.

#### (1) Compliance statement

The parent company only financial statement have been prepared in accordance with the

"Regulations Governing the Preparation of Financial Reports by Securities Issuers".

#### (2) Basis of preparation

- A. Except for the following items, this parent company only financial statements have been prepared under the historical cost convention:
  - Financial assets and liabilities at fair value through other comprehensive income/Available-for-sale financial assets measured at fair value.
- B. The preparation of financial statements in compliance with IFRSs requires the use of certain critical accounting estimates. It also requires management to exercise its judgement in the process of applying the Company's accounting policies. The areas involving a higher degree of judgement or complexity, or areas where assumptions and estimates are significant to the parent company only financial statements are disclosed in Note 5.
- C. In adopting IFRS 9 and effective January 1, 2018, the Company has elected to apply modified retrospective approach whereby the cumulative impact of the adoption was recognised as retained earnings or other equity as of January 1, 2018 and the financial statements for the year ended December 31, 2017 were not restated.

#### (3) Foreign currency translation

Items included in the financial statements of each of the Company's entities are measured using the currency of the primary economic environment in which the entity operates (the "functional currency"). The parent company only financial statements are presented in New Taiwan Dollars, which is the Company's functional currency.

Foreign currency transactions and balances

- A. Foreign currency transactions are translated into the functional currency using the exchange rates prevailing at the dates of the transactions or valuation where items are remeasured. Foreign exchange gains and losses resulting from the settlement of such transactions are recognized in profit or loss in the period in which they arise.
- B. Monetary assets and liabilities denominated in foreign currencies at the period end are re-translated at the exchange rates prevailing at the balance sheet date. Exchange differences arising upon re-translation at the balance sheet date are recognized in profit or loss.
- C. Non-monetary assets and liabilities denominated in foreign currencies held at fair value through profit or loss are re-translated at the exchange rates prevailing at the balance sheet date; their translation differences are recognized in profit or loss. Non-monetary assets and liabilities denominated in foreign currencies held at fair value through other comprehensive income are re-translated at the exchange rates prevailing at the balance sheet date; their translation differences are recognized in other comprehensive income. However, non-monetary assets and liabilities denominated in foreign currencies that are not measured at fair value are translated using the historical exchange rates at the dates of the initial transactions.

#### (4) Classification of current and non-current items

- A. Assets that meet one of the following criteria are classified as current assets; otherwise they are classified as non-current assets:
  - (a) Assets arising from operating activities that are expected to be realized, or are intended to be sold or consumed within the normal operating cycle;
  - (b) Assets held mainly for trading purposes;
  - (c) Assets that are expected to be realized within twelve months from the balance sheet date;
  - (d) Cash and cash equivalents, excluding restricted cash and cash equivalents and those that are to be exchanged or used to settle liabilities more than twelve months after the balance sheet date.
- B. Liabilities that meet one of the following criteria are classified as current liabilities; otherwise they are classified as non-current liabilities:
  - (a) Liabilities that are expected to be settled within the normal operating cycle;
  - (b) Liabilities arising mainly from trading activities;
  - (c) Liabilities that are to be settled within twelve months from the balance sheet date;
  - (d) Liabilities for which the repayment date cannot be extended unconditionally to more than twelve months after the balance sheet date. Terms of a liability that could, at the option of the counterparty, result in its settlement by the issue of equity instruments do not affect its classification.

#### (5) Cash equivalents

Cash equivalents refer to short-term, highly liquid investments that are readily convertible to known amounts of cash and which are subject to an insignificant risk of changes in value. Time deposits that meet the definition above and are held for the purpose of meeting short-term cash commitments in operations are classified as cash equivalents.

#### (6) Financial assets at fair value through other comprehensive income

#### Effective 2018

- A. Financial assets at fair value through other comprehensive income comprise equity securities which are not held for trading, and for which the Company has made an irrevocable election at initial recognition to recognise changes in fair value in other comprehensive income and debt instruments which meet all of the following criteria:
  - (a) The objective of the Company's business model is achieved both by collecting contractual cash flows and selling financial assets; and
  - (b) The assets' contractual cash flows represent solely payments of principal and interest.
- B. On a regular way purchase or sale basis, financial assets at fair value through other comprehensive income are recognised and derecognised using trade date accounting.
- C. At initial recognition, the Company measures the financial assets at fair value plus transaction costs. The Company subsequently measures the financial assets at fair value:

The changes in fair value of equity investments that were recognised in other comprehensive income are reclassified to retained earnings and are not reclassified to profit or loss following the derecognition of the investment. Dividends are recognised as revenue when the right to receive payment is established, future economic benefits associated with the dividend will flow to the Company and the amount of the dividend can be measured reliably.

#### (7) Available-for-sale financial assets

#### Prior to 2018

- A. Available-for-sale financial assets are non-derivatives that are either designated in this category or not classified in any of the other categories.
- B. On a regular way purchase or sale basis, available-for-sale financial assets are recognized and derecognized using trade date accounting.
- C. Available-for-sale financial assets are initially recognized at fair value plus transaction costs. These financial assets are subsequently remeasured and stated at fair value, and any changes in the fair value of these financial assets are recognized in other comprehensive income. Investments in equity instruments that do not have a quoted market price in an active market and whose fair value cannot be reliably measured or derivatives that are linked to and must be settled by delivery of such unquoted equity instruments are presented in 'financial assets measured at cost'.

