MITAC HOLDINGS CORPORATION AND SUBSIDIARIES
CONSOLIDATED FINANCIAL STATEMENTS AND INDEPENDENT AUDITORS' REPORT
DECEMBER 31, 2024 AND 2023

For the convenience of readers and for information purpose only, the auditors' report and the accompanying financial statements have been translated into English from the original Chinese version prepared and used in the Republic of China. In the event of any discrepancy between the English version and the original Chinese version or any differences in the interpretation of the two versions, the Chinese-language auditors' report and financial statements shall prevail.

#### MiTAC HOLDINGS CORPORATION AND SUBSIDIARIES

#### Declaration of Consolidated Financial Statements of Affiliated Enterprises

In connection with the Consolidated Financial Statements of Affiliated Enterprises of Mitac Holding Corporation (the "Consolidated FS of the Affiliates"), we represent to you that, the entities required to be included in the Consolidated FS of the Affiliates as of and for the year ended December 31, 2024 in accordance with the "Criteria Governing Preparation of Affiliation Reports, Consolidated Business Reports and Consolidated Financial Statements of Affiliated Enterprises" are the same as those required to be included in the Consolidated Financial Statements of Mitac Holding Corporation and its subsidiaries (the "Consolidated FS of the Group") in accordance with International Financial Reporting Standard 10. Additionally, the information required to be disclosed in the Consolidated FS of Affiliates is disclosed in the Consolidated FS of the Group. Consequently, Mitac Holding Corporation does not prepare a separate set of Consolidated FS of Affiliates.

Very truly yours,

Matthew Feng-Chiang Miau Chairman of MiTAC HOLDINGS CORPORATION March 4, 2025

#### INDEPENDENT AUDITORS' REPORT

PWCR24000494

To the Board of Directors and Shareholders of MiTAC Holdings Corporation

#### **Opinion**

We have audited the accompanying consolidated balance sheets of MiTAC Holdings Corporation and its subsidiaries (the "Group") as at December 31, 2024 and 2023, and the related consolidated statements of comprehensive income, of changes in equity and of cash flows for the years then ended, and notes to the consolidated financial statements, including a summary of material accounting policies.

In our opinion, the accompanying consolidated financial statements present fairly, in all material respects, the consolidated financial position of the Group as at December 31, 2024 and 2023, and its consolidated financial performance and its consolidated cash flows for the years then ended in accordance with the Regulations Governing the Preparation of Financial Reports by Securities Issuers and the International Financial Reporting Standards, International Accounting Standards, IFRIC Interpretations, and SIC Interpretations that came into effect as endorsed by the Financial Supervisory Commission.

#### Basis for opinion

We conducted our audits in accordance with the Regulations Governing Financial Statements Audit and Attestation Engagements of Certified Public Accountants and the Standards on Auditing of the Republic of China. Our responsibilities under those standards are further described in the *Auditor's Responsibilities for the Audit of the Consolidated Financial Statements* section of our report. We are independent of the Group in accordance with the Norm of Professional Ethics for Certified Public Accountants in the Republic of China, and we have fulfilled our other ethical responsibilities

in accordance with these requirements. Based on our audits and the reports of the other auditors, we believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

#### Key audit matters

Key audit matters are those matters that, in our professional judgement, were of most significance in our audit of the Group's 2024 consolidated financial statements. These matters were addressed in the context of our audit of the consolidated financial statements as a whole and, in forming our opinion thereon, we do not provide a separate opinion on these matters.

Key audit matters for the Group's 2024 consolidated financial statements are stated as follows:

#### **Sales revenue recognition**

#### **Description**

For accounting policies on sales revenue recognition, please refer to Note 4(33). Considering that the sales revenue are material to its financial statements, the types of products and sales terms are various, the timing of revenue recognition can only be determined when the controls of ownership for products are transferred to the customers based on contract terms of each different customer. Thus, we identified the sales revenue recognition as a key audit matter

#### How our audit addressed the matter

We conducted audit procedures, including: discussed with management and evaluated the policy of revenue recognition; assessed the effectiveness of design and implementation of internal controls over recognition of revenue; test sampled the sales transactions including their terms, performance obligations, and prices and verified the supporting documents for deliveries to ensure the proper timing and amounts of recognition; selected sales transactions for a specific period prior to and after the balance sheet date and verified transaction documents to ensure sales revenue are recorded in the proper period.

#### **Valuation of inventory**

#### Description

The Group is mainly engaged in manufacturing and selling computers, computer peripherals and communications products. Due to rapid technological innovations and fluctuations in market demands, there is a higher risk of inventory obsolescence. The Group's inventories are measured at the lower of costs and net realisable values. For a description of accounting policies on valuation of inventories, please refer to Note 4(14), and for uncertainty of accounting estimates and assumptions in relation to valuation of inventories, please refer to Note 5(2). Considering that the Group's inventories were material to the consolidated financial statements and with various categories, and the valuation process was subject to management's judgement, it was identified as a key audit matter.

#### How our audit addressed the matter

We performed audit procedures, including: discussed with management and evaluated the policy of inventory valuation, validated inventory aging report through checking the logic of calculating aged inventories and confirming the appropriateness of categorization of aged inventories; and validated the basis in determining net realizable values of obsolete or slow-moving inventories in order to evaluate the reasonableness of allowance for inventory valuation losses.

#### Other matter - Parent company only financial reports

We have audited and expressed an unmodified opinion with emphasis of matter paragraph and an unmodified opinion with emphasis of matter paragraph and other matter paragraph on the parent company only financial statements of MiTAC Holdings Corporation as at and for the years ended December 31, 2024 and 2023, respectively.

## Responsibilities of management and those charged with governance for the consolidated financial statements

Management is responsible for the preparation and fair presentation of the consolidated financial statements in accordance with the "Regulations Governing the Preparation of Financial Reports by Securities Issuers" and the International Financial Reporting Standards, International Accounting

Standards, IFRIC Interpretations, and SIC Interpretations that came into effect as endorsed by the Financial Supervisory Commission, and for such internal control as management determines is necessary to enable the preparation of consolidated financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the consolidated financial statements, management is responsible for assessing the Group's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Group or to cease operations, or has no realistic alternative but to do so.

Those charged with governance, including the audit committee, are responsible for overseeing the Group's financial reporting process.

#### Auditors' responsibilities for the audit of the consolidated financial statements

Our objectives are to obtain reasonable assurance about whether the consolidated financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with the Standards on Auditing of the Republic of China will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these consolidated financial statements.

As part of an audit in accordance with the Standards on Auditing of the Republic of China, we exercise professional judgement and professional skepticism throughout the audit. We also:

1. Identify and assess the risks of material misstatement of the consolidated financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery,

- intentional omissions, misrepresentations, or the override of internal control.
- 2. Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Group's internal control.
- 3. Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- 4. Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Group's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditors' report to the related disclosures in the consolidated financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Group to cease to continue as a going concern.
- 5. Evaluate the overall presentation, structure and content of the consolidated financial statements, including the disclosures, and whether the consolidated financial statements represent the underlying transactions and events in a manner that achieves fair presentation.
- 6. Obtain sufficient appropriate audit evidence regarding the financial information of the entities or business activities within the Group to express an opinion on the consolidated financial statements. We are responsible for the direction, supervision and performance of the group audit. We remain solely responsible for our audit opinion.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the consolidated financial statements of the current period and are therefore the key audit matters. We describe these matters in our independent auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

Liu, Chien-Yu Li, Tien-Yi

For and on behalf of PricewaterhouseCoopers, Taiwan March 4, 2025

\_\_\_\_\_\_

The accompanying consolidated financial statements are not intended to present the financial position and results of operations and cash flows in accordance with accounting principles generally accepted in countries and jurisdictions other than the Republic of China. The standards, procedures and practices in the Republic of China governing the audit of such financial statements may differ from those generally accepted in countries and jurisdictions other than the Republic of China. Accordingly, the accompanying consolidated financial statements and independent auditors' report are not intended for use by those who are not informed about the accounting principles or auditing standards generally accepted in the Republic of China, and their applications in practice.

# MITAC HOLDINGS CORPORATION AND SUBSIDIARIES NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS FOR THE YEARS ENDED DECEMBER 31, 2024 AND 2023

(Expressed in thousands of New Taiwan dollars, except as otherwise indicated)

#### 1. HISTORY AND ORGANISATION

- (1) MiTAC Holdings Corporation (the "Company") was established by MiTAC International Corp. ("MiTAC International") through a share conversion on September 12, 2013, and on the same date, the competent authority has approved for the Company's shares to be listed on the Taiwan Stock Exchange (TWSE). MiTAC International became the Company's whollyowned subsidiary after conversion. The main business of the Company and its subsidiaries (collectively referred herein as the "Group") is to design, manufacture and sell products related to investments, computers and its peripherals and communications.
- (2) In order to promote specialization of work for transforming and improving overall competitiveness of the Group, the Board of Directors of its subsidiary, MiTAC International, has resolved to divest its cloud computing products group to the newly established company, MiTAC Computing Technology Corporation (collectively referred herein as the "MiTAC Computing Technology") on the spin-off day, September 1, 2014. In addition, in 2017, the Board of Directors of MiTAC International has resolved to divest its mobile communication products group to the newly established company, MiTAC Digital Technology Corporation (collectively referred herein as the "MiTAC Digital Technology") on the spin-off day, January 1, 2018. As a result, MiTAC International, MiTAC Computing Technology and MiTAC Digital Technology are the wholly-owned subsidiaries of the Company after the spin-off.

## 2. THE DATE OF AUTHORISATION FOR ISSUANCE OF THE CONSOLIDATED FINANCIAL STATEMENTS AND PROCEDURES FOR AUTHORISATION

These consolidated financial statements were authorised for issuance by the Board of Directors on March 4, 2025.

#### 3. APPLICATION OF NEW STANDARDS, AMENDMENTS AND INTERPRETATIONS

(1) Effect of the adoption of new issuances of or amendments to International Financial Reporting Standards ("IFRS") Accounting Standards that came into effect as endorsed by the Financial Supervisory Commission ("FSC")

New standards, interpretations and amendments endorsed by the FSC and became effective from 2024 are as follows:

	Effective date by
	International
	Accounting Standards
New Standards, Interpretations and Amendments	Board
Amendments to IFRS 16, 'Lease liability in a sale and leaseback'	January 1, 2024
Amendments to IAS 1, 'Classification of liabilities as current or	January 1, 2024
non-current'	
Amendments to IAS 1, 'Non-current liabilities with covenants'	January 1, 2024
Amendments to IAS 7 and IFRS 7, 'Supplier finance arrangements'	January 1, 2024
The above standards and interpretations have no significant impact	to the Group's financial
condition and financial performance based on the Group's assessmen	nt.

## (2) Effect of new issuances of or amendments to IFRS Accounting Standards as endorsed by the FSC but not yet adopted by the Group

New standards, interpretations and amendments endorsed by the FSC effective from 2025 are as follows:

	Effective date by
	International
	Accounting Standards
New Standards, Interpretations and Amendments	Board
Amendments to IFRS 21, 'Lack of exchangeability'	January 1, 2025

The above standards and interpretations have no significant impact to the Group's financial condition and financial performance based on the Group's assessment.