#### (8) Impairment of financial assets

#### Effective 2018

For debt instruments measured at fair value through other comprehensive income and financial assets at amortised cost (including accounts receivable or contract assets that have a significant financing component, lease receivables, loan commitments and financial guarantee contracts), at each reporting date, the Company recognises the impairment provision for 12 months expected credit losses if there has not been a significant increase in credit risk since initial recognition or recognises the impairment provision for the lifetime expected credit losses (ECLs) if such credit risk has increased since initial recognition after taking into consideration all reasonable and verifiable information that includes forecasts. On the other hand, for accounts receivable or contract assets that do not contain a significant financing component, the Company recognises the impairment provision for lifetime ECLs.

#### Prior to 2018

A. The Company assesses at each balance sheet date whether there is objective evidence that a financial asset or a group of financial assets is impaired as a result of one or more events that occurred after the initial recognition of the asset (a 'loss event') and that loss event (or events) has an impact on the estimated future cash flows of the financial asset or group of financial assets that can be reliably estimated.

- B. The criteria that the Company uses to determine whether there is objective evidence of an impairment loss is as follows:
  - (a) Significant financial difficulty of the issuer or debtor;
  - (b) A breach of contract, such as a default or delinquency in interest or principal payments;
  - (c) The Company, for economic or legal reasons relating to the borrower's financial difficulty, granted the borrower a concession that a lender would not otherwise consider;
  - (d) It becomes probable that the borrower will enter bankruptcy or other financial reorganization;
  - (e) The disappearance of an active market for that financial asset because of financial difficulties;
  - (f) Observable data indicating that there is a measurable decrease in the estimated future cash flows from a group of financial assets since the initial recognition of those assets, although the decrease cannot yet be identified with the individual financial asset in the group, including adverse changes in the payment status of borrowers in the group or national or local economic conditions that correlate with defaults on the assets in the group;
  - (g) Information about significant changes with an adverse effect that have taken place in the technology, market, economic or legal environment in which the issuer operates, and indicates that the cost of the investment in the equity instrument may not be recovered;
  - (h) A significant or prolonged decline in the fair value of an investment in an equity instrument below its cost.

#### (9) Derecognition of financial assets

The Company derecognizes a financial asset when the contractual rights to receive the cash flows from the financial asset expire.

The Company derecognizes a financial asset when one of the following conditions is met:

- A. The contractual rights of the cash flows from the financial asset expire.
- B. The contractual rights to receive cash flows of the financial asset have been transferred and the Company has transferred substantially all risks and rewards of ownership of the financial asset.
- C. The contractual rights to receive cash flows of the financial asset have been transferred; however, the Company has not retained control of the financial asset.

#### (10) <u>Investments accounted for using equity method / subsidiary/ associates</u>

- A. A subsidiary is an entity where the Company has the right to dominate its finance and operating policies (including special purpose entities), normally the Company owns more than 50% of the voting rights directly or indirectly in that entity. Subsidiaries are accounted for under the equity method in the Company's parent company only financial statements.
- B. Unrealized gains or losses resulting from inter-company transactions with subsidiaries are eliminated. Necessary adjustments are made to the accounting policies of subsidiaries, to be consistent with the accounting policies of the Company.
- C. After acquisition of subsidiaries, the Company recognizes proportionately the share of profit

- and loss and other comprehensive income in the income statement as part of the Company's profit and loss and other comprehensive income, respectively. When the share of loss from a subsidiary exceeds the carrying amount of Company's interest in that subsidiary, the Company continues to recognize its share in the subsidiary's loss proportionately.
- D. According to "Regulations Governing the Preparation of Financial Statements by Securities Issuers", "Profit for the year" and "Other comprehensive income for the year" reported in an entity's parent company only statement of comprehensive income, shall equal to "profit for the year" and "Other comprehensive income" attributable to owners of the parent reported in that entity's consolidated statement of comprehensive income. Total equity reported in an entity's parent company only financial statements, shall be equal to equity attributable to owners of parent reported in that entity's consolidated financial statements.
- E. Associates are all entities over which the Company has significant influence but not control. In general, it is presumed that the investor has significant influence, if an investor holds, directly or indirectly 20 percent or more of the voting power of the investee. Investments in associates are accounted for using the equity method and are initially recognized at cost.
- F. The Company's share of its associates' post-acquisition profits or losses is recognized in profit or loss, and its share of post-acquisition movements in other comprehensive income is recognized in other comprehensive income. When the Company's share of losses in an associate equals or exceeds its interest in the associate, including any other unsecured receivables, the Company does not recognize further losses, unless it has incurred legal or constructive obligations or made payments on behalf of the associate.
- G. When changes in an associate's equity do not arise from profit or loss or other comprehensive income of the associate and such changes do not affect the Company's ownership percentage of the associate, the Company recognizes change in ownership interests in the associate in 'capital surplus' in proportion to its ownership.
- H. Unrealized gains on transactions between the Company and its associates are eliminated to the extent of the Company's interest in the associates. Unrealized losses are also eliminated unless the transaction provides evidence of an impairment of the asset transferred. Accounting policies of associates have been adjusted where necessary to ensure consistency with the policies adopted by the Company.
- I. In the case that an associate issues new shares and the Company does not subscribe or acquire new shares proportionately, which results in a change in the Company's ownership percentage of the associate but maintains significant influence on the associate, then 'capital surplus' and 'investments accounted for under the equity method' shall be adjusted for the increase or decrease. If the above condition causes a decrease in the Company's ownership percentage of the associate, in addition to the above adjustment, the amounts previously recognized in other comprehensive income in relation to the associate are reclassified to profit or loss proportionately on the same basis as would be required if the relevant assets or liabilities were disposed of.

- J. When the Company disposes its investment in an associate and loses significant influence over this associate, the amounts previously recognized in other comprehensive income in relation to the associate, are reclassified to profit or loss, on the same basis as would be required if the relevant assets or liabilities were disposed of. If it retains significant influence over this associate, the amounts previously recognized in other comprehensive income in relation to the associate are reclassified to profit or loss proportionately in accordance with the aforementioned approach.
- K. When the Company disposes its investment in an associate and loses significant influence over this associate, the amounts previously recognized as capital surplus in relation to the associate are transferred to profit or loss. If it retains significant influence over this associate, the amounts previously recognized as capital surplus in relation to the associate are transferred to profit or loss proportionately.

#### (11) Property, plant and equipment

- A. Property, plant and equipment are initially recorded at cost. Borrowing costs incurred during the construction period are capitalized.
- B. Subsequent costs are included in the asset's carrying amount or recognized as a separate asset, as appropriate, only when it is probable that future economic benefits associated with the item will flow to the Company and the cost of the item can be measured reliably. The carrying amount of discarded assets is derecognized when critical repairs are incurred, and other repair expenses are charged to profit or loss for the period when they incur.
- C. Property, plant and equipment apply cost model and are depreciated using the straight-line method to allocate their cost over their estimated useful lives. Each part of an item of property, plant, and equipment with a cost that is significant in relation to the total cost of the item must be depreciated separately.
- D. The assets' residual values, useful lives and depreciation methods are reviewed, and adjusted if appropriate, at each financial year-end. If expectations for the assets' residual values and useful lives differ from previous estimates or the patterns of consumption of the assets' future economic benefits embodied in the assets have changed significantly, any change is accounted for as a change in estimate under IAS 8, 'Accounting Policies, Changes in Accounting Estimates and Errors', from the date of the change. The estimated useful lives of transportation equipment are 5 years.
- E. The Company has recognized title of assets with significant risks and compensation not yet transferred and leases to lessees as operating leases. Rental income and expenses of operating leases are recognized over the leasing period on a straight line basis.

#### (12) <u>Impairment of non-financial assets</u>

The Company assesses at each balance sheet date the recoverable amounts of those assets where there is an indication that they are impaired. An impairment loss is recognized for the amount by which the asset's carrying amount exceeds its recoverable amount. The recoverable amount is the higher of an asset's fair value less costs to sell or value in use. When the circumstances or reasons for recognizing impairment loss for an asset in prior years no longer exist or diminish, the impairment loss is reversed. The increased carrying amount due to reversal should not be more than what the depreciated or amortized historical cost would have been if the impairment had not been recognized.

#### (13) Derecognition of financial liabilities

A financial liability is derecognized when the obligation under the liability specified in the contract is discharged or cancelled or expires.

#### (14) Offsetting financial instruments

Financial assets and liabilities are offset and reported in the net amount in the balance sheet when there is a legally enforceable right to offset the recognized amounts and there is an intention to settle on a net basis or realize the asset and settle the liability simultaneously.

#### (15) Employee benefits

#### A. Short-term employee benefits

Short-term employee benefits are measured at the undiscounted amount of the benefits expected to be paid in respect of service rendered by employees in a period and should be recognized as expense in that period when the employees render service.

#### B. Employees' compensation and directors' and supervisors' remuneration

Employees' compensation and directors' and supervisors' remuneration are recognized as expenses and liabilities, provided that such recognition is required under legal or constructive obligation and those amounts can be reliably estimated. Any difference between the resolved amounts and the subsequently actual distributed amounts is accounted for as changes in estimates. If employee compensation is distributed by shares, the Company calculates the numbers of shares based on the closing price at the previous day of the board meeting resolution.

#### (16) Employee share-based payment

For the equity-settled share-based payment arrangements, the employee services received are measured at the fair value of the equity instruments granted at the grant date, and are recognized as compensation cost over the vesting period, with a corresponding adjustment to equity. The fair value of the equity instruments granted shall reflect the impact of market vesting conditions and vesting conditions. Compensation cost is subject to adjustment based on the service conditions that are expected to be satisfied and the estimates of the number of equity instruments that are expected to vest under the non-market vesting conditions at each balance sheet date. Ultimately, the amount of compensation cost recognized is based on the number of equity instruments that

eventually vest.