#### (3) IFRS Accounting Standards issued by IASB but not yet endorsed by the FSC

New standards, interpretations and amendments issued by IASB but not yet included in the IFRS Accounting Standards as endorsed by the FSC are as follows:

Effective date by

	Directive date by
	International
	Accounting Standards
New Standards, Interpretations and Amendments	Board
Amendments to IFRS 9 and IFRS 7, 'Amendments to the	January 1, 2026
classificationand measurement of financial instruments'	January 1, 2026
Amendments to IFRS 9 and IFRS 7, 'Contracts referencing nature-dependent electricity'	January 1, 2026
	To be determined by
Amendments to IFRS 10 and IAS 28, 'Sale or contribution of assets	International
between an investor and its associate or joint venture'	Accounting Standards
	Board
IFRS 17, 'Insurance contracts'	January 1, 2023
Amendments to IFRS 17, 'Insurance contracts'	January 1, 2023
Amendment to IFRS 17, 'Initial application of IFRS 17 and IFRS 9 –comparative information'	January 1, 2023
IFRS 18, 'Presentation and disclosure in financial statements	January 1, 2027
IFRS 19, 'Subsidiaries without public accountability: disclosures'	January 1, 2027
Annual Improvements to IFRS Accounting Standards—Volume 11	January 1, 2026

For the above standards and interpretations, the Group is still continuing its evaluation and will disclose the results upon its completion.

#### 4. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The principal accounting policies applied in the preparation of these consolidated financial statements are set out below. These policies have been consistently applied to all the periods presented, unless otherwise stated.

#### (1) Compliance statement

These consolidated financial statements are prepared by the Group in accordance with the "Regulations Governing the Preparation of Financial Statements by Securities Issuers" and the International Financial Reporting Standards, International Accounting Standards, IFRIC Interpretations, and SIC Interpretations came into effect as endorsed by the FSC (collectively referred herein as the "IFRSs").

#### (2) Basis of preparation

- A. Except for the following items, these consolidated financial statements have been prepared under the historical cost convention:
  - (a) Financial assets and financial liabilities (including derivative instruments) at fair value through profit or loss.
  - (b) Financial assets and liabilities at fair value through other comprehensive income.
  - (c) Defined benefit liabilities recognised based on the net amount of pension fund assets and present value of defined benefit obligation.
- B. The preparation of financial statements in compliance with IFRSs requires the use of certain critical accounting estimates. It also requires management to exercise its judgement in the process of applying the Group's accounting policies. The areas involving a higher degree of judgement or complexity, or areas where assumptions and estimates are significant to the consolidated financial statements are disclosed in Note 5.

#### (3) Basis of consolidation

- A. Basis for preparation of consolidated financial statements:
  - (a) All subsidiaries are included in the Group's consolidated financial statements. Subsidiaries are all entities (including structured entities) controlled by the Group. The Group controls an entity when the Group is exposed, or has rights, to variable returns from its involvement with the entity and has the ability to affect those returns through its power over the entity. Consolidation of subsidiaries begins from the date the Group obtains control of the subsidiaries and ceases when the Group loses control of the subsidiaries.
  - (b) Inter-company transactions, balances and unrealised gains or losses on transactions between companies within the Group are eliminated. Accounting policies of

- subsidiaries have been adjusted where necessary to ensure consistency with the policies adopted by the Group.
- (c) Profit or loss and each component of other comprehensive income are attributed to the owners of the parent and to the non-controlling interests. Total comprehensive income is attributed to the owners of the parent and to the non-controlling interests even if this results in the non-controlling interests having a deficit balance.
- (d) Changes in a parent's ownership interest in a subsidiary that do not result in the parent losing control of the subsidiary (transactions with non-controlling interests) are accounted for as equity transactions, i.e. transactions with owners in their capacity as owners. Any difference between the amount by which the non-controlling interests are adjusted and the fair value of the consideration paid or received is recognised directly in equity.
- (e) When the Group loses control of a subsidiary, the Group remeasures any investment retained in the former subsidiary at its fair value. Any difference between fair value and carrying amount is recognised in profit or loss. All amounts previously recognised in other comprehensive income in relation to the subsidiary are reclassified to profit or loss on the same basis as would be required if the related assets or liabilities were disposed of. That is, when the Group loses control of a subsidiary, all gains or losses previously recognised in other comprehensive income in relation to the subsidiary should be reclassified from equity to profit or loss, if such gains or losses would be reclassified to profit or loss when the related assets or liabilities are disposed of.

Note 1: Disposal to non-controlling interests.

- C. Subsidiaries not included in the consolidated financial statements: None.
- D. Adjustments for subsidiaries with different balance sheet dates: None.
- E. Nature and extent of the restrictions on fund remittance from subsidiaries to the parent company: None.
- F. Subsidiaries that have non-controlling interests that are material to the Group: None.

#### (4) Foreign currency translation

Items included in the financial statements of each of the Group's entities are measured using the currency of the primary economic environment in which the entity operates (the "functional currency"). The consolidated financial statements are presented in New Taiwan Dollars, which is the Company's functional and the Group's presentation currency.

- A. Foreign currency transactions and balances
  - (a) Foreign currency transactions are translated into the functional currency using the exchange rates prevailing at the dates of the transactions or valuation where items are remeasured. Foreign exchange gains and losses resulting from the settlement of such

Note 2: New subsidiary added in the first quarter of 2024.

Note 3: New subsidiary added in the fourth quarter of 2024..

Note 4:The former Tyan Computer Corp. (USA) has changed its name to MiTAC Computing Technology USA Corporation in the third quarter of 2024 Note 5:Liquidation was completed in the third quarter of 2024.

Note 6:In the third quarter of 2024, MiTAC Technology UK Ltd. was completely liquidated, and thus MiTAC Computing Technology USA Corporation and MiTAC Information Systems Corp. were directly wholly owned by MiTAC Computing Technology Corp.

- transactions are recognised in profit or loss in the period in which they arise.
- (b) Monetary assets and liabilities denominated in foreign currencies at the period end are retranslated at the exchange rates prevailing at the balance sheet date. Exchange differences arising upon re-translation at the balance sheet date are recognised in profit or loss.
- (c) Non-monetary assets and liabilities denominated in foreign currencies held at fair value through profit or loss are re-translated at the exchange rates prevailing at the balance sheet date; their translation differences are recognised in profit or loss. Non-monetary assets and liabilities denominated in foreign currencies held at fair value through other comprehensive income are re-translated at the exchange rates prevailing at the balance sheet date; their translation differences are recognised in other comprehensive income. However, non-monetary assets and liabilities denominated in foreign currencies that are not measured at fair value are translated using the historical exchange rates at the dates of the initial transactions.

#### B. Translation of foreign operations

- (a) The operating results and financial position of all the group entities and associates that have a functional currency different from the presentation currency are translated into the presentation currency as follows:
  - i. Assets and liabilities for each balance sheet presented are translated at the spot exchange rate at the date of that balance sheet;
  - ii. Income and expenses for each statement of comprehensive income are translated at average exchange rates of that period.
  - iii. All resulting exchange differences are recognised in other comprehensive income.
- (b) When the foreign operation partially disposed of or sold is an associate, exchange differences that were recorded in other comprehensive income are proportionately reclassified to profit or loss as part of the gain or loss on sale. In addition, even when the Group retains partial interest in the former foreign associate after losing significant influence over the former foreign associate, such transactions should be accounted for as disposal of all interest in these foreign operations.
- (c) When the foreign operation partially disposed of or sold is a subsidiary, cumulative exchange differences that were recorded in other comprehensive income are proportionately transferred to the non-controlling interest in this foreign operation. In addition, even when the Group retains partial interest in the former foreign subsidiary after losing control of the former foreign subsidiary, such transactions should be accounted for as disposal of all interest in the foreign operation.
- (d) When the settlement of a monetary receivable form or payable to a foreign operation

is neither planned nor likely to occur in the foreseeable future, exchange differences arising from such a monetary item that are considered to from part of the netinvestment in the foreign operation are recognized in other comprehensive income.

#### (5) Classification of current and non-current items

- A. Assets that meet one of the following criteria are classified as current assets; otherwise they are classified as non-current assets:
  - (a) Assets arising from operating activities that are expected to be realized, or are intended to be sold or consumed within the normal operating cycle;
  - (b) Assets held mainly for trading purposes;
  - (c) Assets that are expected to be realized within twelve months from the balance sheet date;
  - (d) Cash and cash equivalents, excluding restricted cash and cash equivalents and those that are to be exchanged or used to settle liabilities more than twelve months after the balance sheet date.
- B. Liabilities that meet one of the following criteria are classified as current liabilities; otherwise they are classified as non-current liabilities:
  - (a) Liabilities that are expected to be settled within the normal operating cycle;
  - (b) Liabilities arising mainly from trading activities;
  - (c) Liabilities that are to be settled within twelve months from the balance sheet date;
  - (d) It does not have the right at the end of the reporting period to defer settlement of the liability at least twelve months after the reporting period.

#### (6) Cash equivalents

Cash equivalents refer to short-term, highly liquid investments that are readily convertible to known amounts of cash and which are subject to an insignificant risk of changes in value. Time deposits that meet the definition above and are held for the purpose of meeting short-term cash commitments in operations are classified as cash equivalents.

#### (7) Financial assets and financial liabilities at fair value through profit or loss

- A. Financial assets at amortized cost or fair value through other comprehensive income are designated as at fair value through profit or loss at initial recognition when they eliminate or significantly reduce a measurement or recognition inconsistency.
- B. On a regular way purchase or sale basis, financial assets at fair value through profit or loss are recognised and derecognised using trade date accounting.
- C. At initial recognition, the Group measures the financial assets at fair value and recognises the transaction costs in profit or loss. The Group subsequently measures the financial assets at fair value, and recognises the gain or loss in profit or loss.
- D. The Group recognises the dividend income when the right to receive payment is

established, future economic benefits associated with the dividend will flow to the Group and the amount of the dividend can be measured reliably.

#### (8) Financial assets at fair value through other comprehensive income

- A. Financial assets at fair value through other comprehensive income comprise equity securities which are not held for trading, and for which the Group has made an irrevocable election at initial recognition to recognise changes in fair value in other comprehensive income and debt instruments which meet all of the following criteria:
  - (a) The objective of the Group's business model is achieved both by collecting contractual cash flows and selling financial assets; and
  - (b) The assets' contractual cash flows represent solely payments of principal and interest.
- B. On a regular way purchase or sale basis, financial assets at fair value through other comprehensive income are recognised and derecognised using trade date accounting.
- C. At initial recognition, the Group measures the financial assets at fair value plus transaction costs. The Group subsequently measures the financial assets at fair value:

  The changes in fair value of equity investments that were recognised in other comprehensive income are reclassified to retained earnings and are not reclassified to profit or loss following the derecognition of the investment. Dividends are recognised as revenue when the right to receive payment is established, future economic benefits associated with the dividend will flow to the Group and the amount of the dividend can be measured reliably.