#### (17) Income tax

- A. The tax expense for the period comprises current and deferred tax. Tax is recognized in profit or loss, except to the extent that it relates to items recognized in other comprehensive income or items recognized directly in equity.
- B. The current income tax expense is calculated on the basis of the tax laws enacted or substantively enacted at the balance sheet date in the countries where the Company and its subsidiaries operate and generate taxable income. Management periodically evaluates positions taken in tax returns with respect to situations in accordance with applicable tax regulations. It establishes provisions where appropriate based on the amounts expected to be paid to the tax authorities. An additional tax is levied on the unappropriated retained earnings and is recorded as income tax expense in the year the stockholders resolve to retain the earnings.
- C. Deferred tax is recognized, using the balance sheet liability method, on temporary differences arising between the tax bases of assets and liabilities and their carrying amounts in the parent company only balance sheet. However, the deferred tax is not accounted for if it arises from initial recognition of goodwill or of an asset or liability in a transaction other than a business entity that at the time of the transaction affects neither accounting nor taxable profit or loss. Deferred tax is provided on temporary differences arising on investments in subsidiaries, except where the timing of the reversal of the temporary difference is controlled by the Company and it is probable that the temporary difference will not reverse in the foreseeable future. Deferred tax is determined using tax rates (and laws) that have been enacted or substantially enacted by the balance sheet date and are expected to apply when the related deferred income tax asset is realised or the deferred income tax liability is settled.
- D. Deferred tax assets are recognized only to the extent that it is probable that future taxable profit will be available against which the temporary differences can be utilized. At each balance sheet date, unrecognized and recognized deferred tax assets are reassessed.
- E. Current income tax assets and liabilities are offset and the net amount reported in the balance sheet when there is a legally enforceable right to offset the recognized amounts and there is an intention to settle on a net basis or realize the asset and settle the liability simultaneously. Deferred income tax assets and liabilities are offset on the balance sheet when the entity has the legally enforceable right to offset current tax assets against current tax liabilities and they are levied by the same taxation authority on either the same entity or different entities that intend to settle on a net basis or realize the asset and settle the liability simultaneously.

#### (18) Share capital

- A. Ordinary shares are classified as equity. Incremental costs directly attributable to the issue of new shares or stock options are shown in equity as a deduction, net of tax, from the proceeds.
- B. Where the Company repurchases the Company's equity share capital that has been issued, the

consideration paid, including any directly attributable incremental costs (net of income taxes) is deducted from equity attributable to the Company's equity holders. Where such shares are subsequently reissued, the difference between their book value and any consideration received, net of any directly attributable incremental transaction costs and the related income tax effects, is included in equity attributable to the Company's equity holders.

#### (19) Dividends

Dividends are recorded in the Company's financial statements in the period in which they are resolved by the Company's shareholders. Cash dividends are recorded as liabilities; stock dividends are recorded as stock dividends to be distributed and are reclassified to ordinary shares on the effective date of new shares issuance.

#### (20) Business combinations and organization restructuring

- A. The Company uses the acquisition method to account for business combinations. The consideration transferred for an acquisition is measured as the fair value of the assets transferred, liabilities incurred or assumed and equity instruments issued at the acquisition date, plus the fair value of any assets and liabilities resulting from a contingent consideration arrangement. All acquisition-related costs are expensed as incurred. Identifiable assets acquired and liabilities and contingent liabilities assumed in a business combination are measured initially at their fair values at the acquisition date. There is a choice on an acquisition-by-acquisition basis to measure the non-controlling interest in the acquiree either at fair value or at the non-controlling interest's proportionate share of the acquiree's identifiable net assets.
- B. If the total of the fair values of the consideration of acquisition and any non-controlling interest in the acquiree as well as the previous equity interest in the acquiree is higher than the fair value of the Company's identifiable assets acquired and obligations borne, goodwill is recognized at the acquisition-date. If the fair value of the Company's identifiable assets acquired and obligations borne is higher than the total of the fair values of the consideration of acquisition, non-controlling interest in the acquiree, as well as previous equity interest in the acquire, the difference is recognized in profit or loss for the period at the acquisition date.
- C. The newly established investment holding company through share swap is jointly controlled under business combination. Under regulations of competent authority, the investment holding company is recorded at the carrying value and is included in the consolidated financial statements at the date of establishment.

### 5. <u>CRITICAL ACCOUNTING JUDGEMENTS</u>, <u>ESTIMATES AND KEY SOURCES OF</u> <u>ASSUMPTION UNCERTAINTY</u>

The preparation of these financial statements requires management to make critical judgements in applying the Company's accounting policies and make critical assumptions and estimates concerning future events. Assumptions and estimates may differ from the actual results and are continually evaluated and adjusted based on historical experience and other factors. The judgment and

assumptions made by the Company in applying its accounting policies and concerning future events do not involve significant risk of causing material adjustment to the carrying amounts of assets and liabilities within the next financial year.

The Company has no uncertainty on critical judgements, estimates and assumptions of accounting policies.

#### 6. <u>DETAILS OF SIGNIFICANT ACCOUNTS</u>

#### (1) Cash and cash equivalents

|                                       | Decen | nber 31, 2018 | Decer | mber 31, 2017 |
|---------------------------------------|-------|---------------|-------|---------------|
| Checking accounts and demand deposits | \$    | 5,995         | \$    | 153,575       |
| Time deposits                         |       | 140,000       |       | -             |
| Repurchased bonds                     |       | _             |       | 300,020       |
| Total                                 | \$    | 145,995       | \$    | 453,595       |

- A. The Company transacts with a variety of financial institutions all with high credit quality to disperse credit risk, so it expects that the probability of counterparty default is remote.
- B. The Company has no cash and cash equivalents pledged to others.