#### (9) Financial assets at amortised cost

- A. Financial assets at amortised cost are those that meet all of the following criteria:
  - (a) The objective of the Group's business model is achieved by collecting contractual cash flows.
  - (b) The assets' contractual cash flows represent solely payments of principal and interest.
- B. On a regular way purchase or sale basis, financial assets at amortised cost are recognised and derecognised using trade date accounting.
- C. At initial recognition, the Group measures the financial assets at fair value plus transaction costs. Interest income from these financial assets is included in finance income using the effective interest method. A gain or loss is recognised in profit or loss when the asset is derecognised or impaired.

#### (10) Accounts and notes receivable

- A. Accounts and notes receivable entitle the Group a legal right to receive consideration in exchange for transferred goods or rendered services.
- B. The short-term accounts and notes receivable without bearing interest are subsequently measured at initial invoice amount as the effect of discounting is immaterial.

#### (11) <u>Impairment of financial assets</u>

For debt instruments measured at fair value through other comprehensive income and financial assets at amortized cost (including accounts receivable or contract assets that have a significant financing component, lease receivables, loan commitments and financial guarantee contracts), at each reporting date, the Group recognises the impairment provision for 12 months expected credit losses if there has not been a significant increase in credit risk since initial recognition or recognises the impairment provision for the lifetime expected credit losses (ECLs) if such credit risk has increased since initial recognition after taking into consideration all reasonable and verifiable information that includes forecasts. On the other hand, for accounts receivable or contract assets that do not contain a significant financing component, the Group recognises the impairment provision for lifetime ECLs.

#### (12) Derecognition of financial assets

The Group derecognises a financial asset when the contractual rights to receive the cash flows from the financial asset expire.

The Group derecognises a financial asset when one of the following conditions is met:

- A. The contractual rights of the cash flows from the financial asset expire.
- B. The contractual rights to receive cash flows of the financial asset have been transferred and the Group has transferred substantially all risks and rewards of ownership of the financial asset.
- C. The contractual rights to receive cash flows of the financial asset have been transferred; however, the Group has not retained control of the financial asset.

#### (13) <u>Leasing arrangements(lessor) – operating leases</u>

Lease income from an operating lease (net of any incentives given to the lessee) is recognised in profit or loss on a straight-line basis over the lease term.

#### (14) <u>Inventories</u>

- A. The perpetual inventory system is adopted for inventory recognition. Inventories are stated at standard cost, and adjusted at the end of reporting period to approximate them to the cost calculated on a weighted average method.
- B. At the end of period, inventories are evaluated at the lower of cost or net realizable value, and the individual item approach is used in the comparison of cost and net realizable value. The calculation of net realizable value should be based on the estimated selling price in the normal course of business, net of estimated costs of completion and estimated selling expenses.

#### (15) Non-current assets held for sale

Non-current assets are classified as assets held for sale when their carrying amount is to be recovered principally through a sale transaction rather than through continuing use, and a sale is considered highly probable. They are stated at the lower of carrying amount and fair value less costs to sell.

#### (16) Investments accounted for using equity method / associates

- A. Associates are all entities over which the Group has significant influence but not control. In general, it is presumed that the investor has significant influence, if an investor holds, directly or indirectly 20 percent or more of the voting power of the investee. Investments in associates are accounted for using the equity method and are initially recognised at cost.
- B. The Group's share of its associates' post-acquisition profits or losses is recognised in profit or loss, and its share of post-acquisition movements in other comprehensive income is recognised in other comprehensive income. When the Group's share of losses in an associate equals or exceeds its interest in the associate, including any other unsecured receivables, the Group does not recognise further losses, unless it has incurred legal or constructive obligations or made payments on behalf of the associate.
- C. When changes in an associate's equity do not arise from profit or loss or other comprehensive income of the associate and such changes do not affect the Group's ownership percentage of the associate, the Group recognises change in ownership interests in the associate in 'capital surplus' in proportion to its ownership.
- D. Unrealised gains on transactions between the Group and its associates are eliminated to the extent of the Group's interest in the associates. Unrealised losses are also eliminated unless the transaction provides evidence of an impairment of the asset transferred. Accounting policies of associates have been adjusted where necessary to ensure consistency with the policies adopted by the Group.
- E. In the case that an associate issues new shares and the Group does not subscribe or acquire new shares proportionately, which results in a change in the Group's ownership percentage of the associate but maintains significant influence on the associate, then 'capital surplus' and 'investments accounted for using the equity method' shall be adjusted for the increase or decrease. If the above condition causes a decrease in the Group's ownership percentage of the associate, in addition to the above adjustment, the amounts previously recognised in other comprehensive income in relation to the associate are reclassified to profit or loss proportionately on the same basis as would be required if the relevant assets or liabilities were disposed of.
- F. When the Group disposes its investment in an associate and loses significant influence over this associate, the amounts previously recognised in other comprehensive income in relation to the associate, are reclassified to profit or loss, on the same basis as would be required if the relevant assets or liabilities were disposed of. If it retains significant influence over this associate, the amounts previously recognised in other comprehensive income in relation to the associate are reclassified to profit or loss proportionately in accordance with the aforementioned approach.

G. When the Group disposes its investment in an associate and loses significant influence over this associate, the amounts previously recognised as capital surplus in relation to the associate are transferred to profit or loss. If it retains significant influence over this associate, the amounts previously recognised as capital surplus in relation to the associate are transferred to profit or loss proportionately.

#### (17) Property, plant and equipment

- A. Property, plant and equipment are initially recorded at cost. Borrowing costs incurred during the construction period are capitalized.
- B. Subsequent costs are included in the asset's carrying amount or recognised as a separate asset, as appropriate, only when it is probable that future economic benefits associated with the item will flow to the Group and the cost of the item can be measured reliably. The carrying amount of discarded assets is derecognised when critical repairs are incurred, and other repair expenses are charged to profit or loss for the period when they incur.
- C. Land is not depreciated. Other property, plant and equipment apply cost model and are depreciated using the straight-line method to allocate their cost over their estimated useful lives. Each part of an item of property, plant, and equipment with a cost that is significant in relation to the total cost of the item must be depreciated separately.
- D. The assets' residual values, useful lives and depreciation methods are reviewed, and adjusted if appropriate, at each financial year-end. If expectations for the assets' residual values and useful lives differ from previous estimates or the patterns of consumption of the assets' future economic benefits embodied in the assets have changed significantly, any change is accounted for as a change in estimate under IAS 8, 'Accounting Policies, Changes in Accounting Estimates and Errors', from the date of the change. The estimated useful lives of property, plant and equipment are as follows:

Buildings and structures (included utility equipment)  $5 \sim 55$  years Machinery and equipment  $2 \sim 10$  years Transportation equipment  $4 \sim 5$  years Leasehold improvements  $2 \sim 5$  years Other equipment  $2 \sim 10$  years

#### (18) Leasing arrangements (lessee)—right-of-use assets/ lease liabilities

- A. Leases are recognised as a right-of-use asset and a corresponding lease liability at the date at which the leased asset is available for use by the Group. For short-term leases or leases of lowvalue assets, lease payments are recognised as an expense on a straight-line basis over the lease term.
- B. Lease liabilities include the net present value of the remaining lease payments at the commencement date, discounted using the incremental borrowing interest rate.

Lease payments are comprised of the following:

- (a) Fixed payments, less any lease incentives receivable; and
- (b) Variable lease payments that depend on an index or a rate.

The Group subsequently measures the lease liability at amortised cost using the interest method and recognises interest expense over the lease term. The lease liability is remeasured and the amount of remeasurement is recognised as an adjustment to the right-of-use asset when there are changes in the lease term or lease payments and such changes do not arise from contract modifications.

- C. At the commencement date, the right-of-use asset is stated at cost comprising the following:
  - (a) The amount of the initial measurement of lease liability; and
  - (b) Any lease payments made at or before the commencement date.

The right-of-use asset is measured subsequently using the cost model and is depreciated from the commencement date to the earlier of the end of the asset's useful life or the end of the lease term. When the lease liability is remeasured, the amount of remeasurement is recognised as an adjustment to the right-of-use asset.

#### (19) Investment property

An investment property is stated initially at its cost and measured subsequently using the cost model. Except for land, investment property is depreciated on a straight-line basis over its estimated useful life of  $10 \sim 55$  years.

#### (20) <u>Intangible assets</u>

The use right of computer software was capitalised based on the acquisition cost and cost to prepare the specific software to become usable. Computer software was amortized based on the contract or on a straight-line basis over 5 years.

#### (21) <u>Impairment of non-financial assets</u>

The Group assesses at each balance sheet date the recoverable amounts of those assets where there is an indication that they are impaired. An impairment loss is recognised for the amount by which the asset's carrying amount exceeds its recoverable amount. The recoverable amount is the higher of an asset's fair value less costs to sell or value in use. When the circumstances or reasons for recognising impairment loss for an asset in prior years no longer exist or diminish, the impairment loss is reversed. The increased carrying amount due to reversal should not be more than what the depreciated or amortized historical cost would have been if the impairment had not been recognised.

#### (22) Borrowings

Borrowings comprise long-term and short-term bank borrowings and other long-term and shortterm loans. Borrowings are recognised initially at fair value, net of transaction costs incurred. Borrowings are subsequently stated at amortized cost; any difference between the

proceeds (net of transaction costs) and the redemption value is recognised in profit or loss over the period of the borrowings using the effective interest method.

#### (23) Financial liabilities at fair value through profit or loss

- A. Financial liabilities are classified in this category of held for trading if acquired principally for the purpose of repurchasing in the short-term. Derivatives are also categorised as financial liabilities held for trading unless they are designated as hedges.
- B. At initial recognition, the Group measures the financial liabilities at fair value. All related transaction costs are recognised in profit or loss. The Group subsequently measures these financial liabilities at fair value with any gain or loss recognised in profit or loss.

#### (24) Notes and accounts payable

- A. Notes payable are liabilities for purchases of raw materials, goods or services and notes payable are those resulting from operating and non-operating activities.
- B. The short-term notes and accounts payable without bearing interest are subsequently measured at initial invoice amount as the effect of discounting is immaterial.

#### (25) Derecognition of financial liabilities

A financial liability is derecognised when the obligation under the liability specified in the contract is discharged or cancelled or expires.

#### (26) Offsetting financial instruments

Financial assets and liabilities are offset and reported in the net amount in the balance sheet when there is a legally enforceable right to offset the recognised amounts and there is an intention to settle on a net basis or realize the asset and settle the liability simultaneously.

#### (27) Provisions

Provisions are recognised when the Group has a present legal or constructive obligation as a result of past events, and it is probable that an outflow of economic resources will be required to settle the obligation and the amount of the obligation can be reliably estimated. Provisions are measured at the present value of the expenditures expected to be required to settle the obligation on the balance sheet date. Provisions are not recognised for future operating losses.