#### (2) Financial assets at fair value through other comprehensive income

| Items                |    | ber 31, 2018 |
|----------------------|----|--------------|
| Non-current items:   |    |              |
| Equity instruments   |    |              |
| Listed stocks        | \$ | 134,657      |
| Unlisted stocks      |    | 319,822      |
| Subtotal             |    | 454,479      |
| Valuation adjustment | (  | 24,784)      |
| Total                | \$ | 429,695      |

- A. The Company recognized (\$23,711) in other comprehensive loss for fair value change for the year ended December 31, 2018.
- B. The Company has elected to designate the above investments, which were held mainly for medium to long-term trading purposes, as investments in equity instruments measured at fair value through other comprehensive income. As of December 31, 2018, the fair value of investments was \$429,695.
- C. The Company received dividend income of \$6,828 for the year ended December 31, 2018.

## (3) <u>Available-for-sale financial assets</u>

| Items  | Decem | ber 31, 2017 |
|--|-------|--------------|
| Non-current items:                                 |       |              |
| Unlisted stocks                                    | \$    | 7,500        |
| Adjustments of available-for-sale financial assets | (     | 1,073)       |
| Total  | \$    | 6,427        |

The Company recognized (\$1,073) in other comprehensive loss for fair value change for the year ended December 31, 2017.

#### (4) <u>Investments accounted for under the equity method</u>

A.

| Investee company                       | December 31, 2018 |            | Dece | ember 31, 2017 |
|--|-------------------|------------|------|----------------|
| Subsidiaries                           |                   |            |      |                |
| Mitac International Corporation        | \$                | 31,508,825 | \$   | 29,443,145     |

| January 1                | \$                | 673                                  | \$ | 1,407  |
| Additions                |                   | 3,980                                |    | -      |
| Depreciation             | (                 | 673)                                 | (  | 734)   |
| December 31              | \$                | 3,980                                | \$ | 673    |
| December 31              |                   |                                      |    |        |
| Cost                     |                   | 3,980                                |    | 3,670  |
| Accumulated depreciation |                   | <u> </u>                             | (  | 2,997) |
| Total                    | \$                | 3,980                                | \$ | 673    |

#### (6) Share-based payment

A. As of December 31, 2018 and 2017, the Company's share-based payment arrangements were as follows

| Type of        |            | Quantity<br>granted   | Contract |  |
|----------------|------------|-----------------------|----------|--|
| arrangement    | Grant date | (shares in thousands) | period   | Vesting conditions                           |
| Eleventh stock | 2012.10.11 | 19,375                | 6 years  | 50% can be exercised after 2 years of grant  |
| option         |            | (Note 1)              |          | 75% can be exercised after 3 years of grant  |
| incentive plan |            |                       |          | 100% can be exercised after 4 years of grant |

Note: According to the resolution on share conversion, the Company had the performance obligation of stock option certificates issued by MiTAC International Corp. under the authorisation of competent authority from the effective date, and adjusted the conversion price and quantity.

B. A summary of the movements of the Company's stock option plans is set forth below:

|  | For the year ended December 31, 2018 |                  | For the year ended December 31, 2017 |                  |  |
|--|--------------------------------------|------------------|--------------------------------------|------------------|--|
|  |                                      | Weighted avarage |                                      | Weighted avarage |  |
|  | No of options                        | exercise price   | No of options                        | exercise price   |  |
|  | (shares in thousands)                | (in dollars)     | (shares in thousands)                | (in dollars)     |  |
| Options outstanding at   |                                      |                  |                                      |                  |  |
| beginning of the period  | 6,261                                | \$ 16.30         | 9,956                                | \$ 17.40         |  |
| Options forfeited  | ( 1,941)                             | 13.71            | ( 298)                               | 17.40            |  |

| Options outstanding at end of the period                           |                                      |                  | 6,261                                | 16.30            |  |
| Options exercisable at end of the period                           |                                      |                  | 6,261                                |                  |  |
| Options approved and<br>not yet issued at the<br>end of the period |                                      |                  |                                      |                  |  |

- C. The weighted-average stock price of stock options at exercise dates for the years ended December 31, 2018 and 2017 were \$33.05 (in dollars) and \$33.52 (in dollars), respectively.
- D. As of December 31, 2018 and 2017, outstanding compensatory employee stock option plan is as follows:

As of December 31, 2018: None.

As of December 31, 2017

|                         | Number of options outstanding at the end of the year |                                |                |  |  |  |  |
|-------------------------|--|--------------------------------|----------------|--|--|--|--|
|                         |  | Expected weighted Weighted ave |                |  |  |  |  |
| Range of exercise price | In thousands   | average residual               | exercise price |  |  |  |  |
| (in dollars)(Note)      | of shares  | year                           | (in dollars)   |  |  |  |  |
| \$16.30                 | 6,261  | 0.75                           | \$16.30        |  |  |  |  |

Note: The exercise price had been adjusted according to the ratio of share conversion.