#### (28) Employee benefits

#### A. Short-term employee benefits

Short-term employee benefits are measured at the undiscounted amount of the benefits expected to be paid in respect of service rendered by employees in a period and should be recognised as expense in that period when the employees render service.

#### B. Pensions

#### (a) Defined contribution plans

For defined contribution plans, the contributions are recognised as pension expense when they are due on an accrual basis. Prepaid contributions are recognised as an asset to the extent of a cash refund or a reduction in the future payments.

#### (b) Defined benefit plans

- Net obligation under a defined benefit plan is defined as the present value of an amount of pension benefits that employees will receive on retirement for their services with the Group in current period or prior periods. The liability recognised in the balance sheet in respect of defined benefit pension plans is the present value of the defined benefit obligation at the balance sheet date less the fair value of plan assets. The net defined benefit obligation is calculated annually by independent actuaries using the projected unit credit method. The rate used to discount is determined by using interest rates of high-quality corporate bonds that are denominated in the currency in which the benefits will be paid, and that have terms to maturity approximating to the terms of the related pension liability; when there is no deep market in high-quality corporate bonds, the Group uses interest rates of government bonds (at the balance sheet date) instead.
- ii. Remeasurements arising on defined benefit plans are recognised in other comprehensive income in the period in which they arise and are recorded as retained earnings.

#### C. Employees' compensation and directors' remuneration

Employees' compensation and directors' remuneration are recognised as expenses and liabilities, provided that such recognition is required under legal or constructive obligation and those amounts can be reliably estimated. Any difference between the resolved amounts and the subsequently actual distributed amounts is accounted for as changes in estimates. If employee compensation is distributed by shares, the Company calculates the numbers of shares based on the closing price at the previous day of the board meeting resolution.

#### (29) Employee share-based payment

For the equity-settled share-based payment arrangements, the employee services received are measured at the fair value of the equity instruments granted at the grant date, and are recognised as compensation cost over the vesting period, with a corresponding adjustment to equity. The fair value of the equity instruments granted shall reflect the impact of market vesting conditions and vesting conditions. Compensation cost is subject to adjustment based on the service conditions that are expected to be satisfied and the estimates of the number of equity instruments that are expected to vest under the non-market vesting conditions at each balance sheet date. Ultimately, the amount of compensation cost recognised is based on the number of equity instruments that eventually vest.

#### (30) Income tax

A. The tax expense for the period comprises current and deferred tax. Tax is recognised in

- profit or loss, except to the extent that it relates to items recognised in other comprehensive income or items recognised directly in equity.
- B. The current income tax expense is calculated on the basis of the tax laws enacted or substantively enacted at the balance sheet date in the countries where the Company and its subsidiaries operate and generate taxable income. Management periodically evaluates positions taken in tax returns with respect to situations in accordance with applicable tax regulations. It establishes provisions where appropriate based on the amounts expected to be paid to the tax authorities. An additional tax is levied on the unappropriated retained earnings and is recorded as income tax expense in the year the stockholders resolve to retain the earnings.
- C. Deferred tax is recognised, using the balance sheet liability method, on temporary differences arising between the tax bases of assets and liabilities and their carrying amounts in the consolidated balance sheet. However, the deferred tax is not accounted for if it arises from initial recognition of goodwill or of an asset or liability in a transaction other than a business combination that at the time of the transaction affects neither accounting nor taxable profit or loss. Deferred tax is provided on temporary differences arising on investments in subsidiaries, except where the timing of the reversal of the temporary difference is controlled by the Group and it is probable that the temporary difference will not reverse in the foreseeable future. Deferred tax is determined using tax rates (and laws) that have been enacted or substantially enacted by the balance sheet date and are expected to apply when the related deferred income tax asset is realized or the deferred income tax liability is settled.
- D. Deferred tax assets are recognised only to the extent that it is probable that future taxable profit will be available against which the temporary differences can be utilized. At each balance sheet date, unrecognised and recognised deferred tax assets are reassessed.
- E. Current income tax assets and liabilities are offset and the net amount reported in the balance sheet when there is a legally enforceable right to offset the recognised amounts and there is an intention to settle on a net basis or realize the asset and settle the liability simultaneously. Deferred income tax assets and liabilities are offset on the balance sheet when the entity has the legally enforceable right to offset current tax assets against current tax liabilities and they are levied by the same taxation authority on either the same entity or different entities that intend to settle on a net basis or realize the asset and settle the liability simultaneously.
- F. A deferred tax asset shall be recognised for the carryforward of unused tax credits resulting from research and development expenditures to the extent that it is possible that future taxable profit will be available against which the unused tax credits can be utilized.

#### (31) Share capital

- A. Ordinary shares are classified as equity. Incremental costs directly attributable to the issue of new shares or stock options are shown in equity as a deduction, net of tax, from the proceeds.
- B. Where the Company repurchases the Company's equity share capital that has been issued, the consideration paid, including any directly attributable incremental costs (net of income taxes) is deducted from equity attributable to the Company's equity holders. Where such shares are subsequently reissued, the difference between their book value and any consideration received, net of any directly attributable incremental transaction costs and the related income tax effects, is included in equity attributable to the Company's equity holders.

#### (32) Dividends

Dividends are recorded in the Company's financial statements in the period in which they are resolved by the Company's shareholders. Cash dividends are recorded as liabilities; stock dividends are recorded as stock dividends to be distributed and are reclassified to ordinary shares on the effective date of new shares issuance.

#### (33) Revenue recognition

#### A. Sales of goods

- (a) The Group manufactures and sells cloud computing products and mobile communication products. Sales are recognised when control of the products has transferred, being when the products are delivered to the customer, and there is no unfulfilled obligation that could affect the customer's acceptance of the products. Delivery occurs when the products have been shipped to the specific location, the risks of obsolescence and loss have been transferred to the customer, and either the customer has accepted the products in accordance with the sales contract, or the Group has objective evidence that all criteria for acceptance have been satisfied.
- (b) Revenue from sales is recognised based on the price specified in the contract, net of the sales returns and sales discounts. The Group provides to customers the sales return right and sales discounts and recognises refund liability for expected sales discounts payable to customers in relation to sales by using the expected value method.
- (c) The Group's obligation to provide maintenance services for faulty products under the standard warranty terms is recognised as a provision.
- (d) A receivable is recognised when the goods are delivered as this is the point in time that the consideration is unconditional because only the passage of time is required before the payment is due.

#### B. Sales of services

- (a) The Group provides technology services and installment repairs and maintenance services. Revenue from providing services is recognised in the accounting period in which the services are rendered. The customer pays at the time specified in the payment schedule. If the services rendered exceed the payment, a contract asset is recognised. If the payments exceed the services rendered, a contract liability is recognised.
- (b) Some contracts include multiple deliverables. Such services are accounted for as a single performance obligation as they are highly interrelated and indistinguishable.

#### C. Incremental costs of obtaining a contract

The Group recognises as an asset the incremental costs of obtaining a contract with a customer if the Group expects to recover those costs. The recognised asset is amortized on a systematic basis that is consistent with the transfers to the customer of the goods or services to which the asset relates.

#### (34) Operating segments

Operating segments are reported in a manner consistent with the internal reporting provided to the chief operating decision-maker. The Group's chief operating decision-maker, who is responsible for allocating resources and assessing performance of the operating segments.

## 5. <u>CRITICAL ACCOUNTING JUDGEMENTS</u>, <u>ESTIMATES AND KEY SOURCES OF ASSUMPTION UNCERTAINTY</u>

The preparation of these consolidated financial statements requires management to make critical judgements in applying the Group's accounting policies and make critical assumptions and estimates concerning future events. Assumptions and estimates may differ from the actual results and are continually evaluated and adjusted based on historical experience and other factors. Such assumptions and estimates have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year; and the related information is addressed below:

(1) <u>Critical judgements in applying the Group's accounting policies</u> None.

#### (2) Critical accounting estimates and assumptions

Evaluation of inventories

As inventories are stated at the lower of cost and net realizable value, the Group must determine the net realizable value of inventories on balance sheet date using judgements and estimates. Due to the rapid technology innovation, the Group evaluates the amounts of normal inventory consumption, obsolete inventories or inventories without market selling value on balance sheet date, and writes down the cost of inventories to the net realizable value. Therefore, there might be material changes to the evaluation.

As of December 31, 2024, the carrying amount of inventories is described in Note 6(7).

#### 6. DETAILS OF SIGNIFICANT ACCOUNTS

#### (1) Cash and cash equivalents

	December 31, 2024		December 31, 2023	
Cash:				
Cash on hand and revolving funds	\$	481	\$	484
Checking accounts and demand deposits		5,044,109		3,574,106
Cash equivalents:				
Time deposits		2,301,375		4,166,439
Structured deposits		770,000	_	580,000
Total	\$	8,115,965	\$	8,321,029

- A. The Group transacts with a variety of financial institutions all with high credit quality to disperse credit risk, so it expects that the probability of counterparty default is remote.
- B. The Group has no cash and cash equivalents pledged to others.

#### (2) Financial assets at fair value through profit or loss

Items	December 31, 2024		December 31, 2023	
Current items:				_
Financial assets mandatorily measured at fair value through profit or loss				
Beneficiary certificates	\$	-	\$	140,000
Derivatives			_	
Subtotal		-		140,000
Valuation adjustment - Beneficiary certificates		-		2,351
Valuation adjustment - Derivatives		2,994		1,528
Total	\$	2,994	\$	143,879

- A. The Group recognised net gain (loss) of \$1,606 and \$(10,190) on financial assets at fair value through profit or loss for the years ended December 31, 2024 and 2023, respectively.
- B. The non-hedging derivative instrument transactions and contract information are as follows:

	December 31, 2024			
	·	Notional Amount		Fair Market Value
Financial Instrument	Item	(in tho	usands)	(in thousands)
MiTAC Digital Technology Corp.				
Forward foreign exchange - Sell	Advance booking EUR to buy USD	EUR	2,500	918
Forward foreign exchange - Sell	Advance booking AUD to buy USD	AUD	2,766	2,076

	December 31, 2023			
	Notional Amount Fair Market			Fair Market Value
Financial Instruments	Item	(in thousands)		(in thousands)
MiTAC Computing Technology Corp. Forward foreign exchange - Sell	Advance booking USD to buy NTD	USD	3,000	1,528

- C. The Group has no financial assets at fair value through profit or loss pledged to others.
- D. Information relating to credit risk of financial assets at fair value through profit or loss is provided in Note 12(2).

#### (3) Financial assets at fair value through other comprehensive income

Items	December 31, 2024		December 31, 2023	
Current items:				
Listed stocks	\$	900,306	\$	764,112
Valuation adjustment		829,592		975,713
Total	\$	1,729,898	\$	1,739,825
Non-current items:			_	
Listed stocks	\$	35,047,942	\$	35,047,942
Emerging stocks		366,560		366,560
Unlisted stocks		1,945,685		1,819,575
Subtotal		37,360,187		37,234,077
Valuation adjustment	(	2,433,709)		1,956,717
Total	\$	34,926,478	\$	39,190,794

- A. The Group recognised \$(4,536,176) and \$(1,736,468) in other comprehensive income (loss) for fair value change for the years ended December 31, 2024 and 2023, respectively.
- B. The Group has elected to designate the above investments, which were held mainly for medium to long-term trading purposes, as investments in equity instruments measured at fair value through other comprehensive income. As of December 31, 2024 and 2023, the fair value of investments were \$36,656,376 and \$40,930,619, respectively.

#### (4) Financial assets at amortised cost

τ.	De	December 31, 2024		cember 31,
Items				2023
Current items:				
Time deposits - over three months	\$	234,800	\$	34,800
Pledged deposits		891,180		861,073
	\$	1,125,980	\$	895,873
Non-current items:		_		
Pledged deposits	\$	518,134	\$	502,603
Other		23,440		
Total	\$	541,574	\$	502,603

- A. As of December 31, 2024 and 2023, without taking into account any collateral held or other credit enhancements, the maximum exposure to credit risk in respect of the amount that best represents the financial assets at amortised cost held by the Group were \$1,667,554 and \$1,398,476, respectively.
- B. Information relating to credit risk of financial assets at amortised cost is provided in Note 12(2).
- C. Details of the Group's financial assets at amortised cost pledged to others as collateral are provided in Note 8.

#### (5) Accounts receivable

	December 31, 2024		December 31, 2023	
Third parties	\$	14,470,463	\$	4,111,178
Less: Allowance for bad debts	(	62,657)	(	61,154)
		14,407,806		4,050,024
Related parties		1,150		63
	\$	14,408,956	\$	4,050,087

A. The ageing analysis of accounts receivable and notes receivable is as follows:

	D	December 31, 2024		December 31, 2023	
Not past due	\$	14,110,046	\$	3,930,655	
Up to 90 days		358,540		167,555	
91 to 180 days		2,426		12,600	
Over 181 days		601		431	
	\$	14,471,613	\$	4,111,241	

The above ageing analysis was based on past due date.

B. As of December 31, 2024 and 2023, accounts receivable were all from contracts with customers. And as of January 1, 2023, the balance of accounts receivable from contracts with customers amounted to \$8,094,688.

- C. As of December 31, 2024 and 2023, without taking into account any collateral held or other credit enhancements, the maximum exposure to credit risk in respect of the amount that best represents the Group's accounts receivable were \$14,408,956 and \$4,050,087, respectively.
- D. Information relating to credit risk of accounts receivable is provided in Note 12(2).

## (6) Other receivables

		December 31, 2024		December 31, 2023
Other receivables - purchasing raw materials on behalf	_		_	
of others	\$	12,179,830	\$	7,010,333
Other receivables - others (include related parties)	_	148,646		132,677
Total	\$_	12,328,476	\$	7,143,010

#### (7) <u>Inventories</u>

	D	ecember 31,	I	December 31,
		2024		2023
	1	Book value		Book value
Raw materials	\$	18,675,769	\$	6,893,884
Work in process		2,277,223		444,942
Finished goods		1,460,995	-	1,590,719
Total	\$	22,413,987	\$_	8,929,545
Expense and loss incurred on inventories:			_	

	For the year ended December 31										
		2024		2023							
Cost of goods sold	\$	54,760,051	\$	31,112,194							
Reversal of non-cancellable contract loss	(	46,063)	(	64,842)							
Gain on reversal of decline in market value	(	722,540)	(	1,147)							
	\$	53,991,448	\$	31,046,205							

As of December 31, 2024 and 2023, certain inventory with allowance for loss on decline in market value were sold, which resulted in the reversal of net realizable value of inventories.

## (8) Investments accounted for using equity method

A.

Investee company	De	ecember 31, 2024	De	ecember 31, 2023
Getac Holdings Corp.	\$	7,549,640	\$	6,689,677
3 Probe Technology Co., Ltd.		10,756		9,891
Lian Jie Investment Co., Ltd.		92,196		213,416
Lian Jie II Investment Co., Ltd.		35,494		42,207

Harbinger Ruyi II Venture Ltd.	63,984	77,746
Infopower Technologies Ltd.	63,147	60,405
	\$8,535,919	\$7,886,588

- B. The Group recognised its share of profit from associates accounted for using equity method for the years ended December 31, 2024 and 2023 amounting to \$1,385,480 and \$1,192,508, respectively, and recognised its share of other comprehensive income from associates accounted for using equity method amounting to \$401,678 and \$(43,094), respectively.
- C. The basic information of the associates that are material to the Group is as follows:

	Principal	Sharehole	ding ratio		
	place of	December 31,	December 31,	Nature of	Methods of
Company name	business	2024	2023	relationship	measurement
Getac HoldingsCorp.	Taiwan	30.80%	31.22%	Owned over	Equity method
				20% ownership	• •

D. The summarized financial information of the associates that are material to the Group is as follows:

#### Balance sheet

	Getac Holdings Corp.											
	De	De	ecember 31,									
			2023									
Current assets	\$	30,505,129	\$	27,537,351								
Non-current assets		16,010,945		14,048,030								
Current liabilities	(	14,624,825)	(	14,050,738)								
Non-current liabilities	(	4,846,077)	(	3,898,237)								
Non-controlling interest	(	2,534,523)	(	2,208,790)								
Total net assets	\$	24,510,649	\$	21,427,616								
Share in associate's net assets	\$	7,549,640	\$	6,689,677								

#### Statement of comprehensive income

	Getac Holdings Corp.											
	For the year ended December 31											
		2024		2023								
Revenue	\$	35,668,386	\$	34,792,558								
Profit for the period from continuing operations	\$	4,695,510	\$	3,957,417								
Other comprehensive income (loss) - net of tax		1,465,339	(_	51,105)								
Total comprehensive income	\$	6,160,849	\$	3,906,312								
Dividends received from associate	\$	950,860	\$	720,391								

E. The carrying amount of the Group's interests in all individually immaterial associates and the Group's share of the operating results are summarized below:

As of December 31, 2024 and 2023, the carrying amount of the Group's individually immaterial associates amounted to \$986,279 and \$1,196,911, respectively.

		For the year ende	ed December 31	
		_		
Profit for the period from continuing operations	\$	73,090	\$	154,114
Other comprehensive loss - net of tax	(	108,453)	(	108,415)
Total comprehensive income (loss)	\$ <u>(</u>	35,363)	\$	45,699

F. The fair value of the Group's material associates with quoted market prices is as follows:

	De	cember 31,	De	cember 31,
		2024		2023
Getac Holdings Corp.	\$	20,182,076	\$	21,134,060

- G. The Group holds 13.28% ownership in Mainpower International Ltd. but has significant influence over Mainpower International Ltd. as the Group serves as this company's corporate director.
- H. Infopower Technologies Ltd.'s fiscal year ends on March 31, thus, the Group used the financial information from January 1, 2024 to December 31, 2024 as the basis for the preparation of first quarter consolidated financial statements; other associates' fiscal year all end on December 31.
- I. The Group is the single largest shareholder of certain associates. Given that the Group has no majority voting rights, which indicates that the Group has no current ability to direct the decisions of relevant activities on meetings of their Board of Directors and shareholders after the comprehensive assessment. Thus, the Group has no control, but only has significant influence, over the associates.

Construction in

#### (10) Leasing arrangements — lessee

- A. The Group leases various assets including land, buildings and structures, machinery, office equipment and transportation equipment. Rental contracts are typically made for periods of 1 to 58 years. Lease terms are negotiated on an individual basis and contain a wide range of different terms and conditions. The lease agreements do not impose covenants.
- B. Certain leased buildings with lease terms under 12 months are short-term lease agreements. Additionally, the leased office equipment were low-value assets.
- C. The carrying amount of right-of-use assets and the depreciation charge are as follows:

	December 31, 2024			December 31, 2023
	Carr	Carrying amount		Carrying amount
Land	\$	699,02	8 \$	3 204,320
Buildings and structures		262,38	0	40,094
Machinery		46	6	126
•	\$	961,87	<u>4</u> \$	244,540
	For t	he year ende	d De	ecember 31
		2024		2023

Machinery		239		249
Transportation equipment				448
	\$	42,261	\$	44,547

- D. For the years ended December 31, 2024 and 2023, the additions to right-of-use assets were \$739,500 and \$5,086, respectively.
- E. The information on profit and loss accounts relating to lease contracts is as follows:

	For the year ended December 3			
		2024		2023
Interest expense on lease liabilities	\$	2,439	\$	2,291
Expense on short-term lease contracts		44,099		13,172
Expense on leases of low-value assets		161	_	1,431
	\$	46,699	\$	16,894

F. For the years ended December 31, 2024 and 2023, the Group's total cash outflow for leases was \$360,164 and \$61,675, respectively.

#### (11) Leasing arrangements — lessor

- A. The Group leases various assets including buildings and structures. Rental contracts are typically made for periods of 1 to 8 years. Lease terms are negotiated on an individual basis and contain a wide range of different terms and conditions.
- B. For the years ended December 31, 2024 and 2023, the Group recognised rent income in the amounts of \$150,008 and \$125,339, respectively, based on the operating lease agreement, which does not include variable lease payments.
- C. The maturity analysis of the lease payments under the operating leases is as follows:

	Dec	2024	De	ecember 31, 2023
Not later than one year	\$	122,508	\$	124,018
Later than one year but not later than five years		162,282		146,430
Over five years		-		9,861

A. Rental income from investment property and direct operating expenses arising from investment property are shown below:

	For the year ended December 31				
		2024		2023	
Rental income from the lease of the investment property	\$	40,321	\$	38,167	
Direct operating expenses arising from the investment property that generated rental income in the period	\$	28,889	\$	27,132	
Direct operating expenses arising from the investment property that did not generate rental income in the period	\$	15,064	\$	8,811	

B. The fair value of the investment property held by the Group on December 31, 2024 and 2023 were \$3,948,258 and \$3,813,033, respectively, which were revalued by independent appraisers and with reference to market transaction prices. Valuations were made using the market approach which is categorised within Level 3 in the fair value hierarchy.