E. Information about the fair value of the Company's shared-based payment transactions:

The fair values of stock options are measured using the Black-Scholes option-pricing model:

|                      |            |                |                | Expected            |                      |           |                    | Fair value               |
|----------------------|------------|----------------|----------------|---------------------|----------------------|-----------|--------------------|--------------------------|
| Type of              | Grant      | Stock<br>price | Exercise price | price<br>volatility | Expected option life | Expected  | Risk-free interest | per unit<br>(in dollars) |
| arrangement          | date       | (in dollars)   | (in dollars)   | (Note 1)            | (year)               | dividends | rate               | (Note 2)                 |
| Eleventh<br>employee | 2012.10.11 | 10.15          | 10.15          | 36.14%              | 3.47                 | 0%        | 0.88%              | 2.79                     |

Note 1: Expected price volatility rate was estimated by using the stock prices of the most recent period with length of this period equal as the length of the stock options' expected life, excluding obvious irregularities of changes in stock prices for the observation amount while considering the effect of the appropriation of retained earnings on the transaction price of stocks to calculate expected price volatility rate.

Note 2: Information of fair value from the original issuance by MiTAC International Corp.

F. Expenses incurred on share-based payment transactions for the years ended December 31, 2018 and 2017: None.

#### (7) Share capital

A. As of December 31, 2018, the Company's authorized capital was \$11,000,000, consisting of 1.1 billion shares, and the paid-in capital was \$9,367,677 with a par value of \$10 per share.

Movements in the number of the Company's ordinary shares outstanding are as follows:

#### Unit: in thousands of shares

|  |   | 2018    | 2017    |
|--|---|---------|---------|
| Outstanding shares as of January 1             |   | 798,732 | 795,335 |

- (b) Pursuant to the R.O.C. Securities and Exchange Act, the number of shares bought back as treasury shares should not exceed 10% of the number of the Company's issued and outstanding shares and the amount bought back should not exceed the sum of retained earnings, paid-in capital in excess of par value and realized capital surplus.
- (c) Pursuant to the R.O.C. Securities and Exchange Act, treasury stock should not be pledged as collateral and is not entitled to dividends before it is reissued to the employees.
- (d) Pursuant to the R.O.C. Securities and Exchange Act, treasury shares should be reissued to the employees within three years from the reacquisition date and shares not reissued within the three-year period are to be retired. Treasury shares to enhance the Company's credit rating and the stockholders' equity should be retired within six months of acquisition. The numbers of treasury stock for being transferred to employees that were retired during the year ended December 31, 2018, were 8,244 thousand shares.

(e) In accordance with the Financial Supervisory Commission, Securities and Futures Bureau, No.1010047490, the Company shall not appropriate special reserve proportionately to the shareholding ratio for the difference of ending market price below the carrying amount of the parent's stock held by the subsidiaries. If the market price reverses subsequently, the reversal amount shall be appropriated as special reserve proportionately to the shareholding ratio.

| Changes from associates<br>and joint ventures<br>accounted for using<br>the equity method | -                | -                                | 36,905  | -                      | 36,905        |
| Subsidiaries received cash dividends paid by the parent company                           | _                | 30,029                           |   | _                      | 30,029        |
| At December 31, 2017  | \$ 21,716,203    | \$ 223,734                       | \$ 226,836  | \$ 370,918             | \$ 22,537,691 |
|   |                  |                                  |   |                        |               |

Pursuant to the R.O.C. Company Act, capital surplus arising from paid-in capital in excess of par value on issuance of common stocks and donations can be used to cover accumulated deficit or to issue new stocks or cash to shareholders in proportion to their share ownership, provided that the

Company has no accumulated deficit. Further, the R.O.C. Securities and Exchange Act requires that the amount of capital surplus to be capitalized mentioned above should not exceed 10% of the paid-in capital each year. Capital surplus should not be used to cover accumulated deficit unless the legal reserve is insufficient.

#### (9) Retained earnings

- A. Under the Company's Articles of Incorporation, the current year's earnings, if any, shall first be used to pay all taxes and offset prior years' operating losses and then 10% of the remaining amount shall be set aside as legal reserve. Special reserve shall also be set aside pursuant to the regulations. Appropriation of the remainder plus prior year's accumulated unappropriated retained earnings shall be proposed by the Board of Directors and resolved by the stockholders.
- B. Earnings appropriation ratio and cash dividends ratio are decided by the Board of Directors, taking into account the Company's financial structure, future capital requirements and profitability, and cash dividends shall account for at least 10% of the total dividends appropriated. Earnings appropriation ratio and cash dividends ratio are subject to adjustments once approved by the stockholders.
- C. Except for covering accumulated deficit or issuing new stocks or cash to shareholders in proportion to their share ownership, the legal reserve shall not be used for any other purpose. The use of legal reserve for the issuance of stocks or cash to shareholders in proportion to their share ownership is permitted, provided that the distribution of the reserve is limited to the portion in excess of 25% of the Company's paid-in capital.
- D. In accordance with the regulations, the Company shall set aside special reserve from the debit balance on other equity items at the balance sheet date before distributing earnings. When debit balance on other equity items is reversed subsequently, the reversed amount could be included in the distributable earnings.
- E. On June 22, 2018, the appropriation of earnings for the year ended December 31, 2017 resolved by the shareholders was as follows:

|                | For       | For the year ended December 31, 2017 |          |           |  |