#### (18) Pensions

#### A. Defined benefit plans

- (a) The Company's domestic subsidiaries have a defined benefit pension plan in accordance with the Labor Standards Law, covering all regular employees' service years prior to the enforcement of the Labor Pension Act on July 1, 2005 and service years thereafter of employees who chose to continue to be subject to the pension mechanism under the Law. Under the defined benefit pension plan, two units are accrued for each year of service for the first 15 years and one unit for each additional year thereafter, subject to a maximum of 45 units. Pension benefits are based on the number of units accrued and the average monthly salaries and wages of the last 6 months prior to retirement. The Company's domestic subsidiaries contribute monthly an amount equal to 2% of the employees' monthly salaries and wages to the retirement fund deposited with Bank of Taiwan, the trustee, under the name of the independent retirement fund committee. Also, the Company's domestic subsidiaries would assess the balance in the aforementioned labor pension reserve account by the end of December 31, every year. If the account balance is insufficient to pay the pension calculated by the aforementioned method, to the employees expected to be qualified for retirement next year, the Company's domestic subsidiaries will make contributions to cover the deficit by next March.
- (b) The amounts recognised in the balance sheet are determined as follows:

	Dec	2024		ember 31, 2023
Present value of defined benefit obligations	\$(	469,896)	\$(	495,538)

<sup>(</sup>d) The Bank of Taiwan was commissioned to manage the Fund of the Company's and

domestic subsidiaries' defined benefit pension plan in accordance with the Fund's annual investment and utilization plan and the "Regulations for Revenues, Expenditures, Safeguard and Utilization of the Labor Retirement Fund" (Article 6: The scope of utilization for the Fund includes deposit in domestic or foreign financial institutions, investment in domestic or foreign listed, over-the-counter, or private placement equity securities, investment in domestic or foreign real estate securitization products, etc.). With regard to the utilization of the Fund, its minimum earnings in the annual distributions on the final financial statements shall be no less than the earnings attainable from the amounts accrued from two-year time deposits with the interest rates offered by local banks. If the earnings is less than aforementioned rates, government shall make payment for the deficit after being authorized by the Regulator. The Company and its domestic subsidiaries have no right to participate in managing and operating that fund and hence the Company and its domestic subsidiaries are unable to disclose the classification of plan asset fair value in accordance with IAS 19 paragraph 142. The composition of fair value of plan assets as of December 31, 2024 and 2023 is given in the Annual Labor Retirement Fund Utilization Report announced by the government.

### (e) The principal actuarial assumptions used were as follows:

#### i. MiTAC International Corp. :

	2024	2023
Discount rate	1.500%	1.125%
Future salary increase	2.250%	2.250%
ii. MiTAC Computing Technology Corp. :		
	2024	2023
Discount rate	1.500%	1.250%
Future salary increase	2.250%	2.250%
iii. MiTAC Digital Technology Corp. :		
	2024	2023
Discount rate	1.500%	1.250%
Future salary increase	2.250%	2.250%

Assumptions regarding future mortality experience are set based on actuarial advice in accordance with published statistics and experience in each territory. Because the main actuarial assumption changed, the present value of defined benefit obligation is affected. The analysis was as follows:

#### i. MiTAC International Corp.:

	Discou	nt rate	Future salary increases			
	Increase 0.25%	Decrease 0.25%	Increase 0.25%	Decrease 0.25%		
December 31, 2024						
Effect on present value of defined benefit obligation	\$1,403	\$(1,434)	\$ <u>( 1,403</u> )\$	1,379		
December 31, 2023						
Effect on present value of defined benefit obligation	\$1,620	\$ <u>( 1,659)</u>	\$ <u>( 1,616</u> )\$	1,585		

#### ii. MiTAC Computing Technology Corp. :

	Discour	nt rate	Future salary increases				
	Increase 0.25%	Decrease 0.25%	Increase 0.25%	Decrease 0.25%			
December 31, 2024							
Effect on present value of defined benefit obligation	\$4,681	\$(4,824)	\$ <u>(</u> 4,701)\$	4,585			
December 31, 2023

#### iii. MiTAC Digital Technology Corp. :

	Discou	nt rate	Future salary increases				
	Increase 0.25%	Decrease 0.25%	Increase 0.25%	Decrease 0.25%			
December 31, 2024							
Effect on present value of defined benefit obligation	\$2,162	\$(2,229)	\$ <u>(</u>	2,116			
December 31, 2023							
Effect on present value of defined benefit obligation	\$2,356	\$ <u>(</u> 2,433)	\$(2,364)	2,301			

The sensitivity analysis above is based on other conditions that are unchanged but only one assumption is changed. In practice, more than one assumption may change all at once. The method of analysing sensitivity and the method of calculating net pension liability in the balance sheet are the same.

The method and assumptions used for the preparation of sensitivity analysis did not change compared to the previous period.

- (f) Expected contributions to the defined benefit pension plans of the Company's domestic subsidiaries for the next 12 months of December 31, 2024 amount to \$6,385.
- (g) As of December 31, 2024, the weighted average duration of that retirement plan is 4.9~8.3 years.

#### B. Defined contribution plans

(a) Effective July 1, 2005, the Company and its domestic subsidiaries have established a defined contribution pension plan (the "New Plan") under the Labor Pension Act (the

- "Act"), covering all regular employees with R.O.C. nationality. Under the New Plan, the Company and its domestic subsidiaries contribute monthly an amount based on 6% of the employees' monthly salaries and wages to the employees' individual pension accounts at the Bureau of Labor Insurance. The benefits accrued are paid monthly or in lump sum upon termination of employment.
- (b) The Company's Mainland China subsidiaries have a defined contribution plan. Monthly contributions to an independent fund administered by the government in accordance with the pension regulations in the People's Republic of China (PRC) are based on certain percentages of employees' monthly salaries and wages. Other than the monthly contributions, the Group has no further obligations.
- (c) The pension costs under the defined contribution pension plans of the Group for the years ended December 31, 2024 and 2023 were \$238,703 and \$238,199, respectively.

#### (19) Employee share-based payment

A.On December 31, 2024, the Group's share-based payment agreement was as follows:

			_	Vesting condi	tions

Options exercisable at the end of the year (Note)	25		-

Note: As of December 31, 2024, the requests for stock subscription has been submitted, but the payment for the subscription has not yet been completed.

For the year ended December 31, 2023: None.

3.As of December 31, 2024, the performance price of the Group's outstanding employee

stock option plan was NT\$ 15.89 dollars, and the weighted average remaining contract period is 5.72 years.

4. The Group uses the Black-Scholes option-pricing model to estimate the fair value of stock options for share-based payment transactions.

The parameters used in the estimation of the fair value are as follows:

						Expected		Weighted
			Exercise			dividends		average fair
	Grant	Fair Value	price (in	Expected	Expected	(in	Risk free	value (in
Type of agreement	date	(in dollars)	dollars)	volatility	duration	dollars)	interest rate	_dollars)_
MiTAC Digital	2024.9.20	\$ 19.39	\$ 17.06	35%~40%	6 years	\$ -	1.3512%	\$5.0777
Technology Corp	=				,			
Employee stock							1.3862%	\$7.2838
options								

5. The expenses incurred by share-based benefit transactions are as follows:

Net equity of

Pursuant to the R.O.C. Company Act, capital surplus arising from paid-in capital in excess of par value on issuance of common stocks and donations can be used to cover accumulated deficit or to issue new stocks or cash to shareholders in proportion to their share ownership, provided that the Company has no accumulated deficit. Further, the R.O.C. Securities and Exchange Act requires that the amount of capital surplus to be capitalised mentioned above should not exceed 10% of the paidin capital each year. Capital surplus should not be used to cover accumulated deficit unless the legal reserve is insufficient.

#### (23) Retained earnings

- A. Under the Company's Articles of Incorporation, the current year's earnings, if any, shall first be used to pay all taxes and offset prior years' accumulated deficit and then 10% of the remaining amount shall be set aside as legal reserve. Special reserve shall also be set aside or reversed pursuant to the regulations. Appropriation of the remainder along with prior year's accumulated unappropriated retained earnings shall be proposed by the Board of Directors, and shall be resolved by the stockholders when they are appropriated by issuing new shares. If the appropriation of retained earnings was appropriated in the form of cash, the appropriation should be in line with Article 240-5 of the Company Act, as resolved by a majority vote at a meeting of Board of Directors attended by two-thirds of the total number of directors, and reported to the shareholders' meeting.
- B. Earnings appropriation ratio and cash dividends ratio are decided by the Board of Directors, taking into account the Company's financial structure, future capital requirements and profitability, and cash dividends shall account for at least 10% of the total dividends appropriated. Earnings appropriation ratio and cash dividends ratio are subject to adjustments once approved by the stockholders.
- C. Except for covering accumulated deficit or issuing new stocks or cash to shareholders in

proportion to their share ownership, the legal reserve shall not be used for any other purpose. The use of legal reserve for the issuance of stocks or cash to shareholders in proportion to their share ownership is permitted, provided that the distribution of the reserve is limited to the portion in excess of 25% of the Company's paid-in capital.

In line with Article 241 of the Company Act, all or part of the legal reserve and capital reserve could be appropriated as cash dividends as resolved by a majority vote at a meeting of Board of Directors attended by two-thirds of the total number of directors, and reported to the shareholders' meeting.

D. In accordance with the regulations, the Company shall set aside special reserve from the debit balance on other equity items at the balance sheet date before distributing earnings.
 When debit balance on other equity items is reversed subsequently, the reversed amount could be included in the distributable earnings.

- deficit, earnings should be reserved to cover losses. Employees' compensation can be distributed by stock or dividends, and employees must be working for the Company. The Chairman of the Board is authorised to set the qualification requirements.
- B. For the years ended December 31, 2024 and 2023, employees' compensation was accrued at 0.1% of gain on pre-tax profit before deduction of employees' compensation and directors' remuneration. Directors' remuneration was accrued under 1% of gain on pre-tax profit before deduction of employees' compensation and directors' remuneration.
- C. For the years ended December 31, 2024 and 2023, employees' compensation was accrued at \$4,119 and \$2,213, respectively; and directors' remuneration was accrued at \$8,000 and \$6,500, respectively. The aforementioned amounts were recognised in salary expenses. Employees' compensation and directors' remuneration of 2024 and 2023 as resolved at the Board of Directors of the Company were in agreement with those amounts recognised in the 2024 and 2023 parent company only financial statements.
- D. Information about employees' compensation and directors' remuneration of the Company as resolved by the Board of Directors is available at the "Market Observation Post System" website of the Taiwan Stock Exchange.

#### (32) Income tax

Lease liabilities	\$	392,441	\$	132,194		

#### B. Financial risk management policies

The Group's activities expose it to a variety of financial risks: market risk (including foreign exchange risk, interest rate risk and price risk), credit risk and liquidity risk. The Group's overall risk management programme focuses on the unpredictability of financial markets and seeks to minimize potential adverse effects on the Group's financial position and financial performance. The Group uses derivative financial instruments to hedge certain risk exposures (see Notes 6(2) and 6(15)).

#### C. Significant financial risks and degrees of financial risks

#### (a) Market risk

## Foreign exchange risk

i. The Group's businesses involve some non-functional currency operations (the Company's and certain subsidiaries' functional currency: NTD; other certain subsidiaries' functional currency: USD and CNY). The information on assets and liabilities denominated in foreign currencies whose values would be materially affected by the exchange rate fluctuations is as follows:

## Price risk

- i. The Group's equity securities, which are exposed to price risk, are the held financial assets at fair value through profit or loss and financial assets at fair value through other comprehensive income. To manage its price risk arising from investments in equity securities, the Group diversifies its portfolio.
- ii. The Group's investments in equity securities comprise shares and open-end funds issued by the domestic or foreign companies. The prices of equity securities would change due to the change of the future value of investee companies. If the prices of these equity securities had increased/decreased by 1% with all other variables held constant, post-tax profit for the years ended December 31, 2024 and 2023 would have increased/decreased by \$0 and \$1,424, respectively. Other components of equity would have increased/decreased by \$366,564 and \$409,306, respectively, as a result of other comprehensive income classified as equity investment at fair value through other comprehensive income.