- A. According to the amended articles, the profit (pre-tax profit before deduction of employees' compensation and directors' and supervisors' remuneration) of the current year shall be distributed as employees' compensation and directors' and supervisors' remuneration, which will be resolved by the Board of Directors. The ratio shall not be lower than 0.1% for employees and not be higher than 1% for directors and supervisors. If a company has accmulated deficit, earnings should be reserved to cover losses. Employees' compensation can be distributed in cash or shares and shall be distributed to the employees of subsidiaries of the Company who meet certain specific requirements. The chairman of the Board is authorized to set the qualification requirements.
- B. For the years ended December 31, 2018 and 2017, employees' compensation was accrued at 0.1% of gain on pre-tax profit before deduction of employees' compensation and directors' and supervisors' remuneration. Directors' and supervisors' remuneration were accrued under 1% of gain on pre-tax profit before deduction of employees' compensation and directors' and supervisors' remuneration.
- C. For the years ended December 31, 2018 and 2017, employees' compensation was accrued at \$3,313 and \$2,639, respectively; and directors' and supervisors' remuneration was accrued at \$3,600 and \$5,400, respectively. The aforementioned amounts were recognized in salary expenses. Employees' cash bonus and directors' and supervisors' remuneration of 2018 and 2017 as resolved at the Board of Directors of the Company were in agreement with those amounts recognized in the 2018 and 2017 parent company only financial statements.

D. Information about employees' compensation and directors' and supervisors' remuneration of the Company as resolved by the Board of Directors and the shareholders at the shareholders' meeting will be posted in the "Market Observation Post System" at the website of the Taiwan Stock Exchange.

|  | \$    | 458,343       | \$                | 1,532,836 |  |

#### B. Financial risk management policies

The Company's activities expose it to a variety of financial risks: market risk (including foreign exchange risk, interest rate risk and price risk), credit risk and liquidity risk. The Company's overall risk management programme focuses on the unpredictability of financial markets and seeks to minimize potential adverse effects on the Company's financial position and financial performance.

#### C. Significant financial risks and degrees of financial risks

#### (a) Market risk

#### Price risk

- i. The Company's equity securities, which are exposed to price risk, are the held financial assets at fair value through profit or loss and available-for-sale financial assets. To manage its price risk arising from investments in equity securities, the Company diversifies its portfolio. Diversification of the portfolio is done in accordance with the limits set by the Company.
- ii.The Company's investments in equity securities comprise domestic listed and unlisted stocks. The prices of equity securities would change due to the change of the future value of investee companies. If the prices of these equity securities had increased/decreased by 1% with all other variables held constant, other components of equity would have increased/decreased by \$4,297 and \$64 for the years ended December 31, 2018 and 2017, respectively, as a result of gains/losses on equity securities classified as at fair value through other comprehensive income and available-for-sale.

#### (b) Credit risk

- i. Credit risk refers to the risk of financial loss to the Company arising from default by the clients or counterparties of financial instruments on the contract obligations. The main factor is that counterparties could not repay in full the accounts receivable based on the agreed terms, and the contract cash flows of financial instruments settled based on the agreement.
- ii. For banks and financial institutions, only the institutions with good credit quality are accept as counterparties.

#### (c) Liquidity risk

- i. Cash flow forecasting is performed in the operating entities of the Company and aggregated by Company treasury. Group treasury monitors rolling forecasts of the Company's liquidity requirements to ensure it has sufficient cash to meet operational needs.
- ii. The table below analyses the Company's non-derivative financial liabilities and net-settled or gross-settled derivative financial liabilities into relevant maturity groupings based on the remaining period at the balance sheet date to the contractual maturity date for non-derivative financial liabilities and to the expected maturity date for derivative

financial liabilities. The amounts disclosed in the table are the contractual undiscounted cash flows.

#### Non-derivative financial liabilities:

|                   | Less than    | Between 1  | Between 2   | Over    |
|-------------------|--------------|------------|-------------|---------|
| December 31, 2018 | 1 year       | and 2 year | and 3 years | 3 years |
| Other payables    | \$ 458,343   | \$ -       | \$ -        | \$ -    |
|                   | Less than    | Between 1  | Between 2   | Over    |
| December 31, 2017 | 1 year       | and 2 year | and 3 years | 3 years |
| Other payables    | \$ 1,532,836 | \$ -       | \$ -        | \$ -    |

#### (3) Fair value information

- A. The different levels that the inputs to valuation techniques are used to measure fair value of financial instruments have been defined as follows:
  - Level 1: Quoted prices (unadjusted) in active markets for identical assets or liabilities.
  - Level 2: Inputs other than quoted prices included within level 1 that are observable for the asset or liability, either directly (that is, as prices) or indirectly (that is, derived from prices).
  - Level 3: Inputs for the asset or liability that are not based on observable market data.
- B. Financial instruments not measured at fair value

The carrying amounts of cash and cash equivalents, other receivables and other payables are approximate to their fair values.