### Cash flow and fair value interest rate risk

- i. The Group's main interest rate risk arises from long-term and short-term borrowings with variable rates, which expose the Group to cash flow interest rate risk. For the years ended December 31, 2024 and 2023, the Group's borrowings at variable rate were mainly denominated in New Taiwan dollars and US Dollars.
- ii. If the borrowing interest rate had increased/ decreased by 0.01% with all other variables held constant, profit, net of tax for the years ended December 31, 2024 and 2023 would have decreased/ increased by \$267 and \$170, respectively. The main factor is that changes in interest expense result in floating-rate borrowings.

### (b) Credit risk

- Credit risk refers to the risk of financial loss to the Group arising from default by
  the clients or counterparties of financial instruments on the contract obligations.
  The main factor is that counterparties could not repay in full the accounts
  receivable based on the agreed terms, and the contract cash flows stated at
  amortised cost.
- ii. According to the Group's credit policy, each local entity in the Group is responsible for managing and analysing the credit risk for each of their new clients before standard payment and delivery terms and conditions are offered. Internal risk control assesses the credit quality of the customers, taking into account their financial position, past experience and other factors.
- iii. Individual risk limits are set based on internal or external factors in accordance with limits set by credit control manager. The utilisation of credit limits is regularly monitored.
- iv. For banks and financial institutions, only the institutions with good credit quality are accepted as counterparties.
- v. The default occurs when it expects that the contact payments cannot be recovered and are transferred to overdue receivables.
- vi. The following indicators are used to determine whether the credit impairment of debt instruments has occurred:
  - (i) It becomes probable that the issuer will enter bankruptcy or other financial reorganization due to their financial difficulties;
  - (ii) The disappearance of an active market for that financial asset because of financial difficulties;
  - (iii) Default or delinquency in interest or principal repayments;
  - (iv) Adverse changes in national or regional economic conditions that are expected to cause a default.
- vii. The Group classifies customers' repayment ability in accordance with the contract term and macroeconomic forecast included in the forecastability and related industry information. The Group applies the modified approach using group methodology to estimate expected credit loss.
- viii. The Group wrote-off the financial assets, which cannot be reasonably expected to be recovered, after initiating recourse procedures. However, the Group will continue executing the recourse procedures to secure their rights.
- ix. The Group considered the forecastability to adjust historical and timely information to assess the default possibility of accounts receivable. As of December 31, 2024 and 2023, the loss rate methodology is as follows:

December 31, 2024		Group A		Group B		Total	
Expected loss rate		0%-100%		0.006%-0.7%		_	
Value	\$	330,252	\$	26,321,191	\$	26,651,443	
Allowance		57,647		5,010		62,657	
December 31, 2023	_	Group A		Group B		Total	
Expected loss rate		0% - 100%		0.009%-0.7%			
Value	\$	268,791	\$	10,852,783	\$	11,121,574	
Allowance		59,144		2,010		61,154	

Group A: High-risk accounts: The evaluation module is based on payment records, financial indicators, contract fulfillment status, and related industry information.

Group B: Low-risk and medium-risk accounts: Entities provide good payment records, strong prospects, transparent financials or collateral.

x. Movements in relation to the Group applying the modified approach to provide loss allowance for accounts receivable is as follows:

		2024	
At January 1	\$		61,154
Provision for impairment			28
Effect of foreign exchange			1,475
At December 31	\$		62,657
		2023	
A+ Ionyomy 1	\$	2023	362,180
At January 1	φ		
Reversal of provision for impairment	(		304,300)
Write-off	(		200)
Effect of foreign exchange			3,474
At December 31	\$		61,154

## (c) Liquidity risk

- i. Cash flow forecasting is performed in the operating entities of the Group and aggregated by Group treasury. Group treasury monitors rolling forecasts of the Group's liquidity requirements to ensure it has sufficient cash to meet operational needs.
- ii. The table below analyses the Group's non-derivative financial liabilities and netsettled or gross-settled derivative financial liabilities into relevant maturity groupings based on the remaining period at the balance sheet date to the contractual maturity date for non-derivative financial liabilities and to the expected maturity date for derivative financial liabilities. The amounts disclosed in the table are the contractual undiscounted cash flows.

Non-derivative finan	cial	liabilities:				
		Less than	Between 1	Between 2		Over
December 31, 2024		1 year	and 2 years	and 3 years	_	3 years
Short-term						
borrowings	\$	2,174,503	\$ -	\$ -	\$	-
Accounts payable		22,891,436	-	-		-
Other payables		18,718,505	-	-		-
Lease liabilities		104,548	57,467	53,455		376,579
Guarantee deposits		33,894	5,113	1,714		11,488
Long-term borrowings		50,895	41.921	412.328		_

## Non-derivative financial liabilities:

	]	Less than	В	setween 1	Ве	etween 2	Over
December 31, 2023		1 year	ar	nd 2 years	and	d 3 years	 3 years
Short-term							
borrowings	\$	861,073	\$	-	\$	-	\$ -
Accounts payable		5,985,817		-		-	-
Other payables		9,402,684		-		-	-
Lease liabilities		31,430		28,106		8,715	76,983
Guarantee deposits		27,729		2,115		5,209	8,397
Long-term							
borrowings		257,944		102,225		84,099	-

## Derivative financial liabilities

As December 31, 2024 and 2023, the Group's derivative financial liabilities mature within one year.

iii. The Group does not expect the timing of occurrence of the cash flows estimated through the maturity date analysis will be significantly earlier, nor expect the actual cash flow amount will be significantly different.

## (3) Fair value information

- A. The different levels that the inputs to valuation techniques are used to measure fair value of financial instruments have been defined as follows:
  - Level 1: Quoted prices (unadjusted) in active markets for identical assets or liabilities.
  - Level 2: Inputs other than quoted prices included within level 1 that are observable for the asset or liability, either directly (that is, as prices) or indirectly (that is, derived from prices).
  - Level 3: Inputs for the asset or liability that are not based on observable market data.
- B. Fair value information of investment property at cost is provided in Note 6(12).
- C. Financial instruments not measured at fair value

  Including the carrying amounts of cash and cash equivalents, financial assets at amortised

cost, notes receivable, accounts receivable, other receivables, refundable deposits, short-term borrowings, accounts payable, other payables, long-term borrowings and guarantee deposits received are approximate to their fair values.

- D. The related information of financial and non-financial instruments measured at fair value by level on the basis of the nature, characteristics and risks of the assets and liabilities are as follows:
  - (a) The related information of natures of the assets and liabilities is as follows:

December 31, 2024 <u>Recurring fair value</u> <u>measurements Financial</u>	Level 1	Level 2	Level 3	Total
assets:	Φ	ф <b>2</b> 004	Φ	Φ 2.004
Forward exchange contracts	·	\$ 2,994		\$ 2,994
Equity securities	30,855,592		5,307,012	36,656,376
Total	\$ <u>30,855,592</u>	\$ <u>496,766</u>	\$ <u>5,307,012</u>	<u>\$36,659,370</u>
Recurring fair value measurements Financial liabilities:				
Forward exchange contracts	\$	\$	\$	\$28
December 31, 2023	Level 1	Level 2	Level 3	Total
Recurring fair value measurements Financial assets:				
Forward exchange contracts	\$ -	\$ 1,528	\$ -	\$ 1,528
Equity securities	35,920,224	368,403	4,784,343	41,072,970
Total	\$_35,920,224	\$ 369,931	\$_4,784,343	\$ <u>41,074,498</u>
Recurring fair value measurements Financial liabilities:				
Forward exchange contracts	\$	\$849	\$	\$849

- (b) The methods and assumptions the Group used to measure fair value are as follows:
  - i. The instruments the Group used market quoted prices as their fair values (that is, Level 1) are listed below by characteristics:

	Listed shares	Open-end fund
Market quoted price	Closing price	Net worth

- ii. Except for financial instruments with active markets, the fair value of other financial instruments is measured by using valuation techniques or by reference to counterparty quotes.
- iii. When assessing non-standard and low-complexity financial instruments, the Group adopts valuation technique that is widely used by market participants. The inputs used in the valuation method to measure these financial instruments are normally observable in the market.

- iv. The valuation of derivative financial instruments is based on valuation model widely accepted by market participants, such as present value techniques and option pricing models. Forward exchange contracts are usually valued based on the current forward exchange rate.
- v. The output of valuation model is an estimated value and the valuation technique may not be able to capture all relevant factors of the Group's financial and non-financial instruments. Therefore, the estimated value derived using valuation model is adjusted accordingly with additional inputs, for example, model risk or liquidity risk and etc. In accordance with the Group's management policies and relevant control procedures relating to the valuation models used for fair value measurement, management believes adjustment to valuation is necessary in order to reasonably represent the fair value of financial and non-financial instruments at the consolidated balance sheet. The inputs and pricing information used during valuation are carefully assessed and adjusted based on current market conditions.
- vi. The Group takes into account adjustments for credit risk to measure the fair value of financial and non-financial instruments to reflect credit risk of the counterparty and the Group's credit quality.
- E. For the year ended years ended December 31, 2024, there was no transfer between Level 1 and Level 2. For the year ended December 31, 2023, Whetron Electronics Co., Ltd. has been transferred to to level 1 from level 2.
- F. The following table presents the changes in Level 3 instruments as at December 31, 2024 and 2023:

		Equity securities						
		2024	2023					
January 1	\$	4,784,343	\$	3,909,355				
Proceeds from capital reduction for the period	(	18,513)	(	16,432)				
Acquired in the period		144,249		11,689				
Gains recognised in other comprehensive								
income		396,935		879,730				
Effects of foreign exchange	(	2)		1				
December 31	\$	5,307,012	\$	4,784,343				

- G. Investment department is in charge of valuation procedures for fair value measurements being categorized within Level 3, which is to verify independent fair value of financial instruments. Such assessment is to ensure the valuation results are reasonable by applying independent information to make results close to current market conditions, and reviewing the information periodically.
- H. The following is the qualitative information of significant unobservable inputs and sensitivity analysis of changes significant unobservable inputs to valuation model used in

Level 3 fair value measurements:

	 r value at lber 31, 2024	Valuation technique	Significant unobservable input	Range (weighted average)	Relationship of inputs to fair value
Non-derivative equity instrument:					
Unlisted shares	\$ 5,307,012	Net asset value	Net asset value	-	The higher the net asset value, the higher the fair value.
	 r value at lber 31, 2023	Valuation technique	Significant unobservable input	Range (weighted average)	Relationship of inputs to fair value
Non-derivative equity instrument:					
Unlisted shares	\$ 4,784,343	Net asset value	Net asset value	-	The higher the net asset value, the higher the fair value.

I. The Group has carefully assessed the valuation models and assumptions used to measure fair value; therefore, the fair value measurement is reasonable. However, use of different valuation models or assumptions may result in difference measurement. The following is the effect of profit or loss or of other comprehensive income from financial assets and liabilities categorised within Level 3 if the inputs used to valuation models have changed:

					Dec	embe	r 31, 2	2024		
			Pagagr	sicad ir	n profit or l	OCC		Recognise comprehens

## 13. SUPPLEMENTARY DISCLOSURES

## (1) Significant transactions information

- A. Loans to others: Please refer to table 1.
- B. Provision of endorsements and guarantees to others: Please refer to table 2.
- C. Holding of marketable securities at the end of the period (not including subsidiaries, associates and joint ventures): Please refer to table 3.
- D. Acquisition or sale of the same security with the accumulated cost exceeding NT\$300 million or 20% of the Company's paid-in capital: Please refer to table 4.
- E. Acquisition of real estate reaching NT\$300 million or 20% of paid-in capital or more: Please refer to table 5.
- F. Disposal of real estate reaching NT\$300 million or 20% of paid-in capital or more: None.
- G. Purchases or sales of goods from or to related parties reaching NT\$100 million or 20% of paidin capital or more: Please refer to table 6.
- H. Receivables from related parties reaching NT\$100 million or 20% of paid-in capital or more: Please refer to table 7.
- I. Trading in derivative instruments undertaken during the reporting periods: Please refer to Notes 6(2) and (15).
- J. Significant inter-company transactions during the reporting periods: Please refer to table 8.

## (2) <u>Information on investees</u>

Names, locations and other information of investee companies (not including investees in Mainland China): Please refer to table 9.

## (3) Information on investments in Mainland China

- A. Basic information: Please refer to table 10.
- B. Significant transactions, either directly or indirectly through a third area, with investee companies in the Mainland Area: Please refer to tables 6 and 10.

## (4) Major shareholders information

Major shareholders information: Please refer to table 11.

## 14. SEGMENT INFORMATION

## (1) General information

Management has determined the reportable operating segments based on the reports reviewed by the Chief Operating Decision-Maker that are used to make strategic decisions. The Group's Chief Operating Decision-Maker manages business from the perspectives of cloud computing product business group and automotive electronics and AIoT business group.

The Group's company organization, basis of department segmentation and principles for measuring segment information for the period were not significantly changed.

## (2) <u>Information about segment profit or loss, assets and liabilities</u>

The segment information provided to the Chief Operating Decision-Maker for the reportable segments and reconciliations are as follows:

		Fo	or the	e year ended I	Dece	mber 31, 2024	4	
				automotive				
		Cloud		ctronics and				
Item		computing siness group	Al	oT business group		Others		Total
Revenue	\$	51,715,298	\$	6,983,065	\$	2,661,489	\$	61,359,852
Segment gain (loss)		1,893,693		119,427	(	229,512)		1,783,608
		Fo	or the	e year ended I	Dece	mber 31, 2023	3	
			A	utomotive				
		Cloud	ele	ctronics and				
		computing	ΑI	oT business				
Item	bı	isiness group		group		Others		Total
Revenue	\$	27,941,418	\$	4,961,249	\$	2,633,346	\$	35,536,013
Segment gain (loss)		374,371		107,318	(	413,984)		67,705

## (3) Reconciliation for segment income (loss)

The revenue from external customers reported to the Chief Operating Decision-Maker is measured in a manner consistent with that in the statement of comprehensive income.

A reconciliation of reportable segment income or loss to the income/(loss) before tax from continuing operations for the years ended December 31, 2024 and 2023 is provided as follows:

_	For 1	the year ended	Dec	ember 31
Items		2024		2023
(Loss) profit for reportable segments	\$	1,783,608	\$	67,705
Unallocated:				
Share of profits and losses from affiliates and joint ventures accounted for using the equity method		1,385,480		1,192,508
Dividend revenue		797,372		738,126
Interest revenue		180,810		144,287
Net currency exchange gains (losses)		265,347	(	225,250)
Gains (losses) on disposal of investments		402	(	1,317)
Other income		150,457		85,201
Income before tax from operations	\$	4,563,476	\$	2,001,260

## (4) <u>Information on products and services</u>

	F	or the year ende	ed I	December 31
		2024		2023
Sales	\$	60,514,594	\$	35,235,345
Other revenue		845,258	_	300,668
Total	\$	61,359,852	\$_	35,536,013

## (5) Geographical information

For the years ended December 31, 2024 and 2023, revenues and non-current assets from certain regions are listed below:

			Fo	or the year ende	ed L	December 31		
		202	4			20	23	
			I	Assets - non-			I	Assets - non-
		Revenue		current		Revenue		current
Taiwan	\$	1,302,839	\$	5,325,038	\$	1,253,370	\$	4,859,411
USA		37,371,643		683,845		14,578,369		678,258
Europe		11,469,422		80,833		5,661,780		87,267
Others	_	11,215,948	_	3,396,716	_	14,042,494	_	3,258,076
Total	\$	61,359,852	\$_	9,486,432	\$_	35,536,013	\$_	8,883,012

## (6) Major customer information

For the years ended December 31, 2024 and 2023, the major customer information of the Group are listed below:

	Fo	r the year ende	d December 31,
Customer		Revenue	Percentage of total revenue
Customer A	\$	34,240,387	56%
	Fo	r the year ende	d December 31,
			Percentage of
Customer		Revenue	total revenue
Customer A	\$	12,339,857	35%
Customer C		3,776,908	11%

- (2) Short-term financing
- Note 3: (1) MiTAC Holdings Corp. (the Company)'s total borrowing amount of short-term financing should not exceed 40% of the net worth on the latest financial statements audited or reviewed by independent auditors. The borrowing amount for each borrowing company should not exceed 40% of the net worth of the Company.
  - (2)MiTAC International Corp.'s total borrowing amount of short-term financing should not exceed 40% of the net worth on the latest financial statements audited or reviewed by independent auditors. The borrowing amount for each borrowing company should not exceed 40% of the net worth of the Company.
  - (3)MiTAC Computing Technology Corp.'s short-term financing limit should not exceed 40% of the net worth on the latest financial statements audited or reviewed by independent auditors.
  - (4)For companies with which Mitac Computing Technology Corp. has business dealings, the short-term financing limit should not exceed 100% of the net worth on the latest financial statements audited or reviewed by independent auditors. The limit of loaning to individual company shall not exceed the total amount of estimated business transactions between the two parties in the past two years or the next one year, or 100% of the previously stated net value, whichever is lower. The so-called business transaction amount refers to the total amount of investment, purchase, sales and other transactions between the two parties.
  - (5)MiTAC Digital Technology Corp.'s short-term financing limit should not exceed 40% of the net worth on the latest financial statements audited or reviewed by independent auditors.
  - (6)If Silver Star Developments Ltd. was lending to the ultimate parent company and foreign subsidiaries owned 100% directly and indirectly by the ultimate parent company, the borrowing amount to each borrowing company and the total borrowing amount should not be higher than 200% of the net worth on the latest financial statements audited by independent auditors.
  - (7)If Silver Star Developments Ltd. was lending to domestic subsidiaries owned 100% directly and indirectly by the ultimate parent company, the borrowing amount to each borrowing amount should not be higher than 40% of the net worth on the latest financial statements audited by independent auditors.
  - (8)For companies with which Silver Star Developments Ltd. has business dealings, the individual loan limit is based on the total amount of business dealings in the past five years or 200% of the net value of the company's most recent financial statement that has been audited or reviewed by an accountant, whichever is lower. The total loan limit is limited to 200% of the company's most recent net worth of financial statements that have been audited or reviewed by accountants. The so-called business transaction amount refers to the total amount including but not limited to investment, purchase, sales and other transactions between the two parties.
  - (9) The borrowing amount and the total borrowing amount of MiTAC Computing Technology USA Corp. lending to the ultimate parent company and it's direct and indirect wholly-owned foreign subsidiaries should not exceed 200% of the net worth on the latest financial statements audited by independent auditors.
  - (10) If MiTAC Investment Holding Ltd. was lending to the ultimate parent company and foreign subsidiaries owned 100% directly and indirectly by the ultimate parent company, the borrowing amount to each borrowing company and the total borrowing amount should not be higher than 200% of the net worth on the latest financial statements audited by independent auditors.
  - (11) If MiTAC Research (Shanghai) Ltd. was lending to the ultimate parent company and domestic subsidiaries owned 100% directly and indirectly by the ultimate parent company, the borrowing amount to each borrowing company and the total borrowing amount should not be higher than 200% of the net worth on the latest financial statements audited by independent auditors.
  - (12) If Access Wisdom Holdings Ltd. was lending to domestic subsidiaries owned 100% directly and indirectly by the ultimate parent company, the borrowing amount to each borrowing company and the total borrowing amount should not be higher than 40% of the net worth on the latest financial statements audited by independent auditors.
  - (13) If Mio International Ltd. was lending to the ultimate parent company and foreign subsidiaries owned 100% directly and indirectly by the ultimate parent company, the borrowing amount to each borrowing company and the total borrowing amount should not be higher than 200% of the net worth on the latest financial statements audited by independent auditors.
  - (14) If Mio International Ltd. was lending to domestic subsidiaries owned 100% directly and indirectly by the ultimate parent company, the borrowing amount to each borrowing amount should not be higher than 40% of the net worth on the latest financial statements audited by independent auditors.
  - (15) If MiTAC Digital Technology Corp. was lending to the ultimate parent company and foreign subsidiaries owned 100% directly and indirectly by the ultimate parent company, the borrowing amount to each borrowing amount should not be higher than 200% of the net worth on the latest financial statements audited by independent auditors.

Provision of endorsements and guarantees to others For the year ended December 31, 2024

Note 1: The numbers filled in for the transaction company in respect of inter-company transactions are as follows:

- (1) Parent company is "0".
- (2) The subsidiaries are numbered in order starting from "1".
- Note 2: Relationship between transaction company and counterparty is classified into the following three categories:
  - (1) Parent company to subsidiary.
  - (2) Subsidiary to parent company.
  - (3) Subsidiary to subsidiary.
- Note 3: Regarding percentage of transaction amount to consolidated total operating revenues or total assets, it is computed based on period-end balance of transaction to consolidated total assets for balance sheet accounts and based on accumulated transaction amount for the period to consolidated total operating revenues for income statement accounts.
- Note 4: The Group's credit term for foreign related parties is 5 months for the collection of the net amount of receivables after offsetting against payables, which takes into consideration the reasonable amount of time for the Company to ship the products to each company and for the collection of the accounts. The company's sales price with related parties is based on the intermational market trends and the region the sales were made.

Note 5: The Group's payment term for foreign related parties is 5 months for the collection of the net amount of receivables after offsetting against payables after checking and the transaction price is based on the international market trends and the region the sales were made.

Note 6: The Company may decide to disclose or not to disclose transaction details in this table based on the Materiality Principle.