- C. The related information of financial and non-financial instruments measured at fair value by level on the basis of the nature, characteristics and risks of the assets and liabilities at December 31, 2018 and 2017 is as follows:
  - (a) The related information of natures of the assets and liabilities is as follows:

| December 31, 2018                 | Level 1    | Level 2    | Level 3   | Total      |
|-----------------------------------|------------|------------|-----------|------------|
| Recurring fair value measurements |            |            |           |            |
| Equity securities                 | \$ 112,975 | \$ 267,317 | \$ 49,403 | \$ 429,695 |
| December 31, 2017                 | Level 1    | Level 2    | Level 3   | Total      |
| Recurring fair value measurements |            |            |           |            |
| Equity securities                 | \$ -       | \$ 6,427   | \$ -      | \$ 6,427   |

- (b) The methods and assumptions the Company used to measure fair value are as follows:
  - i. The instruments the Company used market quoted prices as their fair values (that is, Level 1) are listed below by characteristics:

|                     | Listed shares |
|---------------------|---------------|
| Market quoted price | Closing price |

ii. Except for financial instruments with active markets, the fair value of other financial instruments is measured by using valuation techniques or by reference to counterparty quotes.

- iii. When assessing non-standard and low-complexity financial instruments, the Company adopts valuation technique that is widely used by market participants. The inputs used in the valuation method to measure these financial instruments are normally observable in the market.
- iv. The output of valuation model is an estimated value and the valuation technique may not be able to capture all relevant factors of the Company's financial and non-financial instruments. Therefore, the estimated value derived using valuation model is adjusted accordingly with additional inputs, for example, model risk or liquidity risk and etc. In accordance with the Company's management policies and relevant control procedures relating to the valuation models used for fair value measurement, management believes adjustment to valuation is necessary in order to reasonably represent the fair value of financial and non-financial instruments at the parent company only balance sheet. The inputs and pricing information used during valuation are carefully assessed and adjusted based on current market conditions.
- v. The Company takes into account adjustments for credit risk to measure the fair value of financial and non-financial instruments to reflect credit risk of the counterparty and the Company's credit quality.
- D. For the years ended December 31, 2018 and 2017, there was no transfer between Level 1 and Level 2.
- E. The following table presents the changes in level 3 instruments as at December 31, 2018 and 2017:

|                          | Equity securities |           |      |   |  |  |
|--------------------------|-------------------|-----------|------|---|--|--|
|                          | 2018              |           | 2017 |   |  |  |
| January 1                | \$                | - \$      |      | - |  |  |
| Current purchase         |                   | 50,322    |      | - |  |  |
| Loss recognized in other |                   |           |      |   |  |  |
| comprehensive income     | (                 | 919)      |      |   |  |  |
| December 31              | \$                | 49,403 \$ |      |   |  |  |
|                          |                   |           |      |   |  |  |

F. Investment department is in charge of valuation procedures for fair value measurements being categorized within Level 3, which is to verify independent fair value of financial instruments. Such assessment is to ensure the valuation results are reasonable by applying independent information to make results close to current market conditions, and reviewing the information periodically.

G. The following is the qualitative information of significant unobservable inputs and sensitivity analysis of changes significant unobservable inputs to valuation model used in Level 3 fair value measurements:

| Non-derivative Fair value at |       | Valuation       | Significant     | Range (weighted    | Relationship of                                |                      |  |
|------------------------------|-------|-----------------|-----------------|--------------------|--|----------------------|--|
| equity instrument:           | Decem | iber 31, 2018   | technique       | unobservable input | average)                                       | inputs to fair value |  |
| Unlisted shares \$ 49,403    |       | Net asset value | Net asset value | -                  | The higher the net asset value, the higher the |                      |  |
|                              |       |                 |                 |                    |  | fair value.          |  |

H. The Company has carefully assessed the valuation models and assumptions used to measure fair value; therefore, the fair value measurement is reasonable. However, use of different valuation models or assumptions may result in difference measurement. The following is the effect of profit or loss or of other comprehensive income from financial assets and liabilities categorized within Level 3 if the inputs used to valuation models have changed:

(4) Effects on initial application of IFRS 9 and information on application of IAS 39 in 2017

The reconciliations of carrying amount of financial assets transfered from December 31, 2017, IAS

39, to January 1, 2018, IFRS 9, were as follows:

|  | Available-for-sale-equity           |        |        | Effects     |     |           |  |
|--|-------------------------------------|--------|--------|-------------|-----|-----------|--|
|  | through other comprehensive income- |        |        |             | Oth | er equity |  |
|  |                                     | equity | Retain | ed earnings | i1  | nterest   |  |
| IFRS9/IAS 39   | \$                                  | 6,427  | \$     |             | \$  | _         |  |
| Investments accounted for using equity method adjustment |                                     |        | \$     | 214,703     | (\$ | 60,524)   |  |

- A. Under IAS 39, because the equity instruments, which were classified as: available-for-sale financial assets, amounting to \$6,427, were not held for the purpose of trading, they were reclassified as "financial assets at fair value through other comprehensive income" on initial application of IFRS 9.
- B. The Company recognised investments accounted for using equity method to increase retained earnings and decrease other equity interest by \$214,703 and \$60,524, respectively, under effect on initial application of IFRS 9.

### 13. <u>SUPPLEMENTARY DISCLOSURES</u> (refer to p. 193-194 and p.197-208.)

- (1) Significant transactions information
  - A. Loans to others: Please refer to table 1.
  - B. Provision of endorsements and guarantees to others: Please refer to table 2.
  - C. Holding of marketable securities at the end of the period (not including subsidiaries, associates and joint ventures): Please refer to table 3.
